## **Certain Definitions**

The following definitions apply throughout this quarterly report unless the context requires otherwise:

'We', 'Us', 'Company', 'Willis Towers Watson', 'Our', 'Willis Towers Watson plc' or 'WTW'

Willis Towers Watson Public Limited Company, a company organized under the laws of

Ireland, and its subsidiaries

'shares' The ordinary shares of Willis Towers Watson Public Limited Company, nominal value

\$0.000304635 per share

'Legacy Willis' or 'Willis' Willis Group Holdings Public Limited Company and its subsidiaries, predecessor to

Willis Towers Watson, prior to the Merger

'Legacy Towers Watson' or 'Towers Watson'

Towers Watson' Towers Watson & Co. and its subsidiaries

'Merger' Merger of Willis Group Holdings Public Limited Company and Towers Watson & Co.

pursuant to the Agreement and Plan of Merger, dated June 29, 2015, as amended on

November 19, 2015, and completed on January 4, 2016

'TRANZACT' CD&R TZ Holdings, Inc. and its subsidiaries, doing business as TRANZACT

'U.S.' United States
'U.K.' United Kingdom

'Brexit' The United Kingdom's exit from the European Union, which occurred on January 31,

2020.

'E.U.' European Union or European Union 27 (the number of member countries following the

United Kingdom's exit)

'U.S. GAAP' United States Generally Accepted Accounting Principles

'FASB' Financial Accounting Standards Board

'ASU' Accounting Standards Update

'ASC' Accounting Standards Codification

'SEC' Securities and Exchange Commission

#### **Disclaimer Regarding Forward-looking Statements**

We have included in this document 'forward-looking statements' within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created by those laws. These forward-looking statements include information about possible or assumed future results of our operations. All statements, other than statements of historical facts, that address activities, events or developments that we expect or anticipate may occur in the future, including such things as our outlook, the impact of the COVID-19 pandemic on our business, our pending business combination with Aon plc, future capital expenditures, ongoing working capital efforts, future share repurchases, growth in revenue, the impact of changes to tax laws on our financial results, existing and evolving business strategies and acquisitions and dispositions, demand for our services and competitive strengths, goals, the benefits of new initiatives, growth of our business and operations, our ability to successfully manage ongoing organizational and technology changes, including investments in improving systems and processes, and plans and references to future successes, including our future financial and operating results, plans, objectives, expectations and intentions are forward-looking statements. Also, when we use words such as 'may,' 'will,' 'would,' 'anticipate,' 'believe,' 'estimate,' 'expect,' 'intend,' 'plan,' 'probably,' or similar expressions, we are making forward-looking statements. Such statements are based upon the current beliefs and expectations of the Company's management and are subject to significant risks and uncertainties. Actual results may differ from those set forth in the forward-looking statements. All forward-looking disclosure is speculative by its nature.

There are important risks, uncertainties, events and factors that could cause our actual results or performance to differ materially from those in the forward-looking statements contained in this document, including the following:

- our ability to successfully establish, execute and achieve our global business strategy as it evolves;
- changes in demand for our services, including any decline in consulting services, defined benefit pension plans or the purchasing of insurance;
- changes in general economic, business and political conditions, including changes in the financial markets;
- the risk that the COVID-19 pandemic substantially and negatively impacts the demand for our products and services and cash flows, and/or
  continues to materially impact our business operations, including increased demand on our information technology resources and systems and
  related risks of cybersecurity breaches or incidents;
- the risks relating to or arising from our pending business combination with Aon plc announced in March 2020, including, among others, our ability to consummate the transaction, including on the terms of the business combination agreement, on the anticipated timeline, and/or with the required regulatory approvals;
- significant competition that we face and the potential for loss of market share and/or profitability;
- the impact of seasonality and differences in timing of renewals;
- the failure to protect client data or breaches of information systems or insufficient safeguards against cybersecurity breaches or incidents;
- the risk of increased liability or new legal claims arising from our new and existing products and services, and expectations, intentions and outcomes relating to outstanding litigation;
- the risk the Stanford litigation settlement approval will be overturned on appeal, the risk that the Stanford bar order may be challenged in other jurisdictions, and the risk that the charge related to the Stanford settlement may not be deductible;
- the risk of substantial negative outcomes on existing litigation or investigation matters;
- changes in the regulatory environment in which we operate, including, among other risks, the impacts of pending competition law and regulatory investigations;
- various claims, government inquiries or investigations or the potential for regulatory action;
- our ability to make divestitures or acquisitions and our ability to integrate or manage such acquired businesses (including the recently-completed acquisition in Latin America);
- our ability to successfully hedge against fluctuations in foreign currency rates;
- our ability to integrate direct-to-consumer sales and marketing solutions with our existing offerings and solutions;
- · our ability to comply with complex and evolving regulations related to data privacy and cyber security;
- · our ability to successfully manage ongoing organizational changes, including investments in improving systems and processes;
- · disasters or business continuity problems;
- · the impact of Brexit;

- risks relating to the U.S. 2020 election, including a potential increase in the corporate tax rate;
- our ability to successfully enhance our billing, collection and other working capital efforts, and thereby increase our free cash flow;
- the potential impact of the anticipated replacement of the London Interbank Offered Rate ('LIBOR');
- our ability to properly identify and manage conflicts of interest;
- · reputational damage, including from association with third parties;
- reliance on third-party services;
- · the loss of key employees;
- doing business internationally, including the impact of exchange rates;
- compliance with extensive government regulation;
- the risk of sanctions imposed by governments, or changes to associated sanction regulations;
- our ability to effectively apply technology, data and analytics changes for internal operations, maintaining industry standards and meeting client preferences;
- changes and developments in the insurance industry or the U.S. healthcare system, including those related to Medicare;
- the inability to protect the Company's intellectual property rights, or the potential infringement upon the intellectual property rights of others;
- fluctuations in our pension assets and liabilities;
- our capital structure, including indebtedness amounts, the limitations imposed by the covenants in the documents governing such indebtedness and the maintenance of the financial and disclosure controls and procedures of each;
- our ability to obtain financing on favorable terms or at all;
- · adverse changes in our credit ratings;
- the impact of recent changes to U.S. tax laws, including on our effective tax rate, and the enactment of additional, or the revision of existing, state, federal, and/or foreign regulatory and tax laws and regulations;
- U.S. federal income tax consequences to U.S. persons owning at least 10% of our shares;
- changes in accounting principles, estimates or assumptions;
- fluctuation in revenue against our relatively fixed or higher than expected expenses;
- · the laws of Ireland being different from the laws of the U.S. and potentially affording less protections to the holders of our securities; and
- our holding company structure potentially preventing us from being able to receive dividends or other distributions in needed amounts from our subsidiaries.

The foregoing list of factors is not exhaustive and new factors may emerge from time to time that could also affect actual performance and results. For more information, please see Part II, Item 1A 'Risk Factors' in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K, and our subsequent filings with the SEC, including definitive additional materials, the merger proxy statement and other filings generally applicable to significant transactions and related integrations that are or will be filed with the SEC. Copies are available online at http://www.sec.gov or www.willistowerswatson.com.

Although we believe that the assumptions underlying our forward-looking statements are reasonable, any of these assumptions, and therefore also the forward-looking statements based on these assumptions, could themselves prove to be inaccurate. In light of the significant uncertainties inherent in the forward-looking statements included in this document, our inclusion of this information is not a representation or guarantee by us that our objectives and plans will be achieved.

Our forward-looking statements speak only as of the date made, and we will not update these forward-looking statements unless the securities laws require us to do so. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this document may not occur, and we caution you against relying on these forward-looking statements.

## Note 1 — Nature of Operations

Willis Towers Watson plc is a leading global advisory, broking and solutions company that helps clients around the world turn risk into a path for growth. The Company has more than 45,000 employees and services clients in more than 140 countries.

We design and deliver solutions that manage risk, optimize benefits, cultivate talent, and expand the power of capital to protect and strengthen institutions and individuals.

Our risk management services include strategic risk consulting (including providing actuarial analysis), a variety of due diligence services, the provision of practical on-site risk control services (such as health and safety and property loss control consulting), and analytical and advisory services (such as hazard modeling and reinsurance optimization studies). We also assist our clients with planning for addressing incidents or crises when they occur. These services include contingency planning, security audits and product tampering plans.

We help our clients enhance business performance by delivering consulting services, technology and solutions that optimize benefits and cultivate talent. Our services and solutions encompass such areas as employee benefits, total rewards, talent and benefits outsourcing. In addition, we provide investment advice to help our clients develop disciplined and efficient strategies to meet their investment goals and expand the power of capital.

As an insurance broker, we act as an intermediary between our clients and insurance carriers by advising on their risk management requirements, helping them to determine the best means of managing risk and negotiating and placing insurance with insurance carriers through our global distribution network.

We operate a private Medicare marketplace in the U.S. through which, along with our active employee marketplace, we help our clients move to a more sustainable economic model by capping and controlling the costs associated with healthcare benefits. Additionally, with the acquisition of TRANZACT in July 2019 (see Note 3 – Acquisitions and Divestitures), we also provide direct-to-consumer sales of Medicare coverage.

We are not an insurance company, and therefore we do not underwrite insurable risks for our own account. We believe our broad perspective allows us to see the critical intersections between talent, assets and ideas - the dynamic formula that drives business performance.

# Proposed Combination with Aon plc

On March 9, 2020, WTW and Aon plc ('Aon') issued an announcement disclosing that the respective boards of directors of WTW and Aon had reached agreement on the terms of a recommended acquisition of WTW by Aon. Under the terms of the agreement each WTW shareholder will receive 1.08 Aon ordinary shares for each WTW ordinary share. At the time of the announcement, it was estimated that upon completion of the combination, existing Aon shareholders will own approximately 63% and existing WTW shareholders will own approximately 37% of the combined company on a fully diluted basis.

The transaction was approved by the shareholders of both WTW and Aon during meetings of the respective shareholders held on August 26, 2020 and remains subject to other customary closing conditions, including required regulatory approvals. We are required to be in substantial compliance with the Request for Additional Information and Documentary Materials issued by the Antitrust Division of the U.S. Department of Justice on June 29, 2020, referred to as a Second Request. In addition, there are numerous other regulatory approvals and other closing conditions that need to be met. The parties expect the transaction to close in the first half of 2021, subject to satisfaction of these conditions.

## Note 2 — Basis of Presentation and Recent Accounting Pronouncements

# **Basis of Presentation**

The accompanying unaudited quarterly condensed consolidated financial statements of Willis Towers Watson and our subsidiaries are presented in accordance with the rules and regulations of the SEC for quarterly reports on Form 10-Q and therefore do not include all of the information and footnotes required by U.S. GAAP. In the opinion of management, these condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, which are necessary for a fair presentation of the condensed consolidated financial statements and results for the interim periods. All intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements should be read together with the Company's Annual Report on Form 10-K, filed with the SEC on February 26, 2020, and may be accessed via EDGAR on the SEC's web site at www.sec.gov.

The results of operations for the three and nine months ended September 30, 2020 are not necessarily indicative of the results that can be expected for the entire year. The Company experiences seasonal fluctuations of its revenue. Revenue is typically higher during the Company's first and fourth quarters due primarily to the timing of broking-related activities. The results reflect certain estimates and assumptions made by management, including those estimates used in calculating acquisition consideration and fair value of tangible and intangible assets and liabilities, professional liability claims, estimated bonuses, valuation of billed and unbilled receivables, and anticipated tax liabilities that affect the amounts reported in the condensed consolidated financial statements and related notes.

## Risks and Uncertainties Related to the COVID-19 Pandemic

The COVID-19 pandemic has had an adverse impact on global commercial activity, including the global supply chain, and has contributed to significant volatility in the financial markets including, among other effects, occasional declines in the equity markets, changes in interest rates and reduced liquidity on a global basis. In light of the effects on our own business operations and those of our clients, suppliers and other third parties with whom we interact, the Company has considered the impact of COVID-19 on our business. This analysis takes into account our business resilience and continuity plans, financial modeling and stress testing of liquidity and financial resources.

The analysis concluded that the COVID-19 pandemic did not have a material adverse impact to our financial results for the first quarter of 2020; however, we expected that the impact of COVID-19 on general economic activity could negatively impact our revenue and operating results for the remainder of 2020. During the second and third quarters of 2020, while the COVID-19 pandemic did have a negative impact on revenue growth, primarily in our businesses that are discretionary in nature, generally it had no material impact on our overall results.

As part of the significant estimates and assumptions that are inherent in our financial statements, the Company has considered multiple scenarios, with both positive and negative inputs. These inputs are based on client behavior and the economic environment throughout the first nine months of 2020 as COVID-19 has moved throughout the geographies in which we operate. These estimates and assumptions include the collectability of billed and unbilled receivables, the estimation of revenue, and the fair value of our reporting units, tangible and intangible assets and contingent consideration. With regard to collectability of receivables, the Company believes it may face atypical delays in client payments going forward. The demand for certain discretionary lines of business has decreased, and we believe that decrease may continue to impact our financial results in succeeding periods. Non-discretionary lines of business may also be adversely affected, for example reduced economic activity or disruption in insurance markets could reduce the demand for or the extent of insurance coverage. Also, the increased frequency and severity of coverage disputes between our clients and (re)insurers arising out of the pandemic could increase our professional liability risk. We will continue to monitor the situation and assess possible implications to our business and our stakeholders.

The extent to which COVID-19 impacts our business and financial position will depend on future developments, which are difficult to predict. These future developments may include the severity and scope of the COVID-19 outbreak, which may unexpectedly change or worsen, and the types and duration of measures imposed by governmental authorities to contain the virus or address its impact. We continue to expect that the COVID-19 pandemic will negatively impact our revenue and operating results for the remainder of 2020 and beyond. We believe that these trends and uncertainties are similar to those faced by other comparable registrants as a result of the pandemic.

#### CARES Act

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ('CARES') Act was enacted in the U.S. to provide relief to companies in the midst of the COVID-19 pandemic and to stimulate the economy. The assistance includes temporary tax relief and government loans, grants and investments for entities in affected industries.

With regard to the income tax provisions of the CARES Act, the Company has reviewed its eligibility requirements, including if and how they apply and how they will affect the Company, particularly provisions that (i) eliminate the taxable income limit for certain net operating losses ('NOLs') and allow businesses to carry back NOLs arising in 2018, 2019 and 2020 to the five prior tax years; (ii) generally relaxed the business interest limitation under section 163(j) from 30 percent to 50 percent; and (iii) fix the 'retail glitch' for qualified improvement property.

During the three months ended June 30, 2020, the Company elected to use the section 163(j) 50 percent business interest limitation for tax years 2019 and 2020. Utilizing this temporary provision, the Company realized a cash tax benefit in 2020 of approximately \$37 million for tax years 2019 and 2020. The Company will recognize tax expense of approximately \$25 million and \$24 million for the 2019 and 2020 tax years, respectively, primarily related to an incremental Base Erosion and Anti-Abuse Tax ('BEAT'). During the three and nine months ended September 30, 2020, the Company recorded tax expense of \$3 million and \$38 million, respectively, relating to the 2019 and 2020 tax years, and expects to recognize the remaining \$11 million BEAT expense in the fourth quarter of 2020.

Additionally, the CARES Act offers an employee retention credit to encourage employers to maintain headcounts even if employees cannot report to work because of issues related to COVID-19 as well as a temporary provision allowing companies to defer remitting

the employer share of some payroll taxes to the government. The payroll tax provisions of the CARES Act were not material for the nine months ended September 30, 2020 and are currently not expected to be material for calendar year 2020.

## **Recent Accounting Pronouncements**

#### Not Yet Adopted

In December 2019, the FASB issued ASU No. 2019-12, *Simplifying the Accounting for Income Taxes*, which clarifies and amends existing guidance, including removing certain exceptions to the general principles of accounting for income taxes. This ASU becomes effective for the Company on January 1, 2021. Some of the changes must be applied on a retrospective or modified retrospective basis while others must be applied on a prospective basis. Early adoption is permitted. The Company does not plan to adopt this ASU early and is assessing the expected impact on our condensed consolidated financial statements.

In August 2020, the SEC issued amendments to its disclosure rules to modernize the requirements in Regulation S-K, Item 101 on description of a business, Item 103 on legal proceedings, and Item 105 on risk factors. These amendments are intended to improve the readability of disclosures, reduce repetition, and eliminate immaterial information, thereby simplifying compliance for registrants and making disclosures more meaningful for investors. The amendments to the disclosure requirements related to a registrant's description of its business and risk factors are intended to expand the use of a principles-based approach that gives registrants more flexibility to tailor disclosures. The amendments to the disclosure requirements related to legal proceedings continue to reflect the current, more prescriptive approach because those requirements depend less on a registrant's specific characteristics. Further, additional human capital disclosures are required as part of the amendments to the description of the business. The final rule is effective on November 9, 2020, and the Company will incorporate these changes as part of our annual filing on Form 10-K.

# Adopted

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses: Measurement of Credit Losses on Financial Instruments*, which amended the guidance on the impairment of financial instruments. The ASU added an impairment model (known as the current expected credit loss ('CECL') model) that is based on expected losses rather than incurred losses. Under the new guidance, an entity recognizes as an allowance its estimate of lifetime expected credit losses on assets measured at amortized cost, which is intended to result in more timely recognition of such losses. The ASU was also intended to reduce the complexity of U.S. GAAP by decreasing the number of credit impairment models that entities use to account for debt instruments. Further, the ASU made targeted changes to the impairment model for available-for-sale debt securities. Additional ASUs were subsequently issued which provided amended and additional guidance for the implementation of ASU No. 2016-13. All related guidance has been codified into, and is now known as, ASC 326, *Financial Instruments—Credit Losses* ('ASC 326'). ASC 326 became effective for the Company on January 1, 2020, at which time we adopted it. This ASU did not have a material impact on our condensed consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, *Simplifying the Test for Goodwill Impairment*, which simplifies the subsequent measurement of goodwill by eliminating Step 2 from the goodwill impairment test. In computing the implied fair value of goodwill under Step 2, previous U.S. GAAP required the performance of procedures to determine the fair value at the impairment testing date of assets and liabilities (including unrecognized assets and liabilities) following the procedure that is required in determining the fair value of assets acquired and liabilities assumed in a business combination. Instead, the amendments under this ASU require the goodwill impairment test to be performed by comparing the fair value of a reporting unit with its carrying amount. An impairment charge would be recognized for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The ASU became effective for the Company on January 1, 2020, at which time we adopted it. The amendments in this ASU are applied on a prospective basis. There is no immediate impact to our condensed consolidated financial statements upon adopting this ASU, until such time as the next goodwill impairment test is performed (to be performed as of October 1, 2020 during the fourth quarter). The most recent Step 1 goodwill impairment test resulted in fair values in excess of carrying values for all reporting units at October 1, 2019.

In August 2018, the FASB issued ASU 2018-13, *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* as part of its disclosure framework project. The focus of this project is to improve the effectiveness of disclosures in the notes to the financial statements by facilitating clear communication of the information required by U.S. GAAP that is most important to users of an entity's financial statements. This ASU removes certain disclosure requirements and adds or modifies other requirements. This ASU was effective for the Company on January 1, 2020, at which time we adopted it. Certain provisions of the ASU were required to be adopted retrospectively, while others were required to be adopted prospectively. This ASU did not have a material impact on the notes to our condensed consolidated financial statements.

In March 2020, the SEC issued a final rule that amends the disclosure requirements related to certain registered securities under SEC Regulation S-X, Rules 3-10 and 3-16 which currently require separate financial statements for subsidiary issuers and guarantors of registered debt securities unless certain exceptions are met, and affiliates that collateralize registered securities offerings if the affiliates' securities are a substantial portion of the collateral. The final rule is generally effective for filings on or after January 4, 2021, however early application is permitted. The most pertinent portions of the final rule that are currently applicable to the Company include: (i) replacing the previous requirement under Rule 3-10 to provide condensed consolidating financial information in the

registrant's financial statements with a requirement to provide alternative financial disclosures (which include summarized financial information of the parent and any issuers and guarantors, as well as other qualitative disclosures) in either the registrant's Management's Discussion & Analysis section or its financial statements; and, (ii) reducing the periods for which summarized financial information is required to the most recent annual period and year-to-date interim period. The Company elected to early-adopt the provisions of the final rule during the three months ended March 31, 2020. Further, the new reduced quantitative disclosures and accompanying qualitative disclosures as required by this final rule are in Item II, *Management's Discussion and Analysis of Financial Condition and Results of Operations* on this Form 10-Q.

In March 2020, the FASB issued ASU No. 2020-04, *Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which provides optional expedients and exceptions for accounting for contracts, hedging relationships and other transactions affected by reference rate reform if certain criteria are met. The amendments apply only to contracts, hedging relationships and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. This ASU became effective for the Company on March 12, 2020. The Company may apply the changes relating to contracts from January 1, 2020 or from a later date. The Company has made no contract modifications thus far to transition to a different reference rate, however it will consider this guidance as future modifications are made.

#### Note 3 — Acquisitions and Divestitures

#### TRANZACT Acquisition

On July 30, 2019, the Company acquired TRANZACT, a U.S.-based provider of comprehensive, direct-to-consumer sales and marketing solutions for leading insurance carriers in the U.S. TRANZACT leverages digital, data and direct marketing solutions to deliver qualified leads, fully-provisioned sales and robust customer management systems to brands seeking to acquire and manage large numbers of consumers. Pursuant to the terms of the acquisition agreement, subject to certain adjustments, the consideration consisted of \$1.3 billion paid in cash at closing. Additional contingent consideration in the form of a potential earn-out of up to \$17 million is to be paid in cash in 2021 based on the achievement of certain financial targets. The acquisition was initially funded in part with a \$1.1 billion one-year term loan, with the remainder being funded from the Company's existing revolving credit facility. TRANZACT operates as part of our Benefits Delivery and Administration segment and enhances the Company's existing Medicare broking offering, while also adding significant direct-to-consumer marketing experience.

A summary of the fair values of the identifiable assets acquired, and liabilities assumed, of TRANZACT at July 30, 2019 are summarized in the following table.

| Cash and cash equivalents                       | \$<br>7     |
|---|-------------|
| Restricted cash                                 | 2           |
| Accounts receivable, net                        | 3           |
| Renewal commissions receivable, current (i)     | 36          |
| Prepaid and other current assets                | 22          |
| Renewal commissions receivable, non-current (i) | 130         |
| Fixed assets                                    | 9           |
| Intangible assets                               | 646         |
| Goodwill  | 718         |
| Right-of-use assets                             | 19          |
| Other non-current assets                        | 2           |
| Collateralized facility                         | (91)        |
| Other current liabilities                       | (55)        |
| Deferred tax liabilities, net                   | (100)       |
| Lease liabilities                               | (19)        |
| Net assets acquired                             | \$<br>1,329 |

<sup>(</sup>i) Renewal commissions receivables arise from direct-to-consumer Medicare broking sales. Cash collections for these receivables are expected to occur over a period of several years. Due to the provisions of ASC 606, these receivables are not discounted for a significant financing component when initially recognized. However, as a result of recognizing the fair value of these receivables in accordance with ASC 805, *Business Combinations*, these receivables have now been present-valued at the acquisition date. Prior to this fair value adjustment, the carrying value of these receivables was \$231 million. The adjusted values of these acquired renewal commissions receivables will be included in prepaid and other current assets or other non-current assets, as appropriate, on the condensed consolidated balance sheets. The acquired renewal commissions receivables will be accounted for prospectively using the cost-recovery method in which future cash receipts will initially be applied against the acquisition date fair value until the value reaches zero. Any cash received in excess of the fair value determined at acquisition will be recorded to earnings when it is received at a future date.

Intangible assets consist primarily of \$612 million of customer relationships, with an expected life of 15.4 years. Additional intangibles acquired consist of domain names.

Goodwill is calculated as the difference between the aggregate consideration and the acquisition date fair value of the net assets acquired, including the intangible assets acquired, and represents the value of TRANZACT's assembled workforce and the future economic benefits that we expect to achieve as a result of the acquisition. None of the goodwill recognized on the transaction is tax deductible, however there is tax deductible goodwill that will be carried forward from previous acquisitions by TRANZACT.

During the nine months ended September 30, 2020, purchase price allocation adjustments were made primarily to adjust the deferred tax liabilities. The purchase price allocation as of the acquisition date is now complete.

Revenue related to TRANZACT was \$96 million and \$278 million during the three and nine months ended September 30, 2020, respectively.

#### Other Acquisitions

Other acquisitions were completed during the nine months ended September 30, 2020 for combined cash payments of \$74 million and contingent consideration with an estimated fair value of \$9 million.

#### Max Matthiessen Divestiture

In September 2020, the Company completed the transaction to sell its Swedish majority-owned subsidiary MM Holding AB ('Max Matthiessen') for total consideration of SEK 2.3 billion (\$262 million) plus certain other adjustments, resulting in a tax-exempt gain on the sale of \$86 million, which is included in Other income, net in the condensed consolidated statement of operations. Of the total consideration, the Company financed a SEK 600 million (\$68 million) note repayable by the purchaser. The note has no fixed term but is repayable subject to certain terms and conditions and bears an interest rate that could range from 5% to 10%, increasing the longer the note remains outstanding. This note receivable is included in Other non-current assets in the condensed consolidated balance sheet. The Company entered into certain foreign currency transactions to hedge the consideration to be received against fluctuations in foreign exchange rates (see Note 8 — Derivative Financial Instruments). Prior to disposal, Max Matthiessen was included within the Investment, Risk and Reinsurance segment.

#### Note 4 — Revenue

## Disaggregation of Revenue

The Company reports revenue by segment in Note 5 — Segment Information. The following tables present revenue by service offering and segment, as well as reconciliations to total revenue for the three and nine months ended September 30, 2020 and 2019. Along with reimbursable expenses and other, total revenue by service offering represents our revenue from customer contracts.

(i) Reimbursable expenses and other, as well as Corporate revenue, are excluded from segment revenue, but included in total revenue on the condensed consolidated statements of comprehensive income. Amounts included in Corporate revenue may include eliminations and impacts from hedged revenue transactions.

(ii) Interest and other income is included in segment revenue and total revenue, however it has been presented separately in the above tables because it does not arise directly from contracts with customers.

The following tables present revenue by the geography where our work is performed for the three and nine months ended September 30, 2020 and 2019. Reconciliations to total revenue on our condensed consolidated statements of comprehensive income and to segment revenue are shown in the tables above.

## Contract Balances

The Company reports accounts receivable, net on the condensed consolidated balance sheet, which includes billed and unbilled receivables and current contract assets. In addition to accounts receivable, net, the Company had the following non-current contract assets and deferred revenue balances at September 30, 2020 and December 31, 2019:

|   | Septe | mber 30, 2020 | Decen | nber 31, 2019 |
|---|-------|---------------|-------|---------------|
| Billed receivables, net of allowance for doubtful accounts of \$43 million and \$37 million | \$    | 1,550         | \$    | 1,831         |
| Unbilled receivables  |       | 484           |       | 434           |
| Current contract assets   |       | 189           |       | 356           |
| Accounts receivable, net  | \$    | 2,223         | \$    | 2,621         |
| Non-current accounts receivable, net  | \$    | 38            | \$    | 30            |
| Non-current contract assets   | \$    | 197           | \$    | 105           |
| Deferred revenue  | \$    | 602           | \$    | 538           |

During the three and nine months ended September 30, 2020, revenue of \$45 million and \$447 million, respectively, was recognized that was reflected as deferred revenue at December 31, 2019. During the three months ended September 30, 2020, revenue of \$211 million was recognized that was reflected as deferred revenue at June 30, 2020.

During the three and nine months ended September 30, 2020, the Company recognized revenue of \$15 million and \$32 million, respectively, related to performance obligations satisfied prior to 2020.

## Performance Obligations

The Company has contracts for which performance obligations have not been satisfied as of September 30, 2020 or have been partially satisfied as of this date. The following table shows the expected timing for the satisfaction of the remaining performance obligations. This table does not include contract renewals or variable consideration, which was excluded from the transaction prices in accordance with the guidance on constraining estimates of variable consideration.

In addition, in accordance with ASC 606, *Revenue From Contracts With Customers* ('ASC 606'), the Company has elected not to disclose the remaining performance obligations when one or both of the following circumstances apply:

- · Performance obligations which are part of a contract that has an original expected duration of less than one year, and
- Performance obligations satisfied in accordance with ASC 606-10-55-18 ('right to invoice').

|   | Rem | nainder of |           |    | 2022  |             |  |
|---|-----|------------|-----------|----|-------|-------------|--|
|   |     | 2020       | 2021      | 0  | nward | Total       |  |
| Revenue expected to be recognized on contracts as of September 30, 2020 | \$  | 169        | \$<br>489 | \$ | 760   | \$<br>1,418 |  |

Since most of the Company's contracts are cancellable with less than one year's notice, and have no substantive penalty for cancellation, the majority of the Company's remaining performance obligations as of September 30, 2020 have been excluded from the table above.

# Note 5 — Segment Information

Willis Towers Watson has four reportable operating segments or business areas:

- Human Capital and Benefits ('HCB')
- · Corporate Risk and Broking ('CRB')
- Investment, Risk and Reinsurance ('IRR')
- Benefits Delivery and Administration ('BDA')

Willis Towers Watson's chief operating decision maker is its chief executive officer. We determined that the operational data used by the chief operating decision maker is at the segment level. Management bases strategic goals and decisions on these segments and the data presented below is used to assess the adequacy of strategic decisions and the methods of achieving these strategies and related financial results. Management evaluates the performance of its segments and allocates resources to them based on net operating income on a pre-tax basis.

The Company experiences seasonal fluctuations of its revenue. Revenue is typically higher during the Company's first and fourth quarters due primarily to the timing of broking-related activities.

The following table presents segment revenue and segment operating income for our reportable segments for the three months ended September 30, 2020 and 2019.

<sup>(</sup>i) Includes transaction costs related to the proposed Aon combination in 2020 and the TRANZACT acquisition in 2019.

The Company does not currently provide asset information by reportable segment as it does not routinely evaluate the total asset position by segment.

# Note 6 — Income Taxes

Provision for income taxes for the three and nine months ended September 30, 2020 was \$46 million and \$199 million, respectively, compared to \$20 million and \$125 million for the three and nine months ended September 30, 2019, respectively. The effective tax rates were 27.6% and 27.1% for the three and nine months ended September 30, 2020, respectively, and 20.4% and 19.3% for the three and nine months ended September 30, 2019, respectively. These effective tax rates are calculated using extended values from our condensed consolidated statements of comprehensive income and are therefore more precise tax rates than can be calculated from rounded values. The current quarter effective tax rate is higher as a result of the enacted statutory tax rate changes in the U.K., requiring us to remeasure our U.K. deferred tax liabilities and recognize a discrete deferred tax expense of \$11 million during the three months ended September 30, 2020. The current year effective tax rate for the nine months ended September 30, 2020 is higher primarily due to tax expense of \$38 million recognized in connection with the temporary income tax provisions of the CARES Act. During the second quarter of 2020, the Company elected to utilize the higher section 163(j) 50 percent business interest limitation for tax years 2019 and 2020, which allows the Company to utilize additional interest expense. The utilization of additional interest expense reduces our regular tax liability, reduces our ability to utilize foreign tax credits and creates a base erosion minimum tax expense for these tax years.

On April 7, 2020 the U.S. Department of Treasury finalized regulations on specific aspects of U.S. Tax Reform. During the first quarter ended March 31, 2020, the Company estimated the potential impact of the final regulations and its retroactive application to be between \$50 million and \$82 million. Subsequently the Company concluded that the final regulations were not applicable. As a result, our remeasurement of the estimated impact resulted in no tax expense being recognized pursuant to this aspect of U.S. Tax Reform during the nine months ended September 30, 2020.

<sup>(</sup>ii) Includes certain costs, primarily related to corporate functions which are not directly related to the segments, and certain differences between budgeted expenses determined at the beginning of the year and actual expenses that we report for U.S. GAAP purposes.

The Company recognizes deferred tax balances related to the undistributed earnings of subsidiaries when it expects that it will recover those undistributed earnings in a taxable manner, such as through receipt of dividends or sale of the investments. Historically, we have not provided taxes on cumulative earnings of our subsidiaries that have been reinvested indefinitely. As a result of our plans to restructure or distribute accumulated earnings of certain foreign operations, we have recorded an estimate of foreign withholding and state income taxes. However, we assert that the historical cumulative earnings of our other subsidiaries are reinvested indefinitely, and therefore do not provide deferred tax liabilities on these amounts.

The Company records valuation allowances against net deferred tax assets based on whether it is more likely than not that the deferred tax assets will be realized. We have liabilities for uncertain tax positions under ASC 740 of \$48 million, excluding interest and penalties. The Company believes the outcomes that are reasonably possible within the next 12 months may result in a reduction in the liability for uncertain tax positions of approximately \$4 million to \$8 million, excluding interest and penalties.

## Note 7 — Goodwill and Other Intangible Assets

The components of goodwill are outlined below for the nine months ended September 30, 2020:

|                                    | нсв         | CRB         | IRR         | BDA         | Total        |

| Balance at September 30, 2020:              | ·       |                     | <br>         |                          |           |             |
| Intangible assets, gross                    |         | 3,999               | 748          | 1,051                    | 107       | 5,905       |
| Accumulated amortization                    |         | (1,917)             | (627)        | (207)                    | (29)      | (2,780)     |
| Intangible assets, net - September 30, 2020 | \$      | 2,082               | \$<br>121    | \$<br>844                | \$<br>78  | \$<br>3,125 |

The weighted-average remaining life of amortizable intangible assets at September 30, 2020 was 13.4 years.

The table below reflects the future estimated amortization expense for amortizable intangible assets for the remainder of 2020 and for subsequent years:

|                   | Amo | rtization |
|-------------------|-----|-----------|
| Remainder of 2020 | \$  | 107       |
| 2021              |     | 382       |
| 2022              |     | 323       |
| 2023              |     | 270       |
| 2024              |     | 238       |
| Thereafter        |     | 1,805     |
| Total             | \$  | 3,125     |

#### Note 8 — Derivative Financial Instruments

We are exposed to certain foreign currency risks. Where possible, we identify exposures in our business that can be offset internally. Where no natural offset is identified, we may choose to enter into various derivative transactions. These instruments have the effect of reducing our exposure to unfavorable changes in foreign currency rates. The Company's board of directors reviews and approves policies for managing this risk as summarized below. Additional information regarding our derivative financial instruments can be found in Note 10 — Fair Value Measurements and Note 16 — Accumulated Other Comprehensive Loss.

### Foreign Currency Risk

Certain non-U.S. subsidiaries receive revenue and incur expenses in currencies other than their functional currency, and as a result, the foreign subsidiary's functional currency revenue and/or expenses will fluctuate as the currency rates change. Additionally, the forecasted Pounds sterling expenses of our London brokerage market operations may exceed their Pounds sterling revenue, and the entity with such operations may also hold significant foreign currency asset or liability positions in the condensed consolidated balance sheet. To reduce such variability, we use foreign exchange contracts to hedge against this currency risk.

These derivatives were designated as hedging instruments and at September 30, 2020 and December 31, 2019 had total notional amounts of \$429 million and \$499 million, respectively, and had a net fair value liability of \$3 million and a net fair value asset of \$8 million, respectively.

At September 30, 2020, the Company estimates, based on current exchange rates, there will be \$5 million of net derivative losses on forward exchange rates reclassified from accumulated other comprehensive loss into earnings within the next twelve months as the forecast transactions affect earnings. At September 30, 2020, our longest outstanding maturity was 1.5 years.

The effects of the material derivative instruments that are designated as hedging instruments on the condensed consolidated statements of comprehensive income for the three and nine months ended September 30, 2020 and 2019 are below. Amounts pertaining to the ineffective portion of hedging instruments and those excluded from effectiveness testing were immaterial for the three and nine months ended September 30, 2020 and 2019.

|  |    |                | Gain/(   | loss) recognized in | OCI (effe | ctive element)  |             |       |

| Forward exchange contracts   | \$ | 6              | \$       | (8)                 | \$        | (21)            | \$          | (10)  |
| Location of loss reclassified from Accumulated OCL into income (effective element) |    |                |          | rom Accumulated     |           | ,               |             | 20    |
|  | Th | ree months end | ed Septe | mber 30,            | N         | line months end | ed Septembe | r 30, |
|  | 2  | 020            |          | 2019                |           | 2020            | 2           | 019   |
| Revenue  | \$ | (2)            | \$       | (1)                 | \$        | (3)             | \$          | (3)   |
| Salaries and benefits  |    | (2)            |          | (1)                 |           | (5)             |             | (5)   |
|  | \$ | (4)            | \$       | (2)                 | \$        | (8)             | \$          | (8)   |

We also enter into foreign currency transactions, primarily to hedge certain intercompany loans and other balance sheet exposures in currencies other than the functional currency of a given entity. These derivatives are not generally designated as hedging instruments and at September 30, 2020 and December 31, 2019, we had notional amounts of \$1.5 billion and \$931 million, respectively, and had net fair value assets of \$3 million and \$21 million, respectively.

The effects of derivatives that have not been designated as hedging instruments on the condensed consolidated statements of comprehensive income for the three and nine months ended September 30, 2020 and 2019 are as follows:

|  |  |    |                     | (  | Gain/(loss) reco | gnized | l in income          |         |   |
|--|--|----|---------------------|----|------------------|--------|----------------------|---------|---|
|  |  |    | Three Mor<br>Septem |    |                  |        | Nine Mont<br>Septeml |         |   |
| Derivatives not designated as hedging instruments: | Location of gain/(loss) recognized in income | 2  | 2020                |    | 2019             |        | 2020                 | 2019    |   |
| Forward exchange contracts                         | Other income, net                            | \$ | 5                   | \$ | 6                | \$     | (15)                 | \$<br>• | 2 |

On June 10, 2020, we entered into certain foreign currency transactions to hedge the consideration to be received from the forthcoming divestiture of our Max Matthiessen business (see Note 3 — Acquisitions and Divestitures) against fluctuations in foreign exchange rates. The notional value of these contracts was approximately \$273 million, of which approximately \$181 million had been designated as a hedge of net investment, on an after-tax basis, against the carrying value of the net assets of Max Matthiessen. The settlement of the hedging instruments resulted in a \$1 million loss during the three months ended September 30, 2020, which was included in the net gain on disposal.

#### Note 9 — Debt

Current debt consists of the following:

|  | Sept | ember 30,<br>2020 | De | ecember 31,<br>2019 |

| 3.875% senior notes due 2049             |    | 542                   | 542             |
|  | \$ | 4,641                 | \$<br>5,301     |

<sup>(</sup>i) At September 30, 2020 and December 31, 2019, the Company had \$105 million and \$127 million, respectively, of renewal commissions receivables pledged as collateral for this facility.

#### Senior Notes

On May 29, 2020, the Company, together with its wholly-owned subsidiary, Willis North America Inc. as issuer, completed an offering of an additional \$275 million aggregate principal amount of 2.950% senior notes due 2029 ('2029 senior notes'). Willis North America Inc. previously issued \$450 million aggregate principal amount on September 10, 2019 (the 'Initial Notes'), all of which Initial Notes remain outstanding. The 2029 senior notes will be treated as a single class with, and otherwise identical to, the Initial Notes other than with respect to the date of issuance, the issue price and the amounts paid to holders for each class of note on the first interest payment date. The effective interest rate of the 2029 senior notes is 2.697%, which includes the impact of the premium upon issuance. The 2029 senior notes will mature on September 15, 2029. Interest accrues on the 2029 senior notes from March 15, 2020 and will be paid in cash on March 15 and September 15 of each year, commencing on September 15, 2020. The net proceeds from this offering, after deducting underwriter discounts and commissions and estimated offering expenses, were \$280 million (excluding

<sup>(</sup>ii) Notes issued in Euro (€540 million)

accrued interest on the 2029 senior notes from March 15, 2020 to, but not including, May 29, 2020, of \$2 million payable to us on such date). The net proceeds were used to repay \$175 million of the full principal amount and related accrued interest under the term loan facility, which was set to expire in July 2020, as well as repay \$105 million of borrowings outstanding under the Company's \$1.25 billion revolving credit facility and related accrued interest.

At September 30, 2020 and December 31, 2019, we were in compliance with all financial covenants.

#### Note 10 — Fair Value Measurements

The Company has categorized its assets and liabilities that are measured at fair value on a recurring and non-recurring basis into a three-level fair value hierarchy, based on the reliability of the inputs used to determine fair value as follows:

- Level 1: refers to fair values determined based on quoted market prices in active markets for identical assets;
- Level 2: refers to fair values estimated using observable market-based inputs or unobservable inputs that are corroborated by market data; and
- Level 3: includes fair values estimated using unobservable inputs that are not corroborated by market data.

The following methods and assumptions were used by the Company in estimating its fair value disclosure for financial instruments:

- Available-for-sale securities are classified as Level 1 because we use quoted market prices in determining the fair value of these securities.
- Market values for our derivative instruments have been used to determine the fair value of forward foreign exchange contracts based on estimated amounts the Company would receive or have to pay to terminate the agreements, taking into account observable information about the current foreign currency forward rates. Such financial instruments are classified as Level 2 in the fair value hierarchy.
- Contingent consideration payable is classified as Level 3, and we estimate fair value based on the likelihood and timing of achieving the relevant milestones of each arrangement, applying a probability assessment to each of the potential outcomes, which at times includes the use of a Monte Carlo simulation, and discounting the probability-weighted payout. Typically, milestones are based on revenue or earnings growth for the acquired business.

The following tables present our assets and liabilities measured at fair value on a recurring basis at September 30, 2020 and December 31, 2019:

|                                      |   |    | Basis at | í  |        |    |        |    |       |

| Long-term debt            | \$   | 4,641       | \$      | 5,413      | \$ | 5,301        | \$      | 5,694      |

The carrying values of our revolving credit facility and collateralized facility approximate their fair values. The fair values above are not necessarily indicative of the amounts that the Company would realize upon disposition nor do they indicate the Company's intent or ability to dispose of the financial instruments. The fair values of our respective senior notes and long-term note receivable are considered Level 2 financial instruments as they are corroborated by observable market data.

# Note 11 — Retirement Benefits

# Defined Benefit Plans and Post-retirement Welfare Plans

Willis Towers Watson sponsors both qualified and non-qualified defined benefit pension plans and other post-retirement welfare ('PRW') plans throughout the world. The majority of our plan assets and obligations are in the U.S. and the U.K. We have also included disclosures related to defined benefit plans in certain other countries, including Canada, France, Germany and Ireland. Together, these disclosed funded and unfunded plans represent 99% of Willis Towers Watson's pension and PRW obligations and are disclosed herein.

<sup>(</sup>ii) Probability weightings are based on our knowledge of the past and planned performance of the acquired entity to which the contingent consideration applies. The fair value weighted-average discount rates used on our material contingent consideration calculations were 9.12% and 10.16% at September 30, 2020 and December 31, 2019, respectively. The range of these discount rates was 3.53% - 13.00% at September 30, 2020. Using different probability weightings and discount rates could result in an increase or decrease of the contingent consideration payable.

Components of Net Periodic Benefit (Income)/Cost for Defined Benefit Pension and Post-retirement Welfare Plans

The following table sets forth the components of net periodic benefit (income)/cost for the Company's defined benefit pension and PRW plans for the three and nine months ended September 30, 2020 and 2019:

|                                      |    |              |    |      |    | Th   | ree I | Months End | led : | September | 30, |      |    |      |    |     |  |  |

## Employer Contributions to Defined Benefit Pension Plans

The Company made \$40 million of contributions to its U.S. plans for the nine months ended September 30, 2020 and anticipates making no additional contributions over the remainder of the fiscal year. The Company made contributions of \$50 million to its U.K. plans for the nine months ended September 30, 2020 and anticipates making additional contributions of \$10 million for the remainder of the fiscal year. The Company made contributions of \$20 million to its other plans for the nine months ended September 30, 2020 and anticipates making additional contributions of \$2 million for the remainder of the fiscal year. During the year, our actual and expected contributions to certain plans have changed. When determining the contributions we expect to make, we consider the funded status of each plan, available cash on hand, expected returns on plan contributions, and in the case of our U.K. plans, negotiations with the plan trustees.

# **Defined Contribution Plans**

The Company made contributions to its defined contribution plans of \$39 million and \$122 million during the three and nine months ended September 30, 2020, respectively, and \$37 million and \$115 million during the three and nine months ended September 30, 2019, respectively.

#### Note 12 — Leases

The following tables present lease costs recorded on our condensed consolidated statements of comprehensive income for the three and nine months ended September 30, 2020 and 2019.

|                                     | Three I | Months End | ed Se | ptember 30, | <br>Nine Months Ende | ed September 30, |      |  |

| Operating lease cost                |         | 45         |       | 45          | 138                  |                  | 139  |  |
| Short-term lease cost               |         | 1          |       | 1           | 1                    |                  | 1    |  |
| Variable lease cost                 |         | 14         |       | 13          | 37                   |                  | 43   |  |
| Sublease income                     |         | (6)        |       | (3)         | (16)                 |                  | (11) |  |
| Total lease cost, net               | \$      | 55         | \$    | 58          | \$<br>164            | \$               | 177  |  |

The total lease cost is recognized in different locations in our condensed consolidated statements of comprehensive income. Amortization of the finance lease ROU assets is included in depreciation, while the interest cost component of these finance leases is included in interest expense. All other costs are included in other operating expenses.

#### Note 13 — Commitments and Contingencies

#### **Indemnification Agreements**

Willis Towers Watson has various agreements which provide that it may be obligated to indemnify the other party to the agreement with respect to certain matters. Generally, these indemnification provisions are included in contracts arising in the normal course of business and in connection with the purchase and sale of certain businesses. It is not possible to predict the maximum potential amount of future payments that may become due under these indemnification agreements because of the conditional nature of the Company's obligations and the unique facts of each particular agreement. However, we do not believe that any potential liability that may arise from such indemnity provisions is probable or material.

#### **Legal Proceedings**

In the ordinary course of business, the Company is subject to various actual and potential claims, lawsuits and other proceedings. Some of the claims, lawsuits and other proceedings seek damages in amounts which could, if assessed, be significant. We expect the impact of claims or demands not described below to be immaterial to the Company's condensed consolidated financial statements. The Company also receives subpoenas in the ordinary course of business and, from time to time, receives requests for information in connection with governmental investigations.

Errors and omissions claims, lawsuits, and other proceedings arising in the ordinary course of business are covered in part by professional indemnity or other appropriate insurance. The terms of this insurance vary by policy year. Regarding self-insured risks, the Company has established provisions which are believed to be adequate in light of current information and legal advice, or, in certain cases, where a range of loss exists, the Company accrues the minimum amount in the range if no amount within the range is a better estimate than any other amount. The Company adjusts such provisions from time to time according to developments. See Note 14 — Supplementary Information for Certain Balance Sheet Accounts for the amounts accrued at September 30, 2020 and December 31, 2019 in the condensed consolidated balance sheets.

On the basis of current information, the Company does not expect that the actual claims, lawsuits and other proceedings to which it is subject, or potential claims, lawsuits, and other proceedings relating to matters of which it is aware, will ultimately have a material adverse effect on its financial condition, results of operations or liquidity. Nonetheless, given the large or indeterminate amounts sought in certain of these actions, and the inherent unpredictability of litigation and disputes with insurance companies, it is possible that an adverse outcome or settlement in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods. In addition, given the early stages of some litigation or regulatory proceedings described below, it may not be possible to predict their outcomes or resolutions, and it is possible that any one or more of these events may have a material adverse effect on the Company.

The Company provides for contingent liabilities based on ASC 450, *Contingencies*, when it is determined that a liability, inclusive of defense costs, is probable and reasonably estimable. The contingent liabilities recorded are primarily developed actuarially. Litigation is subject to many factors which are difficult to predict, and there can be no assurance that in the event of a material unfavorable result in one or more claims, we will not incur material costs.

Litigation Relating to the Proposed Combination with Aon plc

On May 11, 2020, a purported stockholder of the Company filed a complaint in the United States District Court for the Southern District of New York against the Company and the members of the Company's board of directors, captioned *Stein v. Willis Towers Watson Public Limited Company, et al.*, Case No. 1:20-cv-03656 (S.D.N.Y.), referred to as the '*Stein* Complaint.' On May 14, 2020, a purported stockholder of the Company filed a putative class action in the United States District Court for the District of Delaware against the Company, the members of the Company's board of directors, and Aon plc ('Aon'), captioned *Kent v. Willis Towers Watson Public Limited Company, et al.*, Case No. 1:20-cv-00641 (D. Del.), referred to as the '*Kent* Complaint.' On May 19, 2020, a purported stockholder of the Company filed a putative class action in the United States District Court for the Southern District of New York against the Company and the members of the Company's board of directors, captioned *Carter v. Willis Towers Watson Public Limited Company, et al.*, Case No. 1:20-cv-03865 (S.D.N.Y.), referred to as the '*Carter* Complaint.' On May 28, 2020, a purported stockholder of the Company filed a complaint in the United States District Court for the Southern District of California against the Company and the members of the Company's board of directors, captioned *Tang v. Willis Towers Watson Public Limited Company, et al.*, Case No. 3:20-cv-00986 (S.D. Cal.), referred to as the '*Tang* Complaint.' On June 17, 2020, a purported stockholder of the Company filed a complaint in the United States District Court for the Southern District of California against the Company and the members of the Company's board of directors, captioned *Kuznik v. Willis Towers Watson Public Limited Company, et al.*, Case No. 3:20-cv-01097 (S.D. Cal.), referred to as the '*Kuznik* Complaint,' and together with the *Stein* Complaint, the *Kent* Complaint, the *Carter* Complaint, and the *Tang* Complaint, referred to as the 'Complaints.'

The Complaints assert claims against certain defendants under Section 14(a) of the Securities Exchange Act of 1934 (the 'Exchange Act') for allegedly false and misleading statements in the proxy statement; and against certain defendants under Section 20(a) of the Exchange Act for alleged "control person" liability with respect to such allegedly false and misleading statements. The *Stein* Complaint, the *Carter* Complaint, and the *Tang* Complaint each seek, among other relief, an order enjoining the proposed combination

with Aon unless and until corrective disclosures are made. The *Kuznik* Complaint and the *Kent* Complaint each seek, among other relief, an order enjoining the proposed combination with Aon and an order directing certain defendants to issue corrective disclosures. The *Stein* Complaint and the *Carter* Complaint also seek damages in an unspecified amount. The Company believes the allegations in the Complaints are without merit.

On August 4, 2020, certain plaintiffs voluntarily dismissed without prejudice the *Kent* Complaint, the *Carter* Complaint, and the *Stein* Complaint. On September 15, 2020, certain plaintiffs voluntarily dismissed without prejudice the *Tang* Complaint and the *Kuznik* Complaint.

Willis Towers Watson Merger-Related Securities Litigation

On November 21, 2017, a purported former stockholder of Legacy Towers Watson filed a putative class action complaint on behalf of a putative class consisting of all Legacy Towers Watson stockholders as of October 2, 2015 against the Company, Legacy Towers Watson, Legacy Willis, ValueAct Capital Management ('ValueAct'), and certain current and former directors and officers of Legacy Towers Watson and Legacy Willis (John Haley, Dominic Casserley, and Jeffrey Ubben), in the United States District Court for the Eastern District of Virginia. The complaint asserted claims against certain defendants under Section 14(a) of the Securities Exchange Act of 1934 (the 'Exchange Act') for allegedly false and misleading statements in the proxy statement for the Merger; and against other defendants under Section 20(a) of the Exchange Act for alleged 'control person' liability with respect to such allegedly false and misleading statements. The complaint further contended that the allegedly false and misleading statements caused stockholders of Legacy Towers Watson to accept inadequate Merger consideration. The complaint sought damages in an unspecified amount. On February 20, 2018, the court appointed the Regents of the University of California ('Regents') as Lead Plaintiff and Bernstein Litowitz Berger & Grossman LLP ('Bernstein') as Lead Counsel for the putative class, consolidated all subsequently filed, removed, or transferred actions, and captioned the consolidated action 'In re Willis Towers Watson plc Proxy Litigation,' Master File No. 1:17-cv-1338-AJT-JFA. On March 9, 2018, Lead Plaintiff filed an Amended Complaint. On April 13, 2018, the defendants filed motions to dismiss the Amended Complaint, and, on July 11, 2018, following briefing and argument, the court granted the motions and dismissed the Amended Complaint in its entirety. On July 30, 2018, Lead Plaintiff filed a notice of appeal from the court's July 11, 2018 dismissal order to the United States Court of Appeals for the Fourth Circuit (the 'Fourth Circuit'), and, on December 6, 2018, the parties completed briefing on the appeal. On May 8, 2019, the parties argued the appeal, and on August 30, 2019, the Fourth Circuit vacated the dismissal order and remanded the case to the Eastern District of Virginia for further proceedings consistent with its decision. On September 13, 2019, the defendants filed a petition for rehearing by the Fourth Circuit en banc, which the Fourth Circuit denied on September 27, 2019. On November 8, 2019, the defendants filed renewed motions to dismiss in the Eastern District of Virginia based upon certain arguments that were advanced in their original motions to dismiss, but undecided by both the district court and the Fourth Circuit. On December 18, 2019, the parties completed briefing on the defendants' renewed motions, and, on December 20, 2019, the court heard argument on the motions. On January 31, 2020, the court denied the motions. On June 12, 2020, Lead Plaintiff filed a motion for class certification, in connection with which it indicated that it is seeking class-wide damages of approximately \$456 million. On September 4, 2020, the court granted Lead Plaintiff's motion for class certification, certified the putative class, and appointed Lead Plaintiff as the Class Representative for the certified class. On September 18, 2020, the defendants filed a petition with the Fourth Circuit under Rule 23(f) of the Federal Rules of Civil Procedure for permission to appeal the certification order, to which Lead Plaintiff responded on October 1, 2020. The petition is currently pending. On October 16, 2020, the defendants filed motions for summary judgment and to exclude Lead Plaintiff's proposed experts. Also on October 16, 2020, Lead Plaintiff filed a motion to exclude certain of the defendants' proposed experts.

On February 27, 2018 and March 8, 2018, two additional purported former stockholders of Legacy Towers Watson, City of Fort Myers General Employees' Pension Fund ('Fort Myers') and Alaska Laborers-Employers Retirement Trust ('Alaska'), filed putative class action complaints on behalf of a putative class of Legacy Towers Watson stockholders against the former members of the Legacy Towers Watson board of directors, Legacy Towers Watson, Legacy Willis and ValueAct, in the Delaware Court of Chancery, captioned City of Fort Myers General Employees' Pension Fund v. Towers Watson & Co., et al., C.A. No. 2018-0132, and Alaska Laborers-Employers Retirement Trust v. Victor F. Ganzi, et al., C.A. No. 2018-0155, respectively. Based on similar allegations as the Eastern District of Virginia action described above, the complaints assert claims against the former directors of Legacy Towers Watson for breach of fiduciary duty and against Legacy Willis and ValueAct for aiding and abetting breach of fiduciary duty.

On March 9, 2018, Regents filed a putative class action complaint on behalf of a putative class of Legacy Towers Watson stockholders against the Company, Legacy Willis, ValueAct, and Messrs. Haley, Casserley, and Ubben, in the Delaware Court of Chancery, captioned The Regents of the University of California v. John J. Haley, et al., C.A. No. 2018-0166. Based on similar allegations as the Eastern District of Virginia action described above, the complaint asserts claims against Mr. Haley for breach of fiduciary duty and against all other defendants for aiding and abetting breach of fiduciary duty. Also on March 9, 2018, Regents filed a motion for consolidation of all pending and subsequently filed Delaware Court of Chancery actions, and for appointment as Lead Plaintiff and for the appointment of Bernstein as Lead Counsel for the putative class. On March 29, 2018, Fort Myers and Alaska responded to Regents' motion and cross-moved for appointment as Co-Lead Plaintiffs and for the appointment of their counsel, Grant & Eisenhofer P.A. and Kessler Topaz Meltzer & Check, LLP as Co-Lead Counsel. On April 2, 2018, the court consolidated the Delaware Court of Chancery actions and all related actions subsequently filed in or transferred to the Delaware Court of Chancery. On June 5, 2018, the court denied Regents' motion for appointment of Lead Plaintiff and Lead Counsel and granted Fort Myers' and Alaska's cross-motion. On June 20, 2018, Fort Myers and Alaska designated the complaint previously filed by Alaska (the 'Alaska

Complaint') as the operative complaint in the consolidated action. On September 14, 2018, the defendants filed motions to dismiss the Alaska Complaint. On October 31, 2018, Fort Myers and Alaska filed an amended complaint, which, based on similar allegations, asserts claims against the former directors of legacy Towers Watson for breach of fiduciary duty and against ValueAct and Mr. Ubben for aiding and abetting breach of fiduciary duty. On January 11, 2019, the defendants filed motions to dismiss the amended complaint, and on March 29, 2019, the parties completed briefing on the motions. The court heard argument on the motions on April 11, 2019 and, on July 25, 2019, dismissed the amended complaint in its entirety. On August 22, 2019, Fort Myers and Alaska filed a notice of appeal (only with respect to Messrs. Haley and Ubben and ValueAct) from the court's July 25, 2019 dismissal order to the Supreme Court of the State of Delaware. On November 22, 2019, the parties completed briefing on the appeal, which was submitted on April 22, 2020 for decision in lieu of argument. On June 30, 2020, the Supreme Court of the State of Delaware reversed and remanded the case to the Court of Chancery for further proceedings consistent with its decision. On July 27, 2020, Fort Myers and Alaska filed a motion for class certification, which is currently pending. On September 14, 2020, Mr. Haley answered the amended complaint.

On October 18, 2018, three additional purported former stockholders of Legacy Towers Watson, Naya Master Fund LP, Naya 174 Fund Limited and Naya Lincoln Park Master Fund Limited (collectively, 'Naya'), filed a complaint against the Company, Legacy Towers Watson, Legacy Willis and John Haley, in the Supreme Court of the State of New York, County of New York, captioned Naya Master Fund LP, et al. v. John J. Haley, et al., Index No. 654968/2018. Based on similar allegations as the Eastern District of Virginia and Delaware actions described above, the complaint asserts claims for common law fraud and negligent misrepresentation. On December 18, 2018, the defendants filed a motion to dismiss the complaint, and on March 21, 2019, the parties completed briefing on the motion. On April 23, 2019, the parties filed a Stipulation and Proposed Order Voluntarily Discontinuing Action providing for the dismissal of the action with prejudice, which the court entered on April 29, 2019.

During the three months ended September 30, 2020, the Company recognized a \$15 million litigation provision for loss contingencies relating to these matters based on its ongoing review of a variety of factors. However, given the stage of the proceedings, the Company is unable to provide an estimate of the reasonably possible maximum loss or range of loss in respect to the complaints. The ultimate resolution of these matters, including potential associated insurance recoveries, may differ from the amount provided for. The defendants continue to dispute the allegations and to defend the lawsuits vigorously.

#### Stanford Financial Group

The Company has been named as a defendant in 15 similar lawsuits relating to the collapse of The Stanford Financial Group ('Stanford'), for which Willis of Colorado, Inc. acted as broker of record on certain lines of insurance. The complaints in these actions generally allege that the defendants actively and materially aided Stanford's alleged fraud by providing Stanford with certain letters regarding coverage that they knew would be used to help retain or attract actual or prospective Stanford client investors. The complaints further allege that these letters, which contain statements about Stanford and the insurance policies that the defendants placed for Stanford, contained untruths and omitted material facts and were drafted in this manner to help Stanford promote and sell its allegedly fraudulent certificates of deposit.

#### The 15 actions are as follows:

• Troice, et al. v. Willis of Colorado, Inc., et al., C.A. No. 3:9-CV-1274-N, was filed on July 2, 2009 in the U.S. District Court for the Northern District of Texas against Willis Group Holdings plc, Willis of Colorado, Inc. and a Willis associate, among others. On April 1, 2011, plaintiffs filed the operative Third Amended Class Action Complaint individually and on behalf of a putative, worldwide class of Stanford investors, adding Willis Limited as a defendant and alleging claims under Texas statutory and common law and seeking damages in excess of \$1 billion, punitive damages and costs. On May 2, 2011, the defendants filed motions to dismiss the Third Amended Class Action Complaint, arguing, *inter alia*, that the plaintiffs' claims are precluded by the Securities Litigation Uniform Standards Act of 1998 ('SLUSA').

On May 10, 2011, the court presiding over the Stanford-related actions in the Northern District of Texas entered an order providing that it would consider the applicability of SLUSA to the Stanford-related actions based on the decision in a separate Stanford action not involving a Willis entity, *Roland v. Green*, Civil Action No. 3:10-CV-0224-N ('Roland'). On August 31, 2011, the court issued its decision in *Roland*, dismissing that action with prejudice under SLUSA.

On October 27, 2011, the court in *Troice* entered an order (i) dismissing with prejudice those claims asserted in the Third Amended Class Action Complaint on a class basis on the grounds set forth in the *Roland* decision discussed above and (ii) dismissing without prejudice those claims asserted in the Third Amended Class Action Complaint on an individual basis. Also on October 27, 2011, the court entered a final judgment in the action.

On October 28, 2011, the plaintiffs in *Troice* filed a notice of appeal to the U.S. Court of Appeals for the Fifth Circuit. Subsequently, *Troice*, *Roland* and a third action captioned *Troice*, *et al. v. Proskauer Rose LLP*, Civil Action No. 3:09-CV-01600-N, which also was dismissed on the grounds set forth in the *Roland* decision discussed above and on appeal to the U.S. Court of Appeals for the Fifth Circuit, were consolidated for purposes of briefing and oral argument. Following the completion of briefing and oral argument, on March 19, 2012, the Fifth Circuit reversed and remanded the actions. On April 2, 2012, the defendants-appellees filed petitions for rehearing *en banc*. On April 19, 2012, the petitions for rehearing *en banc* were denied. On July 18, 2012, defendants-appellees filed a petition for writ of certiorari with the United States Supreme Court regarding the Fifth Circuit's reversal in *Troice*. On January 18, 2013, the Supreme Court granted our petition. Opening

briefs were filed on May 3, 2013, and the Supreme Court heard oral argument on October 7, 2013. On February 26, 2014, the Supreme Court affirmed the Fifth Circuit's decision.

On March 19, 2014, the plaintiffs in *Troice* filed a Motion to Defer Resolution of Motions to Dismiss, to Compel Rule 26(f) Conference and For Entry of Scheduling Order.

On March 25, 2014, the parties in *Troice* and the *Janvey, et al. v. Willis of Colorado, Inc., et al.* action discussed below stipulated to the consolidation of the two actions for pre-trial purposes under Rule 42(a) of the Federal Rules of Civil Procedure. On March 28, 2014, the Court 'so ordered' that stipulation and, thus, consolidated *Troice* and *Janvey* for pre-trial purposes under Rule 42(a).

On September 16, 2014, the court (a) denied the plaintiffs' request to defer resolution of the defendants' motions to dismiss, but granted the plaintiffs' request to enter a scheduling order; (b) requested the submission of supplemental briefing by all parties on the defendants' motions to dismiss, which the parties submitted on September 30, 2014; and (c) entered an order setting a schedule for briefing and discovery regarding plaintiffs' motion for class certification, which schedule, among other things, provided for the submission of the plaintiffs' motion for class certification (following the completion of briefing and discovery) on April 20, 2015.

On December 15, 2014, the court granted in part and denied in part the defendants' motions to dismiss. On January 30, 2015, the defendants except Willis Group Holdings plc answered the Third Amended Class Action Complaint.

On April 20, 2015, the plaintiffs filed their motion for class certification, the defendants filed their opposition to plaintiffs' motion, and the plaintiffs filed their reply in further support of the motion. Pursuant to an agreed stipulation also filed with the court on April 20, 2015, the defendants on June 4, 2015 filed sur-replies in further opposition to the motion. The Court has not yet scheduled a hearing on the motion.

On June 19, 2015, Willis Group Holdings plc filed a motion to dismiss the complaint for lack of personal jurisdiction. On November 17, 2015, Willis Group Holdings plc withdrew the motion.

On March 31, 2016, the parties in the *Troice* and *Janvey* actions entered into a settlement in principle that is described in more detail below.

- Ranni v. Willis of Colorado, Inc., et al., C.A. No. 9-22085, was filed on July 17, 2009 against Willis Group Holdings plc and Willis of Colorado, Inc. in the U.S. District Court for the Southern District of Florida. The complaint was filed on behalf of a putative class of Venezuelan and other South American Stanford investors and alleges claims under Section 10(b) of the Securities Exchange Act of 1934 (and Rule 10b-5 thereunder) and Florida statutory and common law and seeks damages in an amount to be determined at trial. On October 6, 2009, Ranni was transferred, for consolidation or coordination with other Stanford-related actions (including Troice), to the Northern District of Texas by the U.S. Judicial Panel on Multidistrict Litigation (the 'JPML'). The defendants have not yet responded to the complaint in Ranni. On August 26, 2014, the plaintiff filed a notice of voluntary dismissal of the action without prejudice.
- Canabal, et al. v. Willis of Colorado, Inc., et al., C.A. No. 3:9-CV-1474-D, was filed on August 6, 2009 against Willis Group Holdings plc, Willis of Colorado, Inc. and the same Willis associate named as a defendant in *Troice*, among others, also in the Northern District of Texas. The complaint was filed individually and on behalf of a putative class of Venezuelan Stanford investors, alleged claims under Texas statutory and common law and sought damages in excess of \$1 billion, punitive damages, attorneys' fees and costs. On December 18, 2009, the parties in *Troice* and *Canabal* stipulated to the consolidation of those actions (under the *Troice* civil action number), and, on December 31, 2009, the plaintiffs in *Canabal* filed a notice of dismissal, dismissing the action without prejudice.
- Rupert, et al. v. Winter, et al., Case No. 2009C115137, was filed on September 14, 2009 on behalf of 97 Stanford investors against Willis Group Holdings plc, Willis of Colorado, Inc. and the same Willis associate, among others, in Texas state court (Bexar County). The complaint alleges claims under the Securities Act of 1933, Texas and Colorado statutory law and Texas common law and seeks special, consequential and treble damages of more than \$300 million, attorneys' fees and costs. On October 20, 2009, certain defendants, including Willis of Colorado, Inc., (i) removed Rupert to the U.S. District Court for the Western District of Texas, (ii) notified the JPML of the pendency of this related action and (iii) moved to stay the action pending a determination by the JPML as to whether it should be transferred to the Northern District of Texas for consolidation or coordination with the other Stanford-related actions. On April 1, 2010, the JPML issued a final transfer order for the transfer of Rupert to the Northern District of Texas. On January 24, 2012, the court remanded Rupert to Texas state court (Bexar County), but stayed the action until further order of the court. On August 13, 2012, the plaintiffs filed a motion to lift the stay, which motion was denied by the court on September 16, 2014. On October 10, 2014, the plaintiffs appealed the court's denial of their motion to lift the stay to the U.S. Court of Appeals for the Fifth Circuit. On January 5, 2015, the Fifth Circuit consolidated the appeal with the appeal in the Rishmague, et ano. v. Winter, et al. action discussed below, and the consolidated appeal, was fully briefed as of March 24, 2015. Oral argument on the consolidated appeal was held on September 2, 2015. On September 16, 2015, the Fifth Circuit affirmed. The defendants have not yet responded to the complaint in Rupert.

- Casanova, et al. v. Willis of Colorado, Inc., et al., C.A. No. 3:10-CV-1862-O, was filed on September 16, 2010 on behalf of seven Stanford investors against Willis Group Holdings plc, Willis Limited, Willis of Colorado, Inc. and the same Willis associate, among others, also in the Northern District of Texas. The complaint alleges claims under Texas statutory and common law and seeks actual damages in excess of \$5 million, punitive damages, attorneys' fees and costs. On February 13, 2015, the parties filed an Agreed Motion for Partial Dismissal pursuant to which they agreed to the dismissal of certain claims pursuant to the motion to dismiss decisions in the *Troice* action discussed above and the *Janvey* action discussed below. Also on February 13, 2015, the defendants except Willis Group Holdings plc answered the complaint in the *Casanova* action. On June 19, 2015, Willis Group Holdings plc filed a motion to dismiss the complaint for lack of personal jurisdiction. Plaintiffs have not opposed the motion.
- Rishmague, et ano. v. Winter, et al., Case No. 2011CI2585, was filed on March 11, 2011 on behalf of two Stanford investors, individually and as representatives of certain trusts, against Willis Group Holdings plc, Willis of Colorado, Inc., Willis of Texas, Inc. and the same Willis associate, among others, in Texas state court (Bexar County). The complaint alleges claims under Texas and Colorado statutory law and Texas common law and seeks special, consequential and treble damages of more than \$37 million and attorneys' fees and costs. On April 11, 2011, certain defendants, including Willis of Colorado, Inc., (i) removed Rishmague to the Western District of Texas, (ii) notified the JPML of the pendency of this related action and (iii) moved to stay the action pending a determination by the JPML as to whether it should be transferred to the Northern District of Texas for consolidation or coordination with the other Stanford-related actions. On August 8, 2011, the JPML issued a final transfer order for the transfer of Rishmague to the Northern District of Texas, where it is currently pending. On August 13, 2012, the plaintiffs joined with the plaintiffs in the Rupert action in their motion to lift the court's stay of the Rupert action. On September 9, 2014, the court remanded Rishmague to Texas state court (Bexar County), but stayed the action until further order of the court and denied the plaintiffs' motion to lift the stay. On October 10, 2014, the plaintiffs appealed the court's denial of their motion to lift the stay to the Fifth Circuit. On January 5, 2015, the Fifth Circuit consolidated the appeal with the appeal in the Rupert action, and the consolidated appeal was fully briefed as of March 24, 2015. Oral argument on the consolidated appeal was held on September 2, 2015. On September 16, 2015, the Fifth Circuit affirmed. The defendants have not yet responded to the complaint in Rishmague.
- *MacArthur* v. *Winter, et al.*, Case No. 2013-07840, was filed on February 8, 2013 on behalf of two Stanford investors against Willis Group Holdings plc, Willis of Colorado, Inc., Willis of Texas, Inc. and the same Willis associate, among others, in Texas state court (Harris County). The complaint alleges claims under Texas and Colorado statutory law and Texas common law and seeks actual, special, consequential and treble damages of approximately \$4 million and attorneys' fees and costs. On March 29, 2013, Willis of Colorado, Inc. and Willis of Texas, Inc. (i) removed *MacArthur* to the U.S. District Court for the Southern District of Texas and (ii) notified the JPML of the pendency of this related action. On April 2, 2013, Willis of Colorado, Inc. and Willis of Texas, Inc. filed a motion in the Southern District of Texas to stay the action pending a determination by the JPML as to whether it should be transferred to the Northern District of Texas for consolidation or coordination with the other Stanford-related actions. Also on April 2, 2013, the court presiding over *MacArthur* in the Southern District of Texas transferred the action to the Northern District of Texas for consolidation or coordination with the other Stanford-related actions. On September 29, 2014, the parties stipulated to the remand (to Texas state court (Harris County)) and stay of *MacArthur* until further order of the court (in accordance with the court's September 9, 2014 decision in *Rishmague* (discussed above)), which stipulation was 'so ordered' by the court on October 14, 2014. The defendants have not yet responded to the complaint in *MacArthur*.
- Florida suits: On February 14, 2013, five lawsuits were filed against Willis Group Holdings plc, Willis Limited and Willis of Colorado, Inc. in Florida state court (Miami-Dade County), alleging violations of Florida common law. The five suits are: (1) Barbar, et al. v. Willis Group Holdings Public Limited Company, et al., Case No. 13-05666CA27, filed on behalf of 35 Stanford investors seeking compensatory damages in excess of \$30 million; (2) de Gadala-Maria, et al. v. Willis Group Holdings Public Limited Company, et al., Case No. 13-05669CA30, filed on behalf of 64 Stanford investors seeking compensatory damages in excess of \$83.5 million; (3) Ranni, et ano. v. Willis Group Holdings Public Limited Company, et al., Case No. 13-05673CA06, filed on behalf of two Stanford investors seeking compensatory damages in excess of \$3 million; (4) Tisminesky, et al. v. Willis Group Holdings Public Limited Company, et al., Case No. 13-05676CA09, filed on behalf of 11 Stanford investors seeking compensatory damages in excess of \$6.5 million; and (5) Zacarias, et al. v. Willis Group Holdings Public Limited Company, et al., Case No. 13-05678CA11, filed on behalf of 10 Stanford investors seeking compensatory damages in excess of \$12.5 million. On June 3, 2013, Willis of Colorado, Inc. removed all five cases to the Southern District of Florida and, on June 4, 2013, notified the JPML of the pendency of these related actions. On June 10, 2013, the court in Tisminesky issued an order sua sponte staying and administratively closing that action pending a determination by the JPML as to whether it should be transferred to the Northern District of Texas for consolidation and coordination with the other Stanford-related actions. On June 11, 2013, Willis of Colorado, Inc. moved to stay the other four actions pending the JPML's transfer decision. On June 20, 2013, the JPML issued a conditional transfer order for the transfer of the five actions to the Northern District of Texas, the transmittal of which was stayed for seven days to allow for any opposition to be filed. On June 28, 2013, with no opposition having been filed, the JPML lifted the stay, enabling the transfer to go forward.

On September 30, 2014, the court denied the plaintiffs' motion to remand in *Zacarias*, and, on October 3, 2014, the court denied the plaintiffs' motions to remand in *Tisminesky* and *de Gadala Maria*. On December 3, 2014 and March 3, 2015, the court granted the plaintiffs' motions to remand in *Barbar* and *Ranni*, respectively, remanded both actions to Florida state court (Miami-Dade County) and stayed both actions until further order of the court. On January 2, 2015 and April 1, 2015, the plaintiffs in *Barbar* and *Ranni*, respectively, appealed the court's December 3, 2014 and March 3, 2015 decisions to the Fifth Circuit. On April 22, 2015 and July 22, 2015, respectively, the Fifth Circuit dismissed the *Barbar* and *Ranni* appeals *sua sponte* for lack of jurisdiction. The defendants have not yet responded to the complaints in *Ranni* or *Barbar*.

On April 1, 2015, the defendants except Willis Group Holdings plc filed motions to dismiss the complaints in *Zacarias*, *Tisminesky* and *de Gadala-Maria*. On June 19, 2015, Willis Group Holdings plc filed motions to dismiss the complaints in *Zacarias*, *Tisminesky* and *de Gadala-Maria* for lack of personal jurisdiction. On July 15, 2015, the court dismissed the complaint in *Zacarias* in its entirety with leave to replead within 21 days. On July 21, 2015, the court dismissed the complaints in *Tisminesky* and *de Gadala-Maria* in their entirety with leave to replead within 21 days. On August 6, 2015, the plaintiffs in *Zacarias*, *Tisminesky* and *de Gadala-Maria* filed amended complaints (in which, among other things, Willis Group Holdings plc was no longer named as a defendant). On September 11, 2015, the defendants filed motions to dismiss the amended complaints. The motions await disposition by the court.

• Janvey, et al. v. Willis of Colorado, Inc., et al., Case No. 3:13-CV-03980-D, was filed on October 1, 2013 also in the Northern District of Texas against Willis Group Holdings plc, Willis Limited, Willis North America Inc., Willis of Colorado, Inc. and the same Willis associate. The complaint was filed (i) by Ralph S. Janvey, in his capacity as Court-Appointed Receiver for the Stanford Receivership Estate, and the Official Stanford Investors Committee (the 'OSIC') against all defendants and (ii) on behalf of a putative, worldwide class of Stanford investors against Willis North America Inc. Plaintiffs Janvey and the OSIC allege claims under Texas common law and the court's Amended Order Appointing Receiver, and the putative class plaintiffs allege claims under Texas statutory and common law. Plaintiffs seek actual damages in excess of \$1 billion, punitive damages and costs. As alleged by the Stanford Receiver, the total amount of collective losses allegedly sustained by all investors in Stanford certificates of deposit is approximately \$4.6 billion.

On November 15, 2013, plaintiffs in *Janvey* filed the operative First Amended Complaint, which added certain defendants unaffiliated with Willis. On February 28, 2014, the defendants filed motions to dismiss the First Amended Complaint, which motions, other than with respect to Willis Group Holding plc's motion to dismiss for lack of personal jurisdiction, were granted in part and denied in part by the court on December 5, 2014. On December 22, 2014, Willis filed a motion to amend the court's December 5 order to certify an interlocutory appeal to the Fifth Circuit, and, on December 23, 2014, Willis filed a motion to amend and, to the extent necessary, reconsider the court's December 5 order. On January 16, 2015, the defendants answered the First Amended Complaint. On January 28, 2015, the court denied Willis's motion to amend the court's December 5 order to certify an interlocutory appeal to the Fifth Circuit. On February 4, 2015, the court granted Willis's motion to amend and, to the extent necessary, reconsider the December 5 order.

As discussed above, on March 25, 2014, the parties in *Troice* and *Janvey* stipulated to the consolidation of the two actions for pre-trial purposes under Rule 42(a) of the Federal Rules of Civil Procedure. On March 28, 2014, the Court 'so ordered' that stipulation and, thus, consolidated *Troice* and *Janvey* for pre-trial purposes under Rule 42(a).

On January 26, 2015, the court entered an order setting a schedule for briefing and discovery regarding the plaintiffs' motion for class certification, which schedule, among other things, provided for the submission of the plaintiffs' motion for class certification (following the completion of briefing and discovery) on July 20, 2015. By letter dated March 4, 2015, the parties requested that the court consolidate the scheduling orders entered in *Troice* and *Janvey* to provide for a class certification submission date of April 20, 2015 in both cases. On March 6, 2015, the court entered an order consolidating the scheduling orders in *Troice* and *Janvey*, providing for a class certification submission date of April 20, 2015 in both cases, and vacating the July 20, 2015 class certification submission date in the original *Janvey* scheduling order.

On November 17, 2015, Willis Group Holdings plc withdrew its motion to dismiss for lack of personal jurisdiction.

On March 31, 2016, the parties in the *Troice* and *Janvey* actions entered into a settlement in principle that is described in more detail below.

- *Martin v. Willis of Colorado, Inc., et al.*, Case No. 201652115, was filed on August 5, 2016, on behalf of one Stanford investor against Willis Group Holdings plc, Willis Limited, Willis of Colorado, Inc. and the same Willis associate in Texas state court (Harris County). The complaint alleges claims under Texas statutory and common law and seeks actual damages of less than \$100,000, exemplary damages, attorneys' fees and costs. On September 12, 2016, the plaintiff filed an amended complaint, which added five more Stanford investors as plaintiffs and seeks damages in excess of \$1 million. The defendants have not yet responded to the amended complaint in *Martin*.
- Abel, et al. v. Willis of Colorado, Inc., et al., C.A. No. 3:16-cv-2601, was filed on September 12, 2016, on behalf of more than 300 Stanford investors against Willis Group Holdings plc, Willis Limited, Willis of Colorado, Inc. and the same Willis associate, also in the Northern District of Texas. The complaint alleges claims under Texas statutory and common law and seeks actual damages in excess of \$135 million, exemplary damages, attorneys' fees and costs. On November 10, 2016, the

plaintiffs filed an amended complaint, which, among other things, added several more Stanford investors as plaintiffs. The defendants have not yet responded to the complaint in *Abel*.

The plaintiffs in *Janvey* and *Troice* and the other actions above seek overlapping damages, representing either the entirety or a portion of the total alleged collective losses incurred by investors in Stanford certificates of deposit, notwithstanding the fact that Legacy Willis acted as broker of record for only a portion of time that Stanford issued certificates of deposit. In the fourth quarter of 2015, the Company recognized a \$70 million litigation provision for loss contingencies relating to the Stanford matters based on its ongoing review of a variety of factors as required by accounting standards.

On March 31, 2016, the Company entered into a settlement in principle for \$120 million relating to this litigation and increased its provisions by \$50 million during that quarter. Further details on this settlement in principle are given below.

The settlement is contingent on a number of conditions, including court approval of the settlement and a bar order prohibiting any continued or future litigation against Willis related to Stanford, which may not be given. Therefore, the ultimate resolution of these matters may differ from the accrued amount. The Company continues to dispute the allegations and, to the extent litigation proceeds, to defend the lawsuits vigorously.

Settlement. On March 31, 2016, the Company entered into a settlement in principle, as reflected in a Settlement Term Sheet, relating to the Stanford litigation matter. The Company agreed to the Settlement Term Sheet to eliminate the distraction, burden, expense and uncertainty of further litigation. In particular, the settlement and the related bar orders described below, if upheld through any appeals, would enable the Company (a newly-combined firm) to conduct itself with the bar orders' protection from the continued overhang of matters alleged to have occurred approximately a decade ago. Further, the Settlement Term Sheet provided that the parties understood and agreed that there is no admission of liability or wrongdoing by the Company. The Company expressly denies any liability or wrongdoing with respect to the matters alleged in the Stanford litigation.

On or about August 31, 2016, the parties to the settlement signed a formal Settlement Agreement memorializing the terms of the settlement as originally set forth in the Settlement Term Sheet. The parties to the Settlement Agreement are Ralph S. Janvey (in his capacity as the Court-appointed receiver (the 'Receiver') for The Stanford Financial Group and its affiliated entities in receivership (collectively, 'Stanford')), the Official Stanford Investors Committee, Samuel Troice, Martha Diaz, Paula Gilly-Flores, Punga Punga Financial, Ltd., Manuel Canabal, Daniel Gomez Ferreiro and Promotora Villa Marina, C.A. (collectively, 'Plaintiffs'), on the one hand, and Willis Towers Watson Public Limited Company (formerly Willis Group Holdings Public Limited Company), Willis Limited, Willis North America Inc., Willis of Colorado, Inc. and the Willis associate referenced above (collectively, 'Defendants'), on the other hand. Under the terms of the Settlement Agreement, the parties agreed to settle and dismiss the *Janvey* and *Troice* actions (collectively, the 'Actions') and all current or future claims arising from or related to Stanford in exchange for a one-time cash payment to the Receiver by the Company of \$120 million to be distributed to all Stanford investors who have claims recognized by the Receiver pursuant to the distribution plan in place at the time the payment is made.

The Settlement Agreement also provides the parties' agreement to seek the Court's entry of bar orders prohibiting any continued or future litigation against the Defendants and their related parties of claims relating to Stanford, whether asserted to date or not. The terms of the bar orders therefore would prohibit all Stanford-related litigation described above, and not just the Actions, but including any pending matters and any actions that may be brought in the future. Final Court approval of these bar orders is a condition of the settlement.

On September 7, 2016, Plaintiffs filed with the Court a motion to approve the settlement. On October 19, 2016, the Court preliminarily approved the settlement. Several of the plaintiffs in the other actions above objected to the settlement, and a hearing to consider final approval of the settlement was held on January 20, 2017, after which the Court reserved decision. On August 23, 2017, the Court approved the settlement, including the bar orders. Several of the objectors appealed the settlement approval and bar orders to the Fifth Circuit. Oral argument on the appeals was heard on December 3, 2018, and, on July 22, 2019, the Fifth Circuit affirmed the approval of the settlement, including the bar orders. On August 5, 2019, certain of the plaintiff-appellants filed a petition for rehearing by the Fifth Circuit *en banc* (the 'Petition'). On August 19, 2019, the Fifth Circuit requested a response to the Petition. On August 29, 2019, the Receiver filed a response to the Petition. On December 19, 2019, the Fifth Circuit granted the Petition (treating it as a petition for panel rehearing), withdrew its July 22, 2019 opinion, and substituted a new opinion that also affirmed the approval of the settlement, including the bar orders. On January 2, 2020, certain of the plaintiff-appellants filed another petition for rehearing by the Fifth Circuit *en banc* (the 'Second Petition'), in which the other plaintiff-appellants joined. On January 21, 2020, the Fifth Circuit denied the Second Petition. On June 19, 2020, the plaintiff-appellants filed petitions for writ of certiorari with the United States Supreme Court. On September 10, 2020, the Supreme Court requested responses to the petitions for writ of certiorari, which are currently due by November 12, 2020.

The Company will not make the \$120 million settlement payment until the settlement is not subject to any further appeal.

#### Aviation Broking Competition Investigations

In October 2017, the European Commission ('Commission') disclosed to us that it has initiated civil investigation proceedings in respect of a suspected infringement of E.U. competition rules involving several broking firms, including our principal U.K. broking subsidiary and one of its parent entities. In particular, the Commission has stated that the civil proceedings concern the exchange of

commercially sensitive information between competitors in relation to aviation and aerospace insurance and reinsurance broking products and services in the European Economic Area, as well as possible coordination between competitors. The initiation of proceedings does not mean there has been a finding of infringement, merely that the Commission will investigate the case. We are providing information to the Commission as requested.

Since 2017, we have become aware that other countries are conducting their own investigations of the same or similar alleged conduct, including, without limitation, Brazil. In January 2019, the Brazil Conselho Administrativo de Defesa Economica ('CADE') launched an administrative proceeding to investigate alleged sharing of competitive and commercially sensitive information in the insurance and reinsurance brokerage industry for aviation and aerospace and related ancillary services. The CADE identified 11 entities under investigation, including Willis Group Limited, one of our U.K. subsidiaries.

Given the status of the above-noted investigations, the Company is currently unable to assess the terms on which they will be resolved, or how any other regulatory matter or civil claims emanating from the conduct being investigated will be resolved, and thus is unable to provide an estimate of the reasonably possible loss or range of loss.

# Note 14 — Supplementary Information for Certain Balance Sheet Accounts

Additional details of specific balance sheet accounts are detailed below.

Other non-current assets consists of the following:

|   | Se | eptember 30,<br>2020 | D  | ecember 31,<br>2019 |
|---|----|----------------------|----|---------------------|
| Prepayments and accrued income          | \$ | 13                   | \$ | 12                  |
| Deferred contract costs                 |    | 89                   |    | 76                  |

<sup>(</sup>i) Reclassification adjustments from accumulated other comprehensive loss related to derivative instruments are included in Revenue and Salaries and benefits in the accompanying condensed consolidated statements of comprehensive income. See Note 8 — Derivative Financial Instruments for additional details regarding the reclassification adjustments for the derivative settlements.

#### Note 17 — Earnings Per Share

Basic and diluted earnings per share are calculated by dividing net income attributable to Willis Towers Watson by the average number of ordinary shares outstanding during each period. The computation of diluted earnings per share reflects the potential dilution that could occur if dilutive securities and other contracts to issue shares were exercised or converted into shares or resulted in the issuance of shares that then shared in the net income of the Company.

At September 30, 2020 and 2019, there were 0.4 million and 0.6 million restricted performance-based stock units outstanding, respectively. There were 0.3 million time-based share options outstanding and 0.3 million performance-based options outstanding at both September 30, 2020 and 2019. The Company's restricted time-based stock units were immaterial at September 30, 2020 and 2019.

Basic and diluted earnings per share are as follows:

|   | T  | Three Months End | led S   | eptember 30, |    | Nine Months Ende | d September 30, |        |    |     |
|---|----|------------------|---------|--------------|----|------------------|-----------------|--------|----|-----|

| Diluted earnings per share                      | \$ | 0.93             | \$ 0.58 |              | \$ | 3.99             | \$              | 3.84   |    |     |
|   |    | _                |         |              |    | _                |                 | _      |    |     |

<sup>(</sup>ii) Reclassification adjustments from accumulated other comprehensive loss are included in the computation of net periodic pension cost (see Note 11 — Retirement Benefits). These components are included in Other income, net in the accompanying condensed consolidated statements of comprehensive income.

<sup>(</sup>iii) On January 1, 2019, in accordance with ASU 2018-02, we reclassified to Retained earnings \$36 million of defined pension and postretirement costs, representing the 'stranded' tax effect of the change in the U.S. federal corporate tax rate resulting from U.S. Tax Reform.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion includes forward-looking statements. See 'Disclaimer Regarding Forward-looking Statements' for certain cautionary information regarding forward-looking statements and a list of factors that could cause actual results to differ materially from those predicted in those statements.

This discussion includes references to non-GAAP financial measures as defined in the rules of the SEC. We present such non-GAAP financial measures, specifically, adjusted, constant currency and organic non-GAAP financial measures, as we believe such information is of interest to the investment community because it provides additional meaningful methods of evaluating certain aspects of the Company's operating performance from period to period on a basis that may not be otherwise apparent under U.S. GAAP, and these provide a measure against which our businesses may be assessed in the future.

See 'Non-GAAP Financial Measures' below for further discussion of our adjusted, constant currency and organic non-GAAP financial measures.

#### **Executive Overview**

#### Proposed Combination with Aon plc

On March 9, 2020, WTW and Aon plc ('Aon') issued an announcement disclosing that the respective boards of directors of WTW and Aon had reached agreement on the terms of a recommended acquisition of WTW by Aon. Under the terms of the agreement each WTW shareholder will receive 1.08 Aon ordinary shares for each WTW ordinary share. At the time of the announcement, it was estimated that upon completion of the combination, existing Aon shareholders will own approximately 63% and existing WTW shareholders will own approximately 37% of the combined company on a fully diluted basis.

The transaction was approved by the shareholders of both WTW and Aon during meetings of the respective shareholders held on August 26, 2020 and remains subject to other customary closing conditions, including required regulatory approvals. We are required to be in substantial compliance with the Request for Additional Information and Documentary Materials, referred to as a Second Request, issued by the Antitrust Division of the U.S. Department of Justice on June 29, 2020. The parties expect the transaction to close in the first half of 2021, subject to satisfaction of these conditions.

# Risks and Uncertainties of the COVID-19 Pandemic

The COVID-19 pandemic has had an adverse impact on global commercial activity, including the global supply chain, and has contributed to significant volatility in the financial markets including, among other effects, occasional declines in the equity markets, changes in interest rates and reduced liquidity on a global basis. In light of the effects on our own business operations and those of our clients, suppliers and other third parties with whom we interact, the Company has considered the impact of COVID-19 on our business. This analysis takes into account our business resilience and continuity plans, financial modeling and stress testing of liquidity and financial resources.

The analysis concluded that the COVID-19 pandemic did not have a material adverse impact to our financial results for the first quarter of 2020; however, we expected that the impact of COVID-19 on general economic activity could negatively impact our revenue and operating results for the remainder of 2020. During the second and third quarters of 2020, while the COVID-19 pandemic did have a negative impact on revenue growth, primarily in our businesses that are discretionary in nature, generally it had no material impact on our overall results.

As part of the significant estimates and assumptions that are inherent in our financial statements, the Company has considered multiple scenarios, with both positive and negative inputs. These inputs are based on client behavior and the economic environment throughout the first nine months of 2020 as COVID-19 has moved throughout the geographies in which we operate. These estimates and assumptions include the collectability of billed and unbilled receivables, the estimation of revenue, and the fair value of our reporting units, tangible and intangible assets and contingent consideration. With regard to collectability of receivables, the Company believes it may face atypical delays in client payments going forward. The demand for certain discretionary lines of business has decreased, and we believe that decrease may continue to impact our financial results in succeeding periods. Non-discretionary lines of business may also be adversely affected, for example reduced economic activity or disruption in insurance markets could reduce the demand for or the extent of insurance coverage. Also, the increased frequency and severity of coverage disputes between our clients and (re)insurers arising out of the pandemic could increase our professional liability risk. We will continue to monitor the situation and assess possible implications to our business and our stakeholders.

The extent to which COVID-19 impacts our business and financial position will depend on future developments, which are difficult to predict. These future developments may include the severity and scope of the COVID-19 outbreak, which may unexpectedly change or worsen, and the types and duration of measures imposed by governmental authorities to contain the virus or address its impact. We continue to expect that the COVID-19 pandemic will negatively impact our revenue and operating results for the remainder of 2020 and beyond. We believe that these trends and uncertainties are similar to those faced by other comparable registrants as a result of the

pandemic. See also Part II, Item 1A, 'Risk Factors' for a discussion of actual and potential impacts of COVID-19 on our business, clients and operations.

Daily Operations - We continue to closely monitor the spread and impact of COVID-19 while adhering to government health directives. The Company has implemented restrictions on business travel, office access, meetings and events. We have thorough business continuity and incident management processes in place that have been activated, including split team operations and work-from-home protocols for essential workers which continue to be globally effective. We are communicating frequently with clients and critical vendors, while meeting our objectives via remote working capabilities, overseen and coordinated by our incident management response team. While no contingency plan can eliminate all risk of temporary service interruption, we continually assess and update our plans to help mitigate all reasonable risk. As of the date of this filing, we have evaluated and concluded that our work-from-home protocol has not had a significant effect on our internal controls, financial reporting systems or operations.

#### **Market Conditions**

Due to the cyclical nature of the insurance market and the impact of other market conditions on insurance premiums, commission revenue may vary widely between accounting periods. A period of low or declining premium rates, generally known as a 'soft' or 'softening' market, generally leads to downward pressure on commission revenue and can have a material adverse impact on our revenue and operating margin. A 'hard' or 'firming' market, during which premium rates rise, generally has a favorable impact on our revenue and operating margin. Rates, however, vary by geography, industry and client segment. As a result, and due to the global and diverse nature of our business, we view rates in the aggregate. Overall, we are currently seeing a modest but definite improvement of pricing in the market.

Market conditions in the broking industry in which we operate are generally defined by factors such as the strength of the economies in the various geographic regions in which we serve around the world, insurance rate movements, and insurance and reinsurance buying patterns of our clients.

Since the occurrence of Brexit, and while the U.K. has been in a formal transition period, the future trading relationship between the U.K. and E.U. has been under negotiation. However, the outcome and impact of Brexit remains uncertain. The Company has established the process of finalizing appropriate arrangements for the continued servicing of client business in the countries expected to be most affected. For a further discussion of the risks of Brexit to the Company, see Part I, Item 1A 'Risk Factors' in our Annual Report on Form 10-K, filed with the SEC on February 26, 2020.

Typically, our business benefits from regulatory change, political risk or economic uncertainty. Insurance broking generally tracks the economy, but demand for both insurance broking and consulting services usually remains steady during times of uncertainty. We have some businesses, such as our health and benefits and administration businesses, which can be counter-cyclical during the early period of a significant economic change.

On an annual basis for 2020, although we expect that approximately 21% of our revenue will be generated in the U.K., we expect that approximately 12% of revenue will be denominated in Pounds sterling, as much of the insurance business is transacted in U.S. dollars. We expect that approximately 19% of our expenses will be denominated in Pounds sterling. We have a Company hedging strategy for this aspect of our business, which is designed to mitigate significant fluctuations in currency.

The markets for our consulting, technology and solutions, and marketplace services are affected by economic, regulatory and legislative changes, technological developments, and increased competition from established and new competitors. We believe that the primary factors in selecting a human resources or risk management consulting firm include reputation, the ability to provide measurable increases to shareholder value and return on investment, global scale, quality of service and the ability to tailor services to clients' unique needs. In that regard, we are focused on developing and implementing technology, data and analytic solutions for both internal operations and for maintaining industry standards and meeting client preferences. We have made such investments from time to time and may decide, based on perceived business needs, to make investments in the future that may be greater than we currently anticipate. Conversely, particularly given the impact of the COVID-19 pandemic, we may make fewer information technology-based investments than previously anticipated, which could potentially create business operational risk.

With regard to the market for exchanges, we believe that clients base their decisions on a variety of factors that include the ability of the provider to deliver measurable cost savings for clients, a strong reputation for efficient execution and an innovative service delivery model and platform. Part of the employer-sponsored insurance market has matured and become more fragmented while other segments remain in the entry phase. As these market segments continue to evolve, we may experience growth in intervals, with periods of accelerated expansion balanced by periods of modest growth. In recent years, growth in the market for exchanges has slowed, and we expect this trend may continue.

See Part II, Item 1A 'Risk Factors' in this Form 10-Q, and Part I, Item 1A 'Risk Factors' in our Annual Report on Form 10-K, filed with the SEC on February 26, 2020, for a discussion of risks that may affect our ability to compete.

#### **Financial Statement Overview**

The table below sets forth our summarized condensed consolidated statements of comprehensive income and data as a percentage of revenue for the periods indicated.

|  | Three Months Ended September 30, |      |            |               | Nine Months Ended September 30, |      |          |      |

#### **Consolidated Revenue**

Revenue was \$2.0 billion for both the three months ended September 30, 2020 and 2019, with a current year increase of \$20 million, or 1%, on an as-reported basis. Adjusting for the impacts of foreign currency and acquisitions and disposals, our organic revenue declined 1% for the three months ended September 30, 2020. While we experienced organic revenue declines in our HCB and CRB segments, in part due to the impact in HCB of the COVID-19 reduction in demand for our discretionary services, they were partially offset by increases in both our IRR segment and our BDA segment, where we experienced new client growth in health and welfare and organic increases from TRANZACT. The revenue from acquisitions related primarily to TRANZACT, which generated revenue of \$96 million for the three months ended September 30, 2020. TRANZACT was acquired in July 2019, and as such the majority of this revenue was included in organic results.

Revenue for the nine months ended September 30, 2020 was \$6.6 billion, compared to \$6.3 billion for the nine months ended September 30, 2019, an increase of \$239 million, or 4%, on an as-reported basis. Adjusting for the impacts of foreign currency and acquisitions and disposals, our organic revenue growth was 1% for the nine months ended September 30, 2020. The CRB, IRR and BDA segments had organic revenue growth during the first nine months of the year, while the HCB segment was flat, in part due to the impact of the COVID-19 reduction in demand for our discretionary services. The revenue from acquisitions related primarily to TRANZACT, which generated revenue of \$278 million for the nine months ended September 30, 2020.

Our revenue can be materially impacted by changes in currency conversions, which can fluctuate significantly over the course of a calendar year. For the three months ended September 30, 2020, currency translation increased our consolidated revenue by \$17 million. For the nine months ended September 30, 2020, currency translation reduced our consolidated revenue by \$52 million. The primary currencies driving these changes were the Euro and Pound sterling during the quarter, and the Brazilian Real and the Euro for the nine months.

The following table details our top five markets based on the percentage of consolidated revenue (in U.S. dollars) from the countries where work was performed for the nine months ended September 30, 2020. These figures do not represent the currency of the related revenue, which is presented in the next table.

| Geographic Region | % of Revenue |
|-------------------|--------------|
| United States     | 47%          |
| United Kingdom    | 22%          |
| France            | 5%           |
| Canada            | 3%           |
| Germany           | 3%           |

The table below details the percentage of our revenue and expenses by transactional currency for the nine months ended September 30, 2020.

| Transactional Currency | Revenue | Expenses (i) |
|------------------------|---------|--------------|
| U.S. dollars           | 56%     | 52%          |
| Pounds sterling        | 13%     | 20%          |
| Euro                   | 15%     | 12%          |
| Other currencies       | 16%     | 16%          |

<sup>(</sup>i) These percentages exclude certain expenses for significant items which will not be settled in cash, or which we believe to be items that are not core to our current or future operations. These items include amortization of intangible assets and transaction and integration expenses.

The following tables set forth the total revenue for the three and nine months ended September 30, 2020 and 2019 and the components of the change in total revenue for the three and nine months ended September 30, 2020, as compared to the prior year period:

|         |                 |           |                                       |                    |                    | Components of I                | Revenue Change (i)            |                   |

| Revenue | \$              | 6,588     | \$ 6,34                               | 9 4%               | (1)%               | 5%                             | 3%                            | 1%                |

<sup>(</sup>i) Components of revenue change may not add due to rounding.

Definitions of Constant Currency Change and Organic Change are included under the section entitled 'Non-GAAP Financial Measures' elsewhere within Item 2 of this Form 10-Q.

#### **Segment Revenue**

The segment descriptions below should be read in conjunction with the full descriptions of our businesses contained in Part I, Item 1 Business, within our Annual Report on Form 10-K, filed with the SEC on February 26, 2020.

The Company experiences seasonal fluctuations in its revenue. Revenue is typically higher during the Company's first and fourth quarters due primarily to the timing of broking-related activities.

Impact of the COVID-19 Pandemic on our Segments

The COVID-19 pandemic has had, and is projected to continue to have, an impact on certain of our service offerings. These impacts have been negative in some instances and positive in others, may be material in either event, and primarily impact our revenue. In addition, the potential negative impacts on our results may lag behind the developments to date related to the COVID-19 pandemic. As we originally predicted, we have thus far seen the impact of COVID-19 primarily on our business offerings that are discretionary in nature, like consultative project work; however, most of the services we provide, including broking for various insurance products, compliance and valuation services, risk mitigation and outsourced administration for both pension and health and welfare plans are considered non-discretionary to our clients and recurring in nature. We have seen that these non-discretionary businesses are the least impacted of our offerings and while we expect that trend to continue, our non-discretionary businesses may be adversely affected due to changing demands in the market.

We expect to continue to experience unpredictable volatility in demand around our discretionary services and solutions. Clients may defer or delay decision-making or planned work or seek to terminate existing agreements for these discretionary services and solutions.

We recognize that the broad, global nature of the COVID-19 crisis has impacted the liquidity of our clients generally and may cause us to not meet our original growth estimates for the year. We continue to monitor the global outbreak of the COVID-19 pandemic and take steps to mitigate the risks to us posed by its spread by working with our clients, colleagues, suppliers and other stakeholders. Due to the global breadth of the COVID-19 spread and the range of governmental and community reactions thereto, there is uncertainty around its duration, severity, ultimate impact and the timing of recovery. Therefore, the pandemic could lead to an extended disruption of economic activity, and the impact on our consolidated results of operations, financial position and cash flows, could be material.

Meanwhile, although we cannot predict how long this situation will last, we continue to focus on maintaining a strong balance sheet, liquidity and financial flexibility.

#### Human Capital and Benefits ('HCB')

The HCB segment provides an array of advice, broking, solutions and software for our clients. HCB is the largest segment of the Company and is focused on addressing our clients' people and risk needs to help them take on the challenges of operating in a global marketplace. This segment is further strengthened with teams of international consultants who provide support through each of our business units to the global headquarters of multinational clients and their foreign subsidiaries.

The following table sets forth HCB segment revenue for the three months ended September 30, 2020 and 2019, and the components of the change in revenue for the three months ended September 30, 2020 from the three months ended September 30, 2019.

<sup>(</sup>i) Components of revenue change may not add due to rounding.

HCB segment revenue for the three months ended September 30, 2020 and 2019 was \$796 million and \$807 million, respectively. On an organic basis, the global impact of COVID-19 negatively impacted demand in our Talent and Rewards business, causing the majority of the segment's revenue decline. Health and Benefits delivered moderate revenue growth, driven by increased consulting and brokerage services and continued expansion of our client portfolio for both local and global appointments. In our Retirement and Technology and Administration Solutions businesses, revenue declined modestly as a result of reduced de-risking activity in North America and less project work outside North America.

The following table sets forth HCB segment revenue for the nine months ended September 30, 2020 and 2019, and the components of the change in revenue for the nine months ended September 30, 2020 from the nine months ended September 30, 2019.

| Segment revenue | \$ 2,413        | \$            | 2,433 | (1)%     | (1)%                             | —%       | —%            | —%      |  |  |  |

<sup>(</sup>i) Components of revenue change may not add due to rounding.

HCB segment revenue for both the nine months ended September 30, 2020 and 2019 was \$2.4 billion. On an organic basis, the global impact of COVID-19 negatively impacted demand in our Talent and Rewards business. Organically, Health and Benefits delivered moderate revenue growth, driven by increased consulting and brokerage services and continued expansion of our client portfolio for both local and global appointments. In our Retirement and Technology and Administration Solutions businesses revenue grew modestly as a result of increased project work in the first half of the year, primarily in Great Britain and Western Europe.

#### Corporate Risk and Broking ('CRB')

The CRB segment provides a broad range of risk advice, insurance broking and consulting services to our clients worldwide, ranging from small businesses to multinational corporations. The segment delivers integrated global solutions tailored to client needs and underpinned by data and analytics.

The following table sets forth CRB revenue for the three months ended September 30, 2020 and 2019, and the components of the change in revenue for the three months ended September 30, 2020 from the three months ended September 30, 2019.

|                 |     |                     |            |          | Components of Revenue Change (i) |          |               |         |  |  |

(i) Components of revenue change may not add due to rounding.

CRB segment revenue for the three months ended September 30, 2020 and 2019 was \$649 million and \$651 million, respectively. On an organic basis, revenue declined in North America due to the non-recurrence of a one-time benefit reflected in the prior year results in connection with a book of business sale. Revenue decreased in Great Britain due to a change in the remuneration model for certain lines of business. This change, which is neutral to operating income, results in lower revenue and an equal reduction to salaries and benefits expense. Absent this change, Great Britain revenue increased, primarily as a result of new business. Both Western Europe and International revenue increased as a result of new business and strong renewals.

The following table sets forth CRB segment revenue for the nine months ended September 30, 2020 and 2019, and the components of the change in revenue for the nine months ended September 30, 2020 from the nine months ended September 30, 2019.

|                 |                     |          |           |          | Components of Revenue Change (i) |          |               |         |  |  |

| Segment revenue | \$<br>2,089         | \$       | 2,069     | 1%       | (1)%                             | 2%       | —%            | 2%      |  |  |

(i) Components of revenue change may not add due to rounding.

CRB segment revenue for both the nine months ended September 30, 2020 and 2019 was \$2.1 billion. On an organic basis, North America led the segment, followed by Western Europe and International, primarily with new business generation along with strong renewals. The revenue increase was partially offset by a decline in Great Britain, due to a change in the remuneration model for certain lines of business. This change, which is neutral to operating income, results in lower revenue and an equal reduction to salaries and benefits expense. Absent this change, Great Britain revenue increased, primarily as a result of new business.

Investment, Risk and Reinsurance ('IRR')

The IRR segment uses a sophisticated approach to risk, which helps our clients free up capital and manage investment complexity. This segment works closely with investors, reinsurers and insurers to manage the equation between risk and return. Blending advanced analytics with deep institutional knowledge, IRR identifies new opportunities to maximize performance. This segment provides investment consulting and discretionary management services and insurance-specific services and solutions through reserves opinions, software, ratemaking, risk underwriting and reinsurance broking.

The following table sets forth IRR revenue for the three months ended September 30, 2020 and 2019, and the components of the change in revenue for the three months ended September 30, 2020 from the three months ended September 30, 2019.

|                 |    |                 |                  |          | Components of Revenue Change (i) |          |               |         |  |  |

(i) Components of revenue change may not add due to rounding.

IRR segment revenue for the three months ended September 30, 2020 and 2019 was \$331 million and \$325 million, respectively. On an organic basis, most lines of business contributed to the growth. Reinsurance growth was driven by new business wins and favorable renewal factors while Insurance Consulting and Technology revenue grew from technology sales. Max Matthiessen and Investment revenue increased as a result of positive volatility in financial markets. Modest revenue growth in the Investment businesses resulted from client wins and increased project work in the U.K.

In September 2020, the Company sold the Max Matthiessen business (see Part I, Note 3 — Acquisitions and Divestitures within this filing on Form 10-Q for further information).

The following table sets forth IRR segment revenue for the nine months ended September 30, 2020 and 2019, and the components of the change in revenue for the nine months ended September 30, 2020 from the nine months ended September 30, 2019.

<sup>(</sup>i) Components of revenue change may not add due to rounding.

IRR segment revenue for the nine months ended September 30, 2020 and 2019 was \$1.4 billion and \$1.3 billion, respectively. On an organic basis, all lines of business contributed to the growth. Reinsurance and Wholesale growth was driven by new business wins and favorable renewal factors while Insurance Consulting and Technology revenue grew from strong technology sales. Max Matthiessen revenue increased as a result of overall growth in net commissions. Revenue growth in the Investment businesses resulted from client wins.

#### Benefits Delivery and Administration ('BDA')

The BDA segment provides primary medical and ancillary benefit exchange and outsourcing services to active employees and retirees across both the group and individual markets. A significant portion of the revenue in this segment is recurring in nature, driven by either the commissions from the policies we sell, or from long-term service contracts with our clients that typically range from three to five years. Revenue across this segment may be seasonal, driven by the magnitude and timing of client enrollment activities, which often occur during the fourth quarter, with increased membership levels typically effective January 1, after calendar year-end benefits elections. On July 30, 2019, the Company acquired TRANZACT, which operates as part of the BDA segment. TRANZACT experiences seasonally higher revenue during the fourth quarter due primarily to the timing of the Federal Medicare Open Enrollment window.

The following table sets forth BDA revenue for the three months ended September 30, 2020 and 2019, and the components of the change in revenue for the three months ended September 30, 2020 from the three months ended September 30, 2019.

<sup>(</sup>i) Components of revenue change may not add due to rounding.

BDA segment revenue for the three months ended September 30, 2020 and 2019 was \$226 million and \$179 million, respectively. BDA's organic revenue increase was primarily driven by the inclusion of TRANZACT in the organic results beginning in August 2020, with growth across all products. TRANZACT generated \$96 million of revenue for the three months ended September 30, 2020. Benefits Outsourcing revenue also grew, driven by its expanded client base in our Health practice.

The following table sets forth BDA segment revenue for the nine months ended September 30, 2020 and 2019, and the components of the change in revenue for the nine months ended September 30, 2020 from the nine months ended September 30, 2019.

<sup>(</sup>i) Components of revenue change may not add due to rounding.

BDA segment revenue for the nine months ended September 30, 2020 and 2019 was \$666 million and \$440 million, respectively. BDA's organic revenue growth was primarily driven by the expanded client base of the Benefits Outsourcing business in our Health practice. For the nine months ended September 30, 2020, TRANZACT generated revenue of \$278 million.

#### **Costs of Providing Services**

Total costs of providing services were \$1.9 billion for both the three months ended September 30, 2020 and 2019, an increase of \$54 million, or 3%. Total costs of providing services for the nine months ended September 30, 2020 were \$6.0 billion, compared to \$5.7 billion for the nine months ended September 30, 2019, an increase of \$285 million, or 5%. See the following discussion for further details.

#### Salaries and benefits

Salaries and benefits were \$1.3 billion for both the three months ended September 30, 2020 and 2019, an increase of \$48 million, or 4%. The increase was primarily a result of higher salaries and incentive accruals as well as additional stock-based compensation expense related to certain awards that are adjusted to fair value each quarter, causing greater expense due to the higher stock price. Salaries and benefits, as a percentage of revenue, increased to 66% for the three months ended September 30, 2020 from 65% for the three months ended September 30, 2019.

Salaries and benefits for the nine months ended September 30, 2020 were \$4.1 billion, compared to \$3.9 billion for the nine months ended September 30, 2019, an increase of \$179 million, or 5%. The increase was primarily a result of higher salaries and incentive accruals along with the inclusion of TRANZACT's compensation costs in the first half of the current year. Salaries and benefits, as a percentage of revenue, was 62% for both the nine months ended September 30, 2020 and 2019.

#### Other operating expenses

Other operating expenses for the three months ended September 30, 2020 were \$382 million, compared to \$417 million for the three months ended September 30, 2019, a decrease of \$35 million, or 8%. The decrease was mostly related to lower travel and entertainment and marketing expenses incurred during the period, partially offset by the inclusion of TRANZACT's operating expenses in the current quarter as well as higher professional liability costs. Other operating expenses for the nine months ended September 30, 2020 were \$1.3 billion, compared to \$1.2 billion for the nine months ended September 30, 2019, an increase of \$6 million. The increase was primarily due to the inclusion of TRANZACT's operating expenses in the current year as well as higher professional fees, partially offset by lower travel and entertainment, marketing and occupancy costs during the period.

#### Depreciation

Depreciation for the three months ended September 30, 2020 was \$73 million, compared to \$58 million for the three months ended September 30, 2019, an increase of \$15 million, or 26%. Depreciation for the nine months ended September 30, 2020 was \$238 million, compared to \$171 million for the nine months ended September 30, 2019, an increase of \$67 million, or 39%. Both the quarter-over quarter and year-over-year increases were due to a higher depreciable base of assets resulting from additional assets placed in service during 2019. Also contributing to the year-over-year increase was an additional charge of \$35 million which we recognized in the first quarter of 2020 as an acceleration of depreciation related to the abandonment of an internally-developed software asset.

#### Amortization

Amortization for the three months ended September 30, 2020 was \$108 million, compared to \$118 million for the three months ended September 30, 2019, a decrease of \$10 million, or 8%. Amortization for the nine months ended September 30, 2020 was \$348 million, compared to \$368 million for the nine months ended September 30, 2019, a decrease of \$20 million, or 5%. Our intangible amortization is more heavily weighted to the initial years of the useful lives of the related intangibles, and therefore amortization related to intangible assets purchased prior to our acquisition of TRANZACT will continue to decrease over time. This decrease was partially offset by the additional amortization resulting from the intangible assets related to the TRANZACT acquisition.

#### Transaction and integration expenses

Transaction and integration expenses for the three months ended September 30, 2020 are comprised of \$42 million of mostly transaction costs, consisting primarily of legal fees, related to our proposed combination with Aon, compared to \$6 million of transaction costs related to the acquisition of TRANZACT for the three months ended September 30, 2019.

Transaction and integration expenses for the nine months ended September 30, 2020 are comprised of \$65 million of transaction costs, consisting primarily of legal fees, related to our proposed combination with Aon and integration expenses related to the acquisition of TRANZACT in 2019, compared to \$12 million of transaction costs related to the acquisition of TRANZACT for the nine months ended September 30, 2019.

#### **Income from Operations**

Income from operations for the three months ended September 30, 2020 was \$73 million, compared to \$107 million for the three months ended September 30, 2019, a decrease of \$34 million. This decrease resulted mostly from higher salaries and benefits and transaction and integration expenses, partially offset by higher revenue quarter over quarter.

Income from operations for the nine months ended September 30, 2020 was \$596 million, compared to \$642 million for the nine months ended September 30, 2019, a decrease of \$46 million. This decrease resulted mostly from higher salaries and benefits and transaction and integration expenses as well as the additional depreciation related to the asset abandonment noted above, partially offset by higher revenue year over year.

#### **Interest Expense**

Interest expense for the three months ended September 30, 2020 was \$61 million, compared to \$62 million for the three months ended September 30, 2019, a decrease of \$1 million, or 2%. Interest expense for the nine months ended September 30, 2020 was \$184 million, compared to \$172 million for the nine months ended September 30, 2019, an increase of \$12 million, or 7%. The year-over- year increase was primarily the result of our additional senior notes offerings during the second half of 2019 and the first half of 2020, and additional indebtedness associated with the TRANZACT acquisition.

#### Other Income, Net

Other income, net for the three months ended September 30, 2020 was \$156 million, compared to \$55 million for the three months ended September 30, 2019, an increase of \$101 million. Other income, net for the nine months ended September 30, 2020 was \$324 million, compared to \$177 million for the nine months ended September 30, 2019, an increase of \$147 million. The increases for both periods resulted from the net gains on disposals of operations, primarily due to the disposal of our Max Matthiessen business (see Note 3 – Acquisitions and Divestitures in Part I, Item 1 'Financial Statements' in this Form 10-Q), and higher pension income in the current periods.

#### **Provision for Income Taxes**

Provision for income taxes for the three months ended September 30, 2020 was \$46 million, compared to \$20 million for the three months ended September 30, 2019, an increase of \$26 million. The effective tax rate was 27.6% for the three months ended September 30, 2020, and 20.4% for the three months ended September 30, 2019. Provision for income taxes for the nine months ended September 30, 2020 was \$199 million, compared to \$125 million for the nine months ended September 30, 2019, an increase of \$74 million. The effective tax rate was 27.1% for the nine months ended September 30, 2020, and 19.3% for the nine months ended September 30, 2019. These effective tax rates are calculated using extended values from our condensed consolidated statements of comprehensive income and are therefore more precise tax rates than can be calculated from rounded values. The current quarter effective tax rate is higher as a result of the enacted statutory tax rate changes in the U.K., requiring us to remeasure our U.K. deferred tax liabilities and recognize a discrete deferred tax expense of \$11 million during the three months ended September 30, 2020. The current year effective tax rate is higher primarily due to tax expense of \$38 million recognized during the nine months ended September 30, 2020 in connection with the temporary income tax provisions of the CARES Act. During the second quarter of 2020 the Company elected to utilize the higher section 163(j) 50 percent business interest limitation for tax years 2019 and 2020 which allows the Company to utilize additional interest expense. The utilization of additional interest expense reduces our regular tax liability, reduces our ability to utilize foreign tax credits and creates a base erosion minimum tax expense for these tax years.

#### **Net Income Attributable to Willis Towers Watson**

Net income attributable to Willis Towers Watson for the three months ended September 30, 2020 was \$121 million, compared to \$75 million for the three months ended September 30, 2019, an increase of \$46 million, or 61%. This increase was driven by the disposal of our Max Matthiessen business, partially offset by higher compensation-related costs.

Net income attributable to Willis Towers Watson for the nine months ended September 30, 2020 was \$520 million, compared to \$500 million for the nine months ended September 30, 2019, an increase of \$20 million, or 4%. This increase was driven primarily by the

inclusion of TRANZACT's operating results for the period, the disposal of our Max Matthiessen business and additional pension income, partially offset by higher compensation-related costs and additional depreciation related to an asset abandonment.

#### **Liquidity and Capital Resources**

#### **Executive Summary**

Our principal sources of liquidity are funds generated by operating activities, available cash and cash equivalents and amounts available under our revolving credit facilities and any new debt offerings, subject to the limitations set forth in the Aon combination agreement.

In the first nine months of 2020, the COVID-19 pandemic has contributed to significant volatility in financial markets, including occasional declines in equity markets, changes in interest rates and reduced liquidity on a global basis. Specific to Willis Towers Watson, we believe this has had, and will continue to have, a negative impact on discretionary work we perform for our clients. We also believe this may impact future cash collections from clients, particularly those in certain harder-hit industries. We have also reduced our spending on travel and associated expenses and third-party contractors, and have the ability to reduce spending on discretionary projects and certain capital expenditures.

In May 2020, the Company, together with its wholly-owned subsidiary, Willis North America Inc., as issuer, completed an offering of an additional \$275 million aggregate principal amount of 2.950% senior notes due 2029. Willis North America Inc. previously issued \$450 million aggregate principal amount in September 2019, all of which remain outstanding. Net proceeds of \$280 million (excluding accrued interest on this recent offering from March 15, 2020 to, but not including, May 29, 2020, of \$2 million payable to us on such date) were used to repay \$175 million of the full principal amount and related accrued interest under our term loan facility, which was set to expire in July 2020, as well as repay \$105 million of borrowings outstanding under our \$1.25 billion revolving credit facility and related accrued interest.

Based on our current balance sheet and cash flows, current market conditions and information available to us at this time, we believe that Willis Towers Watson has access to sufficient liquidity, which includes all of the borrowing capacity available to draw against our \$1.25 billion revolving credit facility, to meet our cash needs for the next twelve months, including investing in the business for growth, scheduled debt repayments and dividend payments.

Events that could change the historical cash flow dynamics discussed above include significant changes in operating results, potential future acquisitions or divestitures, material changes in geographic sources of cash, unexpected adverse impacts from litigation or regulatory matters, or future pension funding during periods of severe downturn.

#### Undistributed Earnings of Foreign Subsidiaries

The Company recognizes deferred tax balances related to the undistributed earnings of subsidiaries when it expects that it will recover those undistributed earnings in a taxable manner, such as through receipt of dividends or sale of the investments.

We continue to have certain subsidiaries whose earnings have not been deemed permanently reinvested, for which we have been accruing estimates of the tax effects of such repatriation. Excluding these certain subsidiaries, we continue to assert that the historical cumulative earnings for the remainder of our subsidiaries have been reinvested indefinitely, and therefore do not provide deferred taxes on these amounts. If future events, including material changes in estimates of cash, working capital, long-term investment requirements or additional legislation relating to U.S. Tax Reform, necessitate that these earnings be distributed, an additional provision for income and foreign withholding taxes, net of credits, may be necessary. Other potential sources of cash may be through the settlement of intercompany loans or return of capital distributions in a tax-efficient manner.

## Cash and Cash Equivalents

Our cash and cash equivalents at September 30, 2020 totaled \$1.6 billion, compared to \$887 million at December 31, 2019. The increase in cash from December 31, 2019 to September 30, 2020 was primarily due to positive cash flows from our improved working capital position during the nine months ended September 30, 2020 and from the proceeds from the disposal of our Max Matthiessen business.

Additionally, we had all of the borrowing capacity available to draw against our \$1.25 billion revolving credit facility at both September 30, 2020 and December 31, 2019.

Included within cash and cash equivalents at September 30, 2020 and December 31, 2019 are amounts held for regulatory capital adequacy requirements, including \$114 million at both balance sheet dates presented, held within our regulated U.K. entities.

#### Summarized Condensed Consolidated Cash Flows

The following table presents the summarized condensed consolidated cash flow information for the nine months ended September 30, 2020 and 2019:

|   | N  | Nine Months Ended September 30, |    |         |  |
|---|----|---------------------------------|----|---------|--|
|   |    | 2020 20                         |    |         |  |
|   |    | (in millions)                   |    |         |  |
| Net cash from/(used in):  |    |                                 |    |         |  |
| Operating activities  | \$ | 1,206                           | \$ | 620     |  |
| Investing activities  |    | (108)                           |    | (1,531) |  |
| Financing activities  |    | (334)                           |    | 774     |  |
| INCREASE/(DECREASE) IN CASH, CASH EQUIVALENTS AND RESTRICTED                  |    |                                 |    |         |  |
| CASH  |    | 764                             |    | (137)   |  |
| Effect of exchange rate changes on cash, cash equivalents and restricted cash |    | (5)                             |    | (22)    |  |
| CASH, CASH EQUIVALENTS AND RESTRICTED CASH, BEGINNING OF PERIOD (i)           |    | 895                             |    | 1,033   |  |
| CASH, CASH EQUIVALENTS AND RESTRICTED CASH, END OF PERIOD (i)                 | \$ | 1,654                           | \$ | 874     |  |
| CASH, CASH EQUIVALENTS AND RESTRICTED CASH, END OF PERIOD (i)                 | \$ | 1,654                           | \$ | 874     |  |

<sup>(</sup>i) As a result of the acquired TRANZACT collateralized facility, cash, cash equivalents and restricted cash included \$7 million of restricted cash at September 30, 2020 and 2019 and \$8 million at December 31, 2019, which is included within prepaid and other current assets on our condensed consolidated balance sheets. There were no restricted cash amounts held at December 31, 2018.

#### **Cash Flows From Operating Activities**

Cash flows from operating activities were \$1.2 billion for the nine months ended September 30, 2020, compared to \$620 million for the nine months ended September 30, 2019. The \$1.2 billion of net cash from operating activities for the nine months ended September 30, 2020 included net income of \$537 million, \$582 million of non-cash adjustments, as well as favorable changes in operating assets and liabilities of \$87 million. This increase in cash flows from operations as compared to the prior year was primarily due to positive cash flows from our improved working capital position for the nine months ended September 30, 2020 as compared to September 30, 2019.

The \$620 million of net cash from operating activities for the nine months ended September 30, 2019 included net income of \$522 million and \$574 million of non-cash adjustments, partially offset by changes in operating assets and liabilities of \$476 million.

#### Cash Flows Used In Investing Activities

Cash flows used in investing activities for the nine months ended September 30, 2020 and 2019 were \$108 million and \$1.5 billion, respectively. The current year period was primarily driven by capital expenditures and capitalized software additions, and an acquisition during the first quarter of 2020. These outflows were partially offset by proceeds from sale of operations, primarily resulting from the disposal of our Max Matthiessen business. The prior year period was primarily driven by the acquisition of TRANZACT during the third quarter of 2019, coupled with capital expenditures and capitalized software additions.

## Cash Flows (Used In)/From Financing Activities

Cash flows used in financing activities for the nine months ended September 30, 2020 were \$334 million. The significant financing activities included dividend payments of \$259 million and net debt-related payments of \$39 million.

Cash flows from financing activities for the nine months ended September 30, 2019 were \$774 million. The most significant financing activities included net debt-related proceeds of \$1.2 billion, which were partially offset by dividend payments of \$245 million, and share repurchases of \$147 million.

#### Indebtedness

Total debt, total equity, and the capitalization ratios at September 30, 2020 and December 31, 2019 were as follows:

|   | Sep | September 30,<br>2020 |    | ecember 31,<br>2019 |  |
|---|-----|-----------------------|----|---------------------|--|
|   |     | (\$ in millions)      |    |                     |  |
| Long-term debt                                  | \$  | 4,641                 | \$ | 5,301               |  |
| Current debt                                    |     | 973                   |    | 316                 |  |
| Total debt                                      | \$  | 5,614                 | \$ | 5,617               |  |
|   |     |                       |    |                     |  |
| Total Willis Towers Watson shareholders' equity | \$  | 10,515                | \$ | 10,249              |  |
|   |     |                       |    |                     |  |
| Capitalization ratio                            |     | 34.8%                 |    | 35.4%               |  |

At September 30, 2020, our mandatory debt repayments over the next twelve months include \$500 million outstanding on our 5.750% senior notes due 2021, \$450 million outstanding on our 3.500% senior notes due 2021 and \$24 million outstanding on our collateralized facility assumed as part of our acquisition of TRANZACT.

At September 30, 2020 and December 31, 2019, we were in compliance with all financial covenants.

#### **Fiduciary Funds**

As an intermediary, we hold funds, generally in a fiduciary capacity, for the account of third parties, typically as the result of premiums received from clients that are in transit to insurers and claims due to clients that are in transit from insurers. We report premiums, which are held on account of, or due from, clients as assets with a corresponding liability due to the insurers. Claims held by or due to us, which are due to clients, are also shown as both Fiduciary assets and Fiduciary liabilities on our condensed consolidated balance sheets.

Fiduciary funds are generally required to be kept in regulated bank accounts subject to guidelines which emphasize capital preservation and liquidity; such funds are not available to service the Company's debt or for other corporate purposes. Notwithstanding the legal relationships with clients and insurers, the Company is entitled to retain investment income earned on fiduciary funds in accordance with industry custom and practice and, in some cases, as supported by agreements with insureds.

At September 30, 2020 and December 31, 2019, we had fiduciary funds of \$4.1 billion and \$3.4 billion, respectively.

#### **Share Repurchase Program**

The Company is authorized to repurchase shares, by way of redemption, and will consider whether to do so from time to time, based on many factors, including market conditions. There are no expiration dates for our repurchase plans or programs.

On February 26, 2020, the board of directors approved a \$251 million increase to the existing share repurchase program, increasing the total remaining authorization to \$500 million.

During the nine months ended September 30, 2020, the Company had no share repurchase activity. With regards to certain prohibitions under the transaction agreement in connection with our pending business combination with Aon, the board of directors does not expect to repurchase any shares during the remainder of 2020.

At September 30, 2020, approximately \$500 million remained on the current repurchase authority. The maximum number of shares that could be repurchased based on the closing price of our ordinary shares on September 30, 2020 of \$208.82 was 2,394,407.

#### **Capital Commitments**

Capital expenditures for fixed assets and software for internal use were \$183 million during the nine months ended September 30, 2020. The Company estimates that there will be additional such expenditures of approximately \$57 million during the remainder of 2020. We currently expect cash from operations to adequately provide for these cash needs. There have been no material changes to our capital commitments since December 31, 2019.

#### Dividends

Total cash dividends of \$259 million were paid during the nine months ended September 30, 2020. In August 2020, the board of directors approved a quarterly cash dividend of \$0.68 per share (\$2.72 per share annualized rate), which was paid on October 15, 2020 to shareholders of record as of September 30, 2020.

#### **Off-Balance Sheet Arrangements and Contractual Obligations**

#### **Off-Balance Sheet Transactions**

See Part II, Item 7 'Off-Balance Sheet Arrangements and Contractual Obligations' in our Annual Report on Form 10-K, filed with the SEC on February 26, 2020, for a discussion pertaining to off-balance sheet transactions.

#### **Contractual Obligations**

There have been no material changes to our contractual obligations since we filed our Annual Report on Form 10-K with the SEC on February 26, 2020.

#### **Supplemental Guarantor Financial Information**

As of September 30, 2020, Willis Towers Watson has issued the following debt securities (the 'notes'):

- a) Willis Towers Watson plc (the 'parent company') has \$500 million senior notes outstanding, which were issued on March 17, 2011;
- b) Willis North America Inc. ('Willis North America') has approximately \$2.9 billion senior notes outstanding, of which \$650 million were issued on May 16, 2017, \$1.0 billion were issued on September 10, 2018, \$1.0 billion were issued on September 10, 2019, and \$275 million were issued on May 29, 2020; and
- c) Trinity Acquisition plc has approximately \$2.1 billion senior notes outstanding, of which \$525 million were issued on August 15, 2013, \$1.0 billion were issued on March 22, 2016 and €540 million (\$609 million) were issued on May 26, 2016, and a \$1.25 billion revolving credit facility established on March 7, 2017, on which no balance is currently outstanding.

The following table presents a summary of the entities that issue each note and those wholly owned subsidiaries of the Company that guarantee each respective note on a joint and several basis. These subsidiaries are all consolidated by the parent company and together with the parent company comprise the 'Obligor group'.

| Entity  | Willis Towers Watson plc Notes | Trinity Acquisition plc Notes | Willis North America<br>Inc. Notes |
|---|--------------------------------|-------------------------------|------------------------------------|
| Willis Towers Watson plc                            | Issuer                         | Guarantor                     | Guarantor                          |
| Trinity Acquisition plc                             | Guarantor                      | Issuer                        | Guarantor                          |
| Willis North America Inc.                           | Guarantor                      | Guarantor                     | Issuer                             |
| Willis Netherlands Holdings B.V.                    | Guarantor                      | Guarantor                     | Guarantor                          |
| Willis Investment UK Holdings Limited               | Guarantor                      | Guarantor                     | Guarantor                          |
| TA I Limited  | Guarantor                      | Guarantor                     | Guarantor                          |

The notes issued by the parent company, Willis North America and Trinity Acquisition plc:

- rank equally with all of the issuer's existing and future unsubordinated and unsecured debt;
- rank equally with the issuer's guarantee of all of the existing senior debt of the Company and the other guarantors, including any debt under the Revolving Credit Facility;
- are senior in right of payment to all of the issuer's future subordinated debt; and
- are effectively subordinated to all of the issuer's secured debt to the extent of the value of the assets securing such debt.

All other subsidiaries of the parent company are non-guarantor subsidiaries ('the non-guarantor subsidiaries').

Each member of the Obligor group has only a stockholder's claim on the assets of the non-guarantor subsidiaries. This stockholder's claim is junior to the claims that creditors have against those non-guarantor subsidiaries. Holders of the notes will only be creditors of the Obligor group and not creditors of the non-guarantor subsidiaries. As a result, all of the existing and future liabilities of the non-guarantor subsidiaries, including any claims of trade creditors and preferred stockholders, will be structurally senior to the notes. As of and for the periods ended September 30, 2020 and December 31, 2019, the non-guarantor subsidiaries represented substantially all of the total assets and accounted for substantially all of the total revenue of the Company prior to consolidating adjustments. The non-guarantor subsidiaries have other liabilities, including contingent liabilities that may be significant. Each indenture does not contain any limitations on the amount of additional debt that the Obligor group and the non-guarantor subsidiaries may incur. The amounts of this debt could be substantial, and this debt may be debt of the non-guarantor subsidiaries, in which case this debt would be effectively senior in right of payment to the notes.

The notes are obligations exclusively of the Obligor group. Substantially all of the Obligor group's operations are conducted through its non-guarantor subsidiaries. Therefore, the Obligor group's ability to service its debt, including the notes, is dependent upon the net

cash flows of its non-guarantor subsidiaries and their ability to distribute those net cash flows as dividends, loans or other payments to the Obligor group. Certain laws restrict the ability of these non-guarantor subsidiaries to pay dividends and make loans and advances to the Obligor group. In addition, such non-guarantor subsidiaries may enter into contractual arrangements that limit their ability to pay dividends and make loans and advances to the Obligor group.

Intercompany balances and transactions between members of the Obligor group have been eliminated. All intercompany balances and transactions between the Obligor group and the non-guarantor subsidiaries have been presented in the disclosures below on a net presentation basis, rather than a gross basis, as this better reflects the nature of the intercompany positions and presents the funding or funded position that is to be received or owed. The intercompany balances and transactions between the Obligor group and non-guarantor subsidiaries, presented below, relate to a number of items including loan funding for acquisitions and other purposes, transfers of surplus cash between subsidiary companies, funding provided for working capital purposes, settlement of expense accounts, transactions related to share-based payment arrangements and share issuances, intercompany royalty arrangements, intercompany dividends and intercompany interest. At September 30, 2020 and December 31, 2019, the intercompany balances of the Obligor group with non-guarantor subsidiaries were net receivables of \$0.5 billion and \$4.3 billion, respectively, and net payables of \$8.0 billion and \$3.5 billion, respectively.

No balances or transactions of non-guarantor subsidiaries are presented in the disclosures other than the intercompany items noted above.

Presented below is certain summarized financial information for the Obligor group.

#### **Non-GAAP Financial Measures**

In order to assist readers of our condensed consolidated financial statements in understanding the core operating results that Willis Towers Watson's management uses to evaluate the business and for financial planning purposes, we present the following non-GAAP measures and their most directly comparable U.S. GAAP measure:

| Most Directly Comparable U.S. GAAP Measure      | Non-GAAP Measure                    |
|---|-------------------------------------|
| As reported change                              | Constant currency change            |
| As reported change                              | Organic change                      |
| Income from operations/margin                   | Adjusted operating income/margin    |
| Net income/margin                               | Adjusted EBITDA/margin              |
| Net income attributable to Willis Towers Watson | Adjusted net income                 |
| Diluted earnings per share                      | Adjusted diluted earnings per share |
| Income from operations before income taxes      | Adjusted income before taxes        |
| Provision for income taxes/U.S. GAAP tax rate   | Adjusted income taxes/tax rate      |
| Net cash from operating activities              | Free cash flow                      |

The Company believes that these measures are relevant and provide useful information widely used by analysts, investors and other interested parties in our industry to provide a baseline for evaluating and comparing our operating performance, and in the case of free cash flow, our liquidity results.

Within the measures referred to as 'adjusted', we adjust for significant items which will not be settled in cash, or which we believe to be items that are not core to our current or future operations. Some of these items may not be applicable for the current quarter, however they may be part of our full-year results. These items include the following:

- Transaction and integration expenses Management believes it is appropriate to adjust for transaction and integration expenses when they relate
  to a specific significant program with a defined set of activities and costs that are not expected to continue beyond a defined period of time, or
  significant acquisition-related transaction expenses. We believe the adjustment is necessary to present how the Company is performing, both now
  and in the future when the incurrence of these costs will have concluded.
- · Gains and losses on disposals of operations Adjustment to remove the gain or loss resulting from disposed operations.
- Pension settlement and curtailment gains and losses Adjustment to remove significant pension settlement and curtailment gains and losses to better present how the Company is performing.
- Abandonment of long-lived asset Adjustment to remove the depreciation expense resulting from internally-developed software that was abandoned prior to being placed into service.
- Provisions for significant litigation We will include provisions for litigation matters which we believe are not representative of our core business operations.
- Tax effect of the CARES Act Relates to the incremental tax expense impact, primarily from the Base Erosion and Anti-Abuse Tax ('BEAT'), generated from electing certain income tax provisions of the CARES Act.
- Tax effects of internal reorganization Relates to the U.S. income tax expense resulting from the completion of internal reorganizations of the ownership of certain businesses that reduced the investments held by our U.S.-controlled subsidiaries.

These non-GAAP measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-GAAP measures should be considered in addition to, and not as a substitute for, the information contained within our condensed consolidated financial statements.

#### Constant Currency Change and Organic Change

We evaluate our revenue on an as reported (U.S. GAAP), constant currency and organic basis. We believe presenting constant currency and organic information provides valuable supplemental information regarding our comparable results, consistent with how we evaluate our performance internally.

- Constant currency change Represents the year-over-year change in revenue excluding the impact of foreign currency fluctuations. To calculate this impact, the prior year local currency results are first translated using the current year monthly average exchange rates. The change is calculated by comparing the prior year revenue, translated at the current year monthly average exchange rates, to the current year as reported revenue, for the same period. We believe constant currency measures provide useful information to investors because they provide transparency to performance by excluding the effects that foreign currency exchange rate fluctuations have on period-over-period comparability given volatility in foreign currency exchange markets.
- Organic change Excludes the impact of fluctuations in foreign currency exchange rates as described above and the period-over-period impact of acquisitions and divestitures on current-year revenue. We believe that excluding transaction-related items from our U.S. GAAP financial measures provides useful supplemental information to our investors, and it is important in illustrating what our core operating results would have been had we not included these transaction-related items, since the nature, size and number of these transaction-related items can vary from period to period.

The constant currency and organic change results, and reconciliations from the reported results for consolidated revenue are included in the Consolidated Revenue section within this Form 10-Q. These measures are also reported by segment in the Segment Revenue section within this Form 10-Q.

Reconciliations of the reported changes to the constant currency and organic changes for the three and nine months ended September 30, 2020 from the three and nine months ended September 30, 2019 are as follows:

|         |    |                      |             |          | Components of Revenue Change (i) |          |               |         |  |

|         |                  | 2020                            |    | 2019     | Change   | Impact                           | Change        | Divestitures | Change |  |
|         | (\$ in millions) |                                 |    |          |          |                                  |               |              |        |  |
| Revenue | \$               | 6,588                           | \$ | 6,349    | 4%       | (1)%                             | 5%            | 3%           | 1%     |  |

<sup>(</sup>i) Components of revenue change may not add due to rounding.

Adjusting for the impacts of foreign currency and acquisitions and disposals in the calculation of our organic activity, our revenue declined 1% for the three months ended September 30, 2020. While we experienced organic revenue declines in our HCB and CRB segments, in part due to the impact in HCB of the COVID-19 reduction in demand for our discretionary services, they were partially offset by increases in our IRR segment and in our BDA segment, in which the increase was driven by new client growth in health and welfare and organic increases from TRANZACT across all product lines.

Adjusting for the impacts of foreign currency and acquisitions and disposals in the calculation of our organic activity, our revenue growth was 1% for the nine months ended September 30, 2020. The CRB, IRR and BDA segments had organic revenue growth during the first nine months of the year, while the HCB segment was flat, in part due to the impact in HCB of the COVID-19 reduction in demand for our discretionary services.

#### Adjusted Operating Income/Margin

We consider adjusted operating income/margin to be important financial measures, which are used internally to evaluate and assess our core operations and to benchmark our operating results against our competitors.

Adjusted operating income is defined as income from operations adjusted for amortization, transaction and integration expenses and non-recurring items that, in management's judgment, significantly affect the period-over-period assessment of operating results. Adjusted operating income margin is calculated by dividing adjusted operating income by revenue.

Reconciliations of income from operations to adjusted operating income for the three and nine months ended September 30, 2020 and 2019 are as follows:

|                                      | Three Months Ended September 30, |        |         | Nine Months Ended Septe |    |       | otember 30, |       |
|--------------------------------------|----------------------------------|--------|---------|-------------------------|----|-------|-------------|-------|
|                                      | 2020                             |        |         | 2019                    |    | 2020  |             | 2019  |
|                                      |                                  | (in mi | llions) |                         |    |       |             |       |
| Income from operations               | \$                               | 73     | \$      | 107                     | \$ | 596   | \$          | 642   |
| Adjusted for certain items:          |                                  |        |         |                         |    |       |             |       |
| Abandonment of long-lived asset      |                                  | _      |         | _                       |    | 35    |             | _     |
| Amortization                         |                                  | 108    |         | 118                     |    | 348   |             | 368   |
| Transaction and integration expenses |                                  | 42     |         | 6                       |    | 65    |             | 12    |
| Provision for significant litigation |                                  | 15     |         | _                       |    | 15    |             | _     |
| Adjusted operating income            | \$                               | 238    | \$      | 231                     | \$ | 1,059 | \$          | 1,022 |
|                                      |                                  |        |         | -                       |    | -     |             |       |
| Income from operations margin        |                                  | 3.6%   |         | 5.4%                    |    | 9.0%  |             | 10.1% |
| Adjusted operating income margin     |                                  | 11.8%  |         | 11.6%                   |    | 16.1% |             | 16.1% |

Adjusted operating income increased for the three months ended September 30, 2020 to \$238 million, from \$231 million for the three months ended September 30, 2019. This increase resulted mostly from higher revenue quarter over quarter and lower other operating expenses, partially offset by higher salaries and benefits expense.

Adjusted operating income increased for the nine months ended September 30, 2020 as compared to 2019. This increase resulted primarily from the inclusion of TRANZACT's operating results for the period, partially offset by higher salaries and benefits expense.

#### Adjusted EBITDA/Margin

We consider adjusted EBITDA/margin to be important financial measures, which are used internally to evaluate and assess our core operations, to benchmark our operating results against our competitors and to evaluate and measure our performance-based compensation plans.

Adjusted EBITDA is defined as net income adjusted for provision for income taxes, interest expense, depreciation and amortization, transaction and integration expenses, gains and losses on disposals of operations and non-recurring items that, in management's judgment, significantly affect the period-over-period assessment of operating results. Adjusted EBITDA margin is calculated by dividing adjusted EBITDA by revenue.

Reconciliations of net income to adjusted EBITDA for the three and nine months ended September 30, 2020 and 2019 are as follows:

|                                      | Thr | Three Months Ended September 30, |          |       | N  | ine Months End | ed Sept | ember 30, |
|--------------------------------------|-----|----------------------------------|----------|-------|----|----------------|---------|-----------|
|                                      |     | 2020                             |          | 2019  |    | 2020           |         | 2019      |
|                                      |     | (in m                            | illions) |       |    |                |         |           |
| NET INCOME                           | \$  | 122                              | \$       | 80    | \$ | 537            | \$      | 522       |

<sup>(</sup>i) Includes abandonment of long-lived asset of \$35 million for the nine months ended September 30, 2020.

Adjusted EBITDA for the three months ended September 30, 2020 was \$382 million, compared to \$344 million for the three months ended September 30, 2019. This increase resulted mostly from higher revenue quarter over quarter, lower other operating expenses, and higher pension income in the current period, partially offset by higher salaries and benefits expense.

Adjusted EBITDA for the nine months ended September 30, 2020 was \$1.5 billion, compared to \$1.4 billion for the nine months ended September 30, 2019. This increase resulted primarily from the inclusion of TRANZACT's operating results for the period and higher pension income in the current period, partially offset by higher salaries and benefits expense.

#### Adjusted Net Income and Adjusted Diluted Earnings Per Share

Adjusted net income is defined as net income attributable to Willis Towers Watson adjusted for amortization, transaction and integration expenses, gains and losses on disposals of operations and non-recurring items that, in management's judgment, significantly affect the period-over-period assessment of operating results and the related tax effect of those adjustments, the tax effect of the CARES Act and the tax effects of internal reorganizations. This measure is used solely for the purpose of calculating adjusted diluted earnings per share.

Adjusted diluted earnings per share is defined as adjusted net income divided by the weighted-average number of shares of common stock, diluted. Adjusted diluted earnings per share is used to internally evaluate and assess our core operations and to benchmark our operating results against our competitors.

Reconciliations of net income attributable to Willis Towers Watson to adjusted diluted earnings per share for the three months ended September 30, 2020 and 2019 are as follows:

<sup>(</sup>i) The tax effect was calculated using an effective tax rate for each item.(ii) Per share values and totals may differ due to rounding.

Our adjusted diluted earnings per share increased for the nine months ended September 30, 2020 as compared to the prior year primarily due to the inclusion of TRANZACT's operating results.

### Adjusted Income Before Taxes and Adjusted Income Taxes/Tax Rate

Adjusted income before taxes is defined as income from operations before income taxes adjusted for amortization, transaction and integration expenses, gains and losses on disposals of operations and non-recurring items that, in management's judgment, significantly affect the period-over-period assessment of operating results. Adjusted income before taxes is used solely for the purpose of calculating the adjusted income tax rate.

Adjusted income taxes/tax rate is defined as the provision for income taxes adjusted for taxes on certain items of amortization, transaction and integration expenses, gains and losses on disposals of operations, the tax effect of the CARES Act, the tax effects of internal reorganizations and non-recurring items that, in management's judgment, significantly affect the period-over-period assessment of operating results, divided by adjusted income before taxes. Adjusted income taxes is used solely for the purpose of calculating the adjusted income tax rate.

Management believes that the adjusted income tax rate presents a rate that is more closely aligned to the rate that we would incur if not for the reduction of pre-tax income for the adjusted items and the tax effects of internal reorganizations, which are not core to our current and future operations.

Reconciliations of income from operations before income taxes to adjusted income before taxes and provision for income taxes to adjusted income taxes for the three and nine months ended September 30, 2020 and 2019 are as follows:

|  |     |                                  |    |       |                                 |       |    |            |
| U.S. GAAP tax rate                           |     | 27.6%                            |    | 20.4% |                                 | 27.1% |    | 19.3%      |
| Adjusted income tax rate                     |     | 30.0%                            |    | 22.2% |                                 | 23.1% |    | 21.0%      |

<sup>(</sup>i) The tax effect was calculated using an effective tax rate for each item.

Our U.S. GAAP tax rates were 27.6% and 20.4% for the three months ended September 30, 2020 and 2019, respectively, and 27.1% and 19.3% for the nine months ended September 30, 2020 and 2019, respectively. The current quarter effective tax rate is higher as a result of the enacted statutory tax rate changes in the U.K., requiring us to remeasure our U.K. deferred tax liabilities and recognize a discrete deferred tax expense of \$11 million during the three months ended September 30, 2020. The current year effective tax rate is higher primarily due to tax expense of \$38 million recognized during the nine months ended September 30, 2020 in connection with the temporary income tax provisions of the CARES Act. During the second quarter of 2020 the Company elected to utilize the higher section 163(j) 50 percent business interest limitation for tax years 2019 and 2020 which allows the Company to utilize additional interest expense. The utilization of additional interest expense reduces our regular tax liability, reduces our ability to utilize foreign tax credits and creates a base erosion minimum tax expense for these tax years.

Our adjusted income tax rates were 30.0% and 22.2% for the three months ended September 30, 2020 and 2019, respectively, and 23.1% and 21.0% for the nine months ended September 30, 2020 and 2019, respectively. The adjusted income tax rate for the current quarter is higher than the U.S. GAAP rate due to the tax-exempt divestiture of Max Matthiessen.

#### Free Cash Flow

Free cash flow is defined as cash flows from operating activities less cash used to purchase fixed assets and software for internal use. Free cash flow is a liquidity measure and is not meant to represent residual cash flow available for discretionary expenditures.

Management believes that free cash flow presents the core operating performance and cash generating capabilities of our business operations.

Reconciliations of cash flows from operating activities to free cash flow for the nine months ended September 30, 2020 and 2019 are as follows:

|   | <br>Nine Months Ended September 30, |    |       |
|---|-------------------------------------|----|-------|
|   | <br>2020 2019                       |    |       |
|   | (in millions)                       |    |       |
| Cash flows from operating activities                          | \$<br>1,206                         | \$ | 620   |
| Less: Additions to fixed assets and software for internal use | <br>(183)                           |    | (175) |
| Free cash flow  | \$<br>1,023                         | \$ | 445   |

The favorable movement in free cash flows in 2020 was primarily due to positive cash flows from our improved working capital position driven by effective management of discretionary spending for the nine months ended September 30, 2020 as compared to September 30, 2019.

# **Critical Accounting Policies and Estimates**

There were no material changes from the Critical Accounting Policies and Estimates disclosed in our 2019 Annual Report on Form 10-K, filed with the SEC on February 26, 2020.

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We have considered changes in our exposure to market risks during the nine months ended September 30, 2020 and have determined that there have been no material changes to our exposure to market risks from those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2019, filed with the SEC on February 26, 2020. However, we have provided the following information to supplement or update our disclosures on our Form 10-K.

#### LIBOR-Related Debt Instruments

In July 2017, the Financial Conduct Authority, the authority that regulates LIBOR, announced its intention to stop compelling banks to submit rates for the calculation of LIBOR after 2021. The Alternative Reference Rates Committee ('ARRC'), a group of private-market participants convened by the Federal Reserve Board and the Federal Reserve Bank of New York to help ensure a successful transition from U.S. dollar LIBOR ('USD-LIBOR') to a more robust reference rate, has proposed that the Secured Overnight Financing Rate ('SOFR') represents the best alternative to USD-LIBOR for use in derivatives and other financial contracts that are currently indexed to USD-LIBOR. ARRC has proposed a transition plan with specific steps and timelines designed to encourage the adoption of SOFR and guide the transition to SOFR from USD-LIBOR. Organizations are currently working on industry-wide and company-specific transition plans related to derivatives and cash markets exposed to USD-LIBOR. Similar efforts are underway to identify suitable replacement reference rates for LIBOR in other major currencies.

As of September 30, 2020, the Company's primary exposure is its \$1.25 billion revolving credit facility maturing in 2022 and its collateralized facility assumed as part of its acquisition of TRANZACT, which are both priced using rates tied to LIBOR. We anticipate renegotiating the revolving credit facility prior to the potential LIBOR quotation termination date and will renegotiate, or repay, the collateralized facility prior to the end of 2021. In addition, the Company and its subsidiaries have entered into various intercompany notes indexed to LIBOR. The Company expects to amend or replace the LIBOR-based intercompany notes as necessary to reflect new market benchmarks for the relevant loan currencies prior to the 2021 deadline.

We are currently evaluating the LIBOR-related risks that may be inherent elsewhere in our business and are monitoring for further proposals and guidance from the ARRC and other alternative-rate initiatives, with the expectation that we will be prepared for the termination and replacement of the LIBOR benchmarks.

#### Interest Income on Fiduciary Funds

As described in our Form 10-K, we are exposed to interest rate risk. Specifically, as a result of our operating activities, we receive cash for premiums and claims which we deposit in short-term investments denominated in U.S. dollars and other currencies. We earn interest on these funds, which is included in our condensed consolidated financial statements as interest income. These funds are regulated in terms of access and the instruments in which they may be invested, most of which are short-term in maturity. At September 30, 2020, we held \$3.0 billion of fiduciary funds invested in interest-bearing accounts. If short-term interest rates increased or decreased by 25 basis points, interest earned on these invested fiduciary funds, and therefore our interest income recognized, would increase or decrease by approximately \$7 million on an annualized basis.

#### ITEM 4. CONTROLS AND PROCEDURES

#### **Evaluation of Disclosure Controls and Procedures**

As of September 30, 2020, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer ('CEO') and the Chief Financial Officer ('CFO'), of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined by Exchange Act Rule 13a-15(e). Based upon that evaluation, the CEO and the CFO concluded that the Company's disclosure controls and procedures are effective in ensuring that the information required to be included in the Company's periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management, including the CEO and the CFO, as appropriate, to allow for timely decisions regarding required disclosure.

# **Changes in Internal Control over Financial Reporting**

As part of ongoing activities focused on improving efficiencies and optimizing its resources, the Company completed the outsourcing of a portion of its information technology resources to a third party. These arrangements were made in order to gain efficiencies of scale, reduce costs and improve overall operational effectiveness. They were not considered to be material to our internal controls framework and were not made in response to any identified deficiency or weakness in the Company's internal control over financial reporting.

There have been no changes in the Company's internal controls over financial reporting during the quarter ended September 30, 2020 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Although most of our employees who are involved in our financial reporting processes and controls are working remotely due to the COVID-19 pandemic, we have not experienced any specific impact to our internal controls over financial reporting. We are

continually monitoring and assessing the COVID-19 situation on our internal controls to minimize the impact on their design and operating effectiveness.

#### **Limitations on the Effectiveness of Controls**

Management, including the CEO and CFO, does not expect that our disclosure controls and procedures will necessarily prevent all errors and all fraud. However, management does expect that the control system provides reasonable assurance that its objectives will be met. A control system, no matter how well designed and operated, cannot provide absolute assurance that the control system's objectives will be met. In addition, the design of such internal controls must take into account the costs of designing and maintaining such a control system. Certain inherent limitations exist in control systems to make absolute assurances difficult, including the realities that judgments in decision-making can be faulty, that breakdowns can occur because of a simple error or mistake, and that individuals can circumvent controls. The design of any control system is based in part upon existing business conditions and risk assessments. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in business conditions or deterioration in the degree of compliance with policies or procedures. As a result, they may require change or revision. Because of the inherent limitations in a control system, misstatements due to error or fraud may occur and may not be detected. Nevertheless, the disclosure controls and procedures are designed to provide reasonable assurance of achieving their stated objectives, and the CEO and CFO have concluded that the disclosure controls and procedures are effective at a reasonable assurance level.

#### PART II. OTHER INFORMATION

#### ITEM 1. LEGAL PROCEEDINGS

From time to time, we are a party to various lawsuits, arbitrations or mediations that arise in the ordinary course of business. The disclosure called for by Part II, Item 1 regarding our legal proceedings is incorporated by reference herein from Part I, Item 1 Note 13 — Commitments and Contingencies - Legal Proceedings of the notes to the condensed consolidated financial statements in this Form 10-Q for the quarter ended September 30, 2020.

#### ITEM 1A. RISK FACTORS

Except as described below, there are no material changes from risk factors as previously disclosed in our Annual Report on Form 10-K, filed with the SEC on February 26, 2020. We urge you to read the risk factors contained therein.

#### We have been impacted by the COVID-19 pandemic and may be substantially and negatively impacted by it in the future.

Recently, the COVID-19 pandemic has had an adverse impact on global commercial activity, including the global supply chain, and has contributed to strain in financial markets, including, among other effects, significant volatility in equity markets, changes in interest rates and reduced liquidity on a global basis. It has also resulted in increased travel restrictions and extended shutdowns of businesses in various industries including, among others, travel, trade, tourism, health systems and food supply, and significantly reduced overall economic output. As such, there is a risk that COVID-19 could have a substantial negative impact on client demand and cash flow.

COVID-19 risks magnify other risks discussed in this report and any of our SEC filings. For example, the effectiveness of external parties, including governmental and non-governmental organizations, in combating the spread and severity of COVID-19 could have a material impact on demand for our business. In addition, steps taken by market counterparties such as (re)insurance carriers to limit their exposures to COVID-19 and related risks could have an impact on their willingness to provide or renew coverage for our clients on historical terms and pricing, which could again impact demand for our business. Coverage disputes arising out of the pandemic could also increase our professional liability risk by increasing the frequency and severity of allegations by others that, in the course of providing services, we have committed errors or omissions for which we should have liability. Also, travel restrictions have caused the postponement, modification or cancellation of various conferences and meetings around the world and adversely impacted sales activity. The rapid development and fluidity of this situation precludes any prediction as to the ultimate adverse impact of COVID-19 on our business. Nevertheless, COVID-19 presents material uncertainty and risk with respect to demand for our products and services.

In addition, COVID-19 could materially disrupt our own business operations and the services we provide, as well as the business operations of our clients, suppliers and other third parties with whom we interact. As an increasing percentage of our colleagues continue to work remotely, we face resiliency risks, such as the risk that our information technology platform could potentially be inadequate to support increasing demand, as well as the risk that unusual working arrangements could impact the effectiveness of our operations or controls. We may also make fewer information technology-based investments than previously anticipated, which could potentially create business operational risk. In addition, we depend on third-party platforms and other infrastructure to provide certain of our products and services, and such third-party infrastructures face similar resiliency risks. These factors have exposed us to increased phishing and other cybersecurity attacks as cybercriminals try to exploit the uncertainty surrounding the COVID-19 pandemic, as well as an increase in the number of points of potential attack, such as laptops and mobile devices (both of which are now being used in increased numbers as many of our employees work remotely), to be secured. A failure to effectively manage these risks, including to promptly identify and appropriately respond to any cyberattacks, may adversely affect our business.

Also, a potential COVID-19 infection of any of our key colleagues could substantially and negatively impact our operations. Further, it is possible that COVID-19 causes us to close down call centers and other processes on which we rely, or impacts processes of third-party vendors on whom we rely, which could also materially impact our operations. The rapidly evolving changes in financial markets could also have a material impact on our own hedging and other financial transactions, which could impact our liquidity. In addition, it is possible that COVID-19 restrictions could create difficulty for satisfying our legal or regulatory filing or other obligations, including with the SEC and other regulators.

All of the foregoing events or potential outcomes, including in combination with other risk factors included in this Quarterly Report on Form 10-Q or our Annual Report on Form 10-K, could cause a substantial negative effect on our results of operations in any period and, depending on their severity, could also substantially and negatively affect our financial condition. Furthermore, such potential material adverse effect may lag behind the developments related to the COVID-19 pandemic. Such events and outcomes also could potentially impact our reputation with clients and regulators, among others.

#### Our pending combination with Aon creates incremental business, regulatory and reputational risks.

On March 9, 2020, the Company announced that it had entered into a business combination agreement with Aon. The proposed transaction with Aon entails important risks, including, among others: the risk that we are unable to obtain the requisite regulatory approvals or satisfy all of the other conditions required to consummate the proposed transaction on the proposed terms and schedule, if

at all; the risk that we and Aon are unable to successfully integrate our combined operations and employees and realize the proposed transaction's benefits, including potential synergies, or that we are unable to realize such benefits at the times and to the extent anticipated or that results are different from those contained in forecasts when made; the risk that transaction and/or integration costs or dis-synergies are greater than expected, including as a result of conditions regulators put on any approvals of the transaction; the potential impact of the announcement and/or consummation of the proposed transaction on relationships, including with employees, suppliers, clients and competitors; the risk that we and/or the combined company will not have the ability to hire and retain key personnel; the risk that management's attention is diverted from other matters; the risks posed by changes in general economic, business and political conditions, including changes in the financial markets and any epidemic, pandemic or disease outbreaks; the risk of potential litigation associated with the proposed transaction and the risk that litigation associated with the proposed transaction or the business otherwise; the fact that the business combination agreement subjects the Company to various significant restrictions on its operations between signing and closing (including, among others, with respect to share repurchases, the incurrence of debt above thresholds or the acquisition or disposition of assets above specified thresholds, or specified changes to compensation and benefit programs); the risk of disruptions from the proposed transaction that impact our and/or Aon's business, including current plans and operations; the risk posed by extensive government regulation on our business and/or the business of the combined company; the risk of adverse effects on the market price of Aon's and the Company's securities and on Aon's and the Company's operating results for any reason; and other risks described in the Company'

#### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the nine months ended September 30, 2020, no shares were issued by the Company without registration under the Securities Act of 1933, as amended.

#### (c) Issuer Purchases of Equity Securities

The Company is authorized to repurchase shares, by way of redemption, and will consider whether to do so from time to time, based on many factors, including market conditions. There are no expiration dates for these repurchase plans or programs.

On February 26, 2020, the board of directors approved a \$251 million increase to the existing share repurchase program, increasing the total remaining authorization to \$500 million.

During the nine months ended September 30, 2020, there was no share repurchase activity. With regards to certain prohibitions under the transaction agreement in connection with our pending business combination with Aon, the board of directors does not expect to repurchase any shares during the remainder of 2020.

At September 30, 2020 the maximum number of shares that may yet be purchased under the existing stock repurchase plan is 2,394,407, with approximately \$500 million remaining on the current open-ended repurchase authority granted by the board. An estimate of the maximum number of shares under the existing authorities was determined using the closing price of our ordinary shares on September 30, 2020 of \$208.82.

#### ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

# CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECURITIES EXCHANGE ACT RULES 13a-14 AND 15d-14 AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, John J. Haley, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Willis Towers Watson Public Limited Company;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent function):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
