The Willis Group

Willis Group Holdings Limited is the ultimate holding company for the Willis Group. We trace our history to 1828 and are one of the largest insurance brokers in the world.

Willis Group Holdings Limited was incorporated in Bermuda on February 8, 2001 as an exempted company under the Companies Act 1981 of Bermuda, as amended, for the sole purpose of redomiciling the ultimate parent company of the Willis Group (comprised of TA I Limited and subsidiaries) from the United Kingdom to Bermuda. We completed an initial public offering of approximately 16% of our shares in June 2001. In November 2001, May 2002, April 2003, February 2004 and November 2005 approximately 14%, 15%, 16%, 15% and 4% of our shares were publicly sold through secondary public offerings.

Willis North America Inc. was incorporated in Delaware on December 20, 1928 and is a subsidiary of Willis Group Limited, which, in turn, is an indirect subsidiary of Willis Group Holdings Limited. Willis North America is a holding company for the operations of numerous subsidiaries in North America which are licensed insurance brokers. Willis North America's principal executive offices are located at 7 Hanover Square, New York, New York 10004, and its telephone number is (212) 344-8888.

We provide a broad range of insurance brokerage and risk management consulting services to our worldwide clients. We have significant market positions in the United States, in the United Kingdom and, directly and through our associates, in many other countries. We are a recognized leader in providing specialized risk management advisory and other services on a global basis to clients in various industries including the aerospace, marine, construction and energy industries.

In our capacity as an advisor and insurance broker, we act as an intermediary between our clients and insurance carriers by advising our clients on their risk management requirements, helping clients determine the best means of managing risk, and negotiating and placing insurance risk with insurance carriers through our global distribution network.

We assist clients in the assessment of their risks, advise on the best ways of transferring suitable risk to the global insurance and reinsurance markets and then execute the transactions at the most appropriate available price, terms and conditions for our clients. Our global distribution network enables us to place the risk in the most appropriate insurance or reinsurance market worldwide. We also offer clients a broad range of services to help them to identify and control their risks. These services range from strategic risk consulting (including providing actuarial analyses), to a variety of due diligence services to the provision of practical on-site risk control services (such as health and safety or property loss control consulting). We also assist clients in planning how to manage incidents or crises when they occur. These services include contingency planning, security audits and product tampering plans. We are not an insurance company and therefore we do not underwrite insurance risks for our own account.

We and our associates serve a diverse base of clients located in more than 190 countries. These clients include major multinational and middle-market companies in a variety of industries, as well as public institutions and individual clients. Many of our client relationships span decades. With approximately 15,400 employees around the world and a network of about 300 offices in some 80

countries, in each case including our associates, we believe we are one of only three insurance brokers in the world possessing the global operating presence, broad product expertise and extensive distribution network necessary to meet effectively the global risk management needs of many of our clients.

- (1) With effect from January 1, 2006, we adopted SFAS 123R, *Share-based payment*, using the modified-retrospective transition method. We also changed the methodology used to determine the market-related value of UK pension plan assets. Prior period financial data has been adjusted to reflect the retrospective application of these accounting policy changes.
- (2) As an intermediary, we hold funds in a fiduciary capacity for the account of third-parties, typically as a result of premiums received from clients that are in transit to insurance carriers and claims due to clients that are in transit from insurance carriers. We report premiums, which are held on account of, or due from policyholders, as assets with a corresponding liability due to the insurance carriers. Claims held by, or due to, us which are due to clients are also shown as both assets and liabilities of ours. All those balances due or payable are included in accounts receivable and payable on the balance sheet. Investment income is earned on those funds during the time between the receipt of the cash and the time the cash is paid out. Fiduciary cash must be kept in certain regulated bank accounts subject to guidelines, which vary according to legal jurisdiction. These guidelines generally emphasize capital protection and liquidity. Fiduciary cash is not available to service our debt or for other corporate purposes.
- (3) These data show the consolidated ratio of earnings to fixed charges of Willis Group Holdings Limited or its predecessor for each of the five most recent fiscal years and for the three month periods ended March 31, 2005 and March 31, 2006. For the purposes of calculating the consolidated ratio of earnings to fixed charges, "earnings" are defined as income before income taxes, equity in net income of associates and minority interest plus "fixed charges" and dividends from associates. Fixed charges comprise interest paid and payable, including the amortization of interest, and an estimate of the interest expense element of lease rentals.

RISK FACTORS

You should carefully consider these risk factors, the risk factors in the accompanying prospectus, the risks described in the documents incorporated by reference in this prospectus summary, and all of the other information herein and therein before making an investment decision. See "Risk Factors" beginning on page 13 of our Annual Report on Form 10-K for the year ended December 31, 2005.

Risks Related to the Notes

Because there is no established trading market for the notes, you may not be able to resell your notes.

The notes will be registered under the Securities Act of 1933, as amended, but will constitute a new issue of securities with no established trading market, and we cannot assure you as to:

- the liquidity of any trading market that may develop;
- the ability of holders to sell their notes; or
- the price at which the holders would be able to sell their notes.

If a trading market were to develop, the notes might trade at higher or lower prices than their principal amount or purchase price, depending on many factors, including prevailing interest rates, the market for similar notes and our financial performance.

We understand that the underwriters presently intend to make a market in the notes. However, they are not obligated to do so, and any market-making activity with respect to the notes may be discontinued at any time without notice. In addition, any market-making activity will be subject to the limits imposed by the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, and may be limited during the offering of the notes. We cannot assure you that an active trading market will exist for the notes or that any trading market that does develop will be liquid.

The Issuer, Willis North America, is a holding company and therefore depends on its subsidiaries to service its obligations under the notes and other indebtedness. The Issuer's ability to repay the notes depends upon the performance of its subsidiaries and their ability to make distributions to the Issuer. Similar constraints apply with respect to the guarantees.

The Issuer depends on its subsidiaries, which conduct the operations of our North American insurance brokerage business, for dividends and other payments to generate the funds necessary to meet its financial obligations, including payments of principal and interest on the notes. However, none of its subsidiaries is obligated to make funds available to the Issuer for payment on the notes. In addition, legal restrictions and contractual restrictions in agreements governing future indebtedness, as well as financial condition and operating requirements of the Issuer's subsidiaries, may limit the Issuer's ability to obtain cash from these subsidiaries. The earnings from, or other available assets of, the Issuer's subsidiaries may not be sufficient to pay dividends or make distributions or loans to enable the Issuer to make payments in respect of the notes when such payments are due. In addition, even if such earnings were sufficient, we cannot assure you that the agreements governing the future indebtedness of the Issuer's subsidiaries will permit such subsidiaries to provide the Issuer with sufficient dividends, distributions or loans to fund interest and principal payments on the notes offered hereby when due.

Because the guarantors of the notes are all direct and indirect parent entities of the Issuer, the restrictions and constraints described above apply similarly to the guarantors' ability to perform their obligations under the guarantees, including with respect to payments of principal and interest under the notes.

U.S. federal and state statutes and applicable Bermuda and U.K. law may allow courts to subordinate, vary or void the guarantees. Federal, state and Bermuda statutes and U.K. law allow courts, under

specific circumstances, to void, vary or subordinate guarantees and require noteholders to return payments received from guarantors.

Willis North America Inc. is a Delaware corporation. Willis Group Holdings Limited is a Bermuda company. Each other guarantor is a company organized under the laws of England and Wales. Under the U.S. federal bankruptcy law and comparable provisions of state fraudulent transfer laws, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of the guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by its guarantee (1) issued the guarantee with the intent of hindering, delaying or defrauding any current or future creditor or contemplated insolvency with a design to favor one or more creditors to the total or partial exclusion of other creditors or (2) received less than reasonably equivalent value or fair consideration for issuing its guarantee and:

- was insolvent or rendered insolvent by reason of such incurrence; or
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In addition, any payment by that guarantor pursuant to its guarantee could be voided and required to be returned to the guarantor, or to a fund for the benefit of the creditors of the guarantor.

Similar issues arise under the law of Bermuda. The guarantee could itself be vulnerable if, among other possibilities, the guarantee was issued (a) for an improper corporate purpose (one that does not achieve a corporate benefit for the guarantor), (b) in breach of the fiduciary obligations of the directors of the guarantor or (c) for the purpose of defrauding creditors. Even if the guarantee was not itself vulnerable on one of the grounds referred to above, a payment under the guarantee could be vulnerable if, among other possibilities, the payment was made (a) at a time when the guarantor was insolvent and for the purpose of preferring a creditor, (b) without adequate consideration and for the purpose of removing assets from the reach of any person, (c) for an improper corporate purpose as above, (d) in breach of the fiduciary obligations of the directors of the guarantor or (e) for the purpose of defrauding creditors.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a guarantor would be considered insolvent if:

- the sum of its debts, including contingent liabilities, were greater than the fair realizable value of all of its assets; or
- the present fair realizable value of its assets were less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature;
- it could not pay its debts as they become due; or
- in connection with certain Bermuda law doctrines, it was unable to pay its debts, taking into account contingent and prospective obligations.

Additionally, under U.K. insolvency law, the liquidator or administrator of a company may apply to the court to void or vary a transaction entered into by such company at less than fair value, if such company was insolvent at the time of, or as a consequence of, the transaction and enters into a formal insolvency process within two years of the completion of the transaction. A transaction might be challenged if it involved a gift by the company or the company received consideration of significantly less value than the benefit given by such company. A court generally will not intervene if the company

entered the transaction in good faith for the purposes of carrying on its business and there were reasonable grounds for believing the transaction would benefit the company.

On the basis of historical financial information, recent operating history and other factors, we believe, after giving effect to the debt incurred by us and the guarantors in connection with this offering of notes, neither we nor the guarantors will be insolvent, will not have unreasonably small capital for the business in which we are engaged and will not have incurred debts beyond each of our ability to pay such debts as they mature. We believe that the guarantees will not be issued at less than fair value, that they are being issued in good faith for purposes of carrying on the guarantors' business and that there are reasonable grounds for believing that this offering of notes will benefit the guarantors. However, we cannot assure you as to what standard a court would apply in making such determinations or that a court would agree with our conclusions in this regard.

USE OF PROCEEDS

The net proceeds from this offering, after deducting underwriting discounts and estimated expenses, will be approximately \$296,342,000. We intend to use these net proceeds for general corporate purposes including funding requirements under our employee pension plans.

DESCRIPTION OF NOTES

The following is a description of the particular terms of the notes offered pursuant to this prospectus supplement. This description supplements, and to the extent inconsistent, modifies the description of the general terms and provisions of the debt securities referred to as Willis North America senior debt securities that is set forth in the accompanying prospectus under "Description of Debt Securities." To the extent the description in this prospectus supplement is inconsistent with the description contained in the accompanying prospectus, you should rely on the description in this prospectus supplement.

The notes will be issued under an indenture, dated as of July 1, 2005, among Willis North America Inc., the Guarantors and JPMorgan Chase Bank, N.A., as trustee, as supplemented by a supplemental indenture dated as of June 30, 2006. This indenture is referred to as the Willis North America senior indenture in the accompanying prospectus. In this section, we refer to the indenture, together with the supplemental indenture, as the "indenture." The following statements with respect to the notes are summaries of the provisions of the notes and the indenture. We urge you to read such documents in their entirety because they, and not this description, will define your rights as holders of the notes. A copy of the form of indenture is filed as an exhibit to the registration statement of which this prospectus supplement and the accompanying prospectus are a part.

General

The Issuer, Willis North America, will issue \$300 million of notes. As described under "—Further Issuances," under the indenture the Issuer can issue additional notes at later dates. In addition, the Issuer can issue additional series of debt securities without limitation as to aggregate principal amount under the indenture in the future.

The notes will be issued only in registered form without coupons in denominations of \$2,000 and any integral multiple of \$1,000 above that amount. The notes initially will be represented by one or more global certificates registered in the name of a nominee of The Depository Trust Company, which we refer to in this prospectus supplement as DTC, as described under "—Book-Entry, Delivery and Form."

The trustee, through its corporate trust office in New York City, will act as the Issuer's paying agent and security registrar in respect of the notes. The current location of such corporate trust office is 4 New York Plaza, 15th Floor, New York, New York 10004. So long as the notes are issued in the form of global certificates, payments of principal, interest and premium, if any, will be made by the Issuer through the paying agent to DTC.

The notes will not be entitled to the benefit of any sinking fund.

Payments

The notes will mature on July 15, 2016.

Interest on the notes is payable semi-annually in arrears on January 15 and July 15 of each year, beginning on January 15, 2007. The Issuer will pay interest to those persons who were holders of record on the January 1 or July 1 immediately preceding the applicable interest payment date. Interest will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Further Issuances

The Issuer may, from time to time, without notice to or the consent of the holders of the notes, increase the principal amount of the notes under the indenture and issue such increased principal

amount (or any portion thereof), in which case any additional notes so issued will have the same form and terms (other than the date of issuance and, under certain circumstances, the date from which interest thereon will begin to accrue), and will carry the same right to receive accrued and unpaid interest, as the notes previously issued, and such additional notes will form a single series with the previously issued notes of such series, including for voting purposes.

Ranking

The notes will be:

- unsubordinated unsecured obligations of the Issuer;
- equal in ranking ("*pari passu*") with all the Issuer's existing and future senior debt, including its senior notes due 2010 and senior notes due 2015;
- senior in right of payment to all the Issuer's future subordinated debt;
- effectively subordinated to all the Issuer's existing and future secured debt to the extent of the value of the assets securing such debt; and
- guaranteed on a senior unsecured basis by the Guarantors.

As of March 31, 2006, after giving effect to this offering, the total outstanding debt of the Issuer, excluding unused commitments made by lenders, would have been \$900 million.

The Issuer only has a stockholder's claim on the assets of its subsidiaries. This stockholder's claim is junior to the claims that creditors of the Issuer's subsidiaries have against those subsidiaries. Holders of the notes will only be creditors of the Issuer, and not of the Issuer's subsidiaries. As a result, all the existing and future liabilities of the Issuer's subsidiaries, including any claims of trade creditors and preferred stockholders, will be effectively senior to the notes.

The total balance sheet liabilities of the Issuer's subsidiaries after giving effect to this offering and the application of the net proceeds from the offering as of March 31, 2006, excluding unused commitments and amounts due to the Issuer, would have been \$4.1 billion.

The Issuer's subsidiaries have other liabilities, including contingent liabilities that may be significant. The indenture does not contain any limitations on the amount of additional debt that the Issuer and its subsidiaries may incur. The amounts of this debt could be substantial, and this debt may be debt of the Issuer's subsidiaries, in which case this debt would be effectively senior in right of payment to the notes.

The notes are obligations exclusively of the Issuer. Substantially all of its operations are conducted through subsidiaries. Therefore, Issuer's ability to service its debt, including the notes, is dependent upon the earnings of its subsidiaries and their ability to distribute those earnings as dividends, loans or other payments to the Issuer. Certain laws restrict the ability of these subsidiaries to pay dividends and make loans and advances to the Issuer. In addition, such subsidiaries may enter into contractual arrangements that limit their ability to pay dividends and make loans and advances to the Issuer.

Guarantees

The Issuer's obligations under the indenture will be fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of the Guarantors pursuant to the terms of the indenture. Each Guarantee will be:

- a general unsecured obligation of the applicable Guarantor;
- equal in ranking ("*pari passu*") with any existing or future unsecured debt of such Guarantor that is not expressly subordinated in right of payment to such Guarantee, including such

guarantor's guarantee of Willis North America Inc.'s senior notes due 2010 and senior notes due 2015;

- senior in right of payment to any existing or future debt of the applicable Guarantor that is expressly subordinated in right of payment to such Guarantee; and
- effectively subordinated to any existing or future secured debt of such Guarantor to the extent of the value of the assets securing such debt.

As of March 31, 2006, after giving effect to the offering and the application of the net proceeds from the offering, the total outstanding debt of the Guarantors in the aggregate would have been approximately \$900 million, none of which would have constituted secured indebtedness and none of which would have constituted subordinated indebtedness.

The obligations of each Guarantor under its Guarantee will be limited so as not to constitute a fraudulent conveyance under applicable U.S. Federal or state laws. Each Guarantor that makes a payment or distribution under its Guarantee will be entitled to a contribution from the other Guarantors in a pro rata amount based on the net assets of each Guarantor determined in accordance with generally accepted accounting principles.

Optional Redemption

The Issuer may redeem the notes in whole at any time or in part from time to time, at the Issuer's option, at a redemption price equal to the greater of:

- 100% of the principal amount of the notes being redeemed; and
- the remaining scheduled payments of principal and interest on the notes being redeemed (not including any portion of such payments of interest accrued to the date of redemption) discounted to the date of redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Rate plus 25 basis points.

In the case of any such redemption, the Issuer will also pay accrued and unpaid interest, if any, to the redemption date.

"Comparable Treasury Issue" means the U.S. Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes.

"Comparable Treasury Price" means, with respect to any redemption date, (1) the average of five Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than five such Reference Treasury Dealer Quotations, the average of all such quotations.

"Independent Investment Banker" means one of the Reference Treasury Dealers that the Issuer appoints to act as the Independent Investment Banker from time to time.

"Reference Treasury Dealer" means (a) Citigroup Global Markets Inc., (b) J.P. Morgan Securities Inc. and (c) one or more of: Greenwich Capital Markets, Inc., Credit Suisse Securities (USA) LLC and Lehman Brothers Inc. that the Issuer appoints to act as a Reference Treasury Dealer from time to time, in each case and their respective successors; *provided, however*, that if any of the foregoing ceases to be a primary dealer of U.S. government securities in New York City, the Issuer shall substitute another primary dealer of U.S. government securities.

"Reference Treasury Dealer Quotations" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the

Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee at 5:00 p.m., New York City time, on the third business day preceding the redemption date for the notes being redeemed.

"Treasury Rate" means, with respect to any redemption date: (a) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated "H.15 (519)" or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded U.S. Treasury securities adjusted to constant maturity under the caption "Treasury Constant Maturities," for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining life (as defined below), yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month); or (b) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third business day preceding the date fixed for redemption.

The Issuer will mail a notice of redemption to each holder of notes to be redeemed by first-class mail at least 30 and not more than 60 days prior to the date fixed for redemption. Any notice to holders of notes to be redeemed of such a redemption shall include the appropriate calculation of the redemption price, but need not include the redemption price itself. The actual redemption price, calculated as described above, must be set forth in an officers' certificate delivered to the trustee no later than two business days prior to the redemption date. Unless the Issuer defaults on payment of the redemption price, interest will cease to accrue on the notes to be redeemed or portions thereof called for redemption. If fewer than all of the notes to be redeemed are to be redeemed, the trustee will select, not more than 60 days prior to the redemption date, the particular notes or portions thereof for redemption from the outstanding notes not previously called (i) if the notes to be redeemed are listed on any securities exchange, in accordance with the requirements of such exchange, or (ii) if the notes to be redeemed are not so listed, by such method as the trustee deems fair and appropriate.

Certain Covenants

Limitation on Liens

The indenture provides that Willis Group Holdings Limited shall not, and shall not permit any of its subsidiaries to, directly or indirectly, incur or suffer to exist, any Lien, other than a Permitted Lien, which we refer to in this prospectus supplement as an Initial Lien, securing Debt upon any Capital Stock of any Significant Subsidiary of Willis Group Holdings Limited that is owned, directly or indirectly, by Willis Group Holdings Limited or any of its subsidiaries, in each case whether owned at the date of the original issuance of the notes or thereafter acquired, or any interest therein or any income or profits therefrom unless it has made or will make effective provision whereby the notes will be secured by such Lien equally and ratably with (or prior to) all other Debt of Willis Group Holdings Limited or any subsidiary secured by such Lien. Any Lien created for the benefit of the holders of the notes pursuant to the preceding sentence shall provide by its terms that such Lien will be automatically and unconditionally released and discharged upon release and discharge of the Initial Lien.

Limitation on Dispositions of Significant Subsidiaries

The indenture provides that Willis Group Holdings Limited shall not, and shall not permit any of its subsidiaries to, directly or indirectly, sell, transfer or otherwise dispose of, and will not permit any Significant Subsidiary to issue, any Capital Stock of any Significant Subsidiary of Willis Group Holdings

Limited. Notwithstanding the foregoing limitation, (a) Willis Group Holdings Limited and its subsidiaries may sell, transfer or otherwise dispose of, and any Significant Subsidiary may issue, any such Capital Stock to any subsidiary of Willis Group Holdings Limited, (b) any subsidiary of Willis Group Holdings Limited may sell, transfer or otherwise dispose of, and any Significant Subsidiary may issue, any such securities to Willis Group Holdings Limited or another subsidiary of Willis Group Holdings Limited, (c) Willis Group Holdings Limited and its subsidiaries may sell, transfer or otherwise dispose of, and any Significant Subsidiary may issue, any such Capital Stock, if the consideration received is at least equal to the fair market value (as determined by the board of directors of Willis Group Holdings Limited acting in good faith) of such Capital Stock, and (d) the Issuer and its subsidiaries may sell, transfer or otherwise dispose of, and any Significant Subsidiary may issue, any such securities if required by law or any regulation or order of any governmental or regulatory authority. Notwithstanding the foregoing, Willis Group Holdings Limited may merge or consolidate any of its Significant Subsidiaries into or with another one of its Significant Subsidiaries and may sell, transfer or otherwise dispose of its business in accordance with the provision described under "—Covenants, Consolidation, Merger or Sale of Assets."

Merger, Consolidation or Sale of Assets

The Issuer or any of the Guarantors, without the consent of any holder of outstanding notes, may consolidate with or merge into any other person, or convey, transfer or lease its properties and assets substantially as an entirety to, any person, *provided* that:

1. the person formed by such consolidation or into which the Issuer or such Guarantor, as the case may be, is merged or the person which acquires by conveyance or transfer or which leases the properties and assets of the Issuer or such Guarantor, as the case may be, substantially as an entirety:

(a) is organized (i) in the case of the Issuer, under the laws of any United States jurisdiction any state thereof or the District of Columbia; (ii) in the case of any Guarantor other than Willis Group Holdings Limited, under the laws of England and Wales; and (iii) in the case of Willis Group Holdings Limited, under the laws of any United States jurisdiction, any state thereof, Bermuda, England and Wales or any country that is a member of the European Monetary Union and was a member of the European Monetary Union on January 1, 2004; and

(b) expressly assumes the Issuer's or such Guarantor's obligations on the notes and under the indenture;

2. after giving effect to the transaction, no event of default shall have happened and be continuing; and

3. certain other conditions are met, including in the case of a consolidation with or merger into a person organized other than under the laws of Bermuda by Willis Group Holdings Limited or the conveyance, transfer or lease by Willis Group Holdings Limited of its properties and assets substantially as an entity to a person organized other than under the laws of Bermuda that Willis Group Holdings Limited shall have delivered, or have caused to be delivered, to the trustee an opinion of counsel to the effect that the holders will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such transaction or series of transactions and will be subject to U.S. Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such transaction or series of transactions had not occurred.

Additional Amounts

With respect to any payments made by a Guarantor that is organized other than under the laws of the United States of America, any State thereof or the District of Columbia, all payments made by the

Guarantor under, or with respect to, the notes will be made free and clear of, and without withholding or deduction for or on account of, any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto), which we collectively refer to in this prospectus supplement as the Taxes, imposed or levied by or on behalf of the jurisdiction of organization of such Guarantor or any political subdivision thereof or taxing authority therein, which we refer to in this prospectus supplement as a Taxing Jurisdiction, unless such Guarantor is required to withhold or deduct Taxes by law or by the official interpretation or administration thereof.

If any Guarantor is so required to withhold or deduct any amount for, or on account of, such Taxes from any payment made under or with respect to the notes, such Guarantor will pay such additional amounts, which we refer to in this prospectus supplement as Additional Amounts, as may be necessary so that the net amount received by each holder (including Additional Amounts) after such withholding or deduction will not be less than the amount such holder would have received if such Taxes had not been required to be withheld or deducted.

The foregoing provisions will survive any termination or discharge of the indenture and any defeasance of the notes.

Events of Default

Each of the following constitutes an event of default with respect to the notes under the indenture:

- a default in payment of interest (including Additional Amounts) on any notes when due continued for 30 days;
- a default in the payment of the principal of any notes at maturity;
- a default in the performance, or breach, of any other covenant of the Issuer or any Guarantor (other than a covenant a default in whose performance or whose breach is elsewhere dealt with or which has been included in the indenture solely for the benefit of debt securities other than such series of notes) continued for 60 days after written notice from the trustee or the holders of 25% or more in principal amount of the notes outstanding, respectively;
- a default under any Debt by the Issuer, any Guarantor or any of their respective subsidiaries that results in acceleration of the maturity of such debt, or failure to pay any such debt at maturity, in an aggregate amount greater than \$25.0 million or its foreign currency equivalent at the time;
- certain events of bankruptcy, insolvency or reorganization; and
- any Guarantee shall for any reason cease to exist or shall not be in full force and effect enforceable in accordance with its terms.

If an event of default with respect to the notes shall occur and be continuing, the trustee or the holders of not less than 25% in principal amount of the notes then outstanding may declare the unpaid principal balance immediately due and payable. Notwithstanding the foregoing, in the case an event of default arising from the events described in item (5), all outstanding notes will become due and payable immediately without further action or notice. However, any time after a declaration of acceleration with respect to any notes has been made and before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of outstanding notes may, by written notice rescind and annul such acceleration under certain circumstances. See "Modification and Waiver" below.

The Issuer must file annually with the trustee an officers' certificate stating whether or not it is in default in the performance and observance of any of the terms, provisions and conditions of the indenture and, if so, specifying the nature and status of the default.

The indenture provides that the trustee, within 60 days after the occurrence of a default, will give by mail to all holders of the notes notice of all defaults known to it, unless such default has been cured or waived; but in the case of a default other than in respect of the payment of the principal of or interest on any notes, the trustee shall be protected in withholding such notice if a committee of its trust officers in good faith determines that the withholding of such notice is in the interests of the holders of the notes.

Modification and Waiver

The modification and amendment provisions of the indenture described under "Description of Debt Securities—Modification and Waiver" will apply to the notes.

Satisfaction and Discharge of Indenture; Defeasance

The discharge, defeasance and covenant defeasance provisions of the indenture described under "Description of Debt Securities—Satisfaction and Discharge of Indenture; Defeasance" in the accompanying prospectus will apply to the notes.

Regarding the Trustee

The indenture provides that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an event of default, the trustee will exercise such rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The indenture and provisions of the Trust Indenture Act that are incorporated by reference therein contain limitations on the rights of the trustee, should it become one of the Issuer's creditors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions with the Issuer or any of its affiliates; *provided, however*, that if it acquires any conflicting interest (as defined in the indenture or in the Trust Indenture Act), it must eliminate such conflict or resign.

JPMorgan Chase & Co. ("JPMorgan") has entered into an agreement with The Bank of New York Company, Inc. ("BNY") pursuant to which JPMorgan intends to exchange portions of its corporate trust business, including municipal and corporate trusteeships, for BNY's consumer, small business and middle market banking business. This transaction has been approved by both companies' boards of directors and is subject to regulatory approvals. It is expected to close in the late third quarter or fourth quarter of 2006.

Governing Law

The indenture and the notes will be governed by and construed in accordance with the laws of the State of New York.

SEC Reports and Reports to Holders

The SEC reports and reports to holders provisions of the indenture described under "Description of Debt Securities—Reports by Parent Guarantor" in the accompanying prospectus will apply to the notes.

Book-Entry, Delivery and Form

DTC, New York, NY, will act as securities depository for the notes. The notes will be issued as fully registered Global Securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC.

Beneficial interests in the notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants. Investors may elect to hold interests in the notes through DTC if they are participants in the DTC system, or indirectly through organizations which are participants in the DTC system.

DTC has informed us that DTC is:

- a limited-purpose trust company organized under the New York Banking Law;
- a "banking organization" within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a "clearing corporation" within the meaning of the New York Uniform Commercial Code; and
- a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.

DTC holds securities that its participants, which we refer to in this prospectus supplement as the Direct Participants, deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Direct Participants' accounts, which eliminates the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others, which we refer to in this prospectus supplement as Indirect Participants, such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly. The rules applicable to DTC and its Direct and Indirect Participants are on file with the Securities and Exchange Commission.

Purchases of the notes under the DTC system must be made by or through Direct Participants, which receive a credit for the notes on DTC's records. The ownership interest of each actual purchaser of each note, which we refer to in this prospectus supplement as the Beneficial Owner, is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmations from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in notes except in the event that use of the book-entry system for the notes is discontinued. As a result, the ability of a person having a beneficial interest in the notes to pledge such interest to persons or entities that do not participate in the DTC system, or to otherwise take actions with respect to such interest, may be affected by the lack of a physical certificate evidencing such interest. In addition, the laws of some states require that certain persons take physical delivery in definitive form of securities that they own and that security interests in negotiable instruments can only be perfected by delivery of certificates representing the instruments. Consequently, the ability to transfer notes evidenced by the global notes will be limited to such extent.

To facilitate subsequent transfers, all notes deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the notes. DTC's records reflect only the identity of the Direct Participants to whose accounts such notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the notes. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments of principal, interest and premium, if any, on the notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from the Issuer on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name" and will be the responsibility of such Participant and not of DTC, or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividends to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the Issuer's responsibility and disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

Investors electing to hold their notes through DTC will follow the settlement practices applicable to U.S. corporate debt obligations. The securities custody accounts of investors will be credited with their holdings on the settlement date against payment in same-day funds within DTC effected in U.S. dollars.

Secondary market sales of book-entry interests in the notes between DTC Participants will occur in the ordinary way in accordance with DTC rules and will be settled using the procedures applicable to United States corporate debt obligations in DTC's Settlement System.

If DTC is at any time unwilling, unable or ineligible to continue as depository and a successor depository is not appointed by the Issuer within 90 days, the Issuer will issue individual notes in exchange for the Global Security representing such notes. In addition, the Issuer may, at any time and in its sole discretion, determine not to have the notes represented by one or more Global Securities and, in such event, will issue individual notes in exchange for the Global Security or Securities representing the notes. Also, if an event of default with respect to the notes shall have occurred and be continuing, the Issuer may, and upon the request of the trustee, shall execute, notes in definitive form in exchange for the Global Security or Securities representing the notes. Individual notes will be issued in denominations of \$2,000 and any integral multiple of \$1,000 above that amount.

The Issuer will not have any responsibility or obligation to participants in the DTC system or the persons for whom they act as nominees with respect to the accuracy of the records of DTC, its nominee or any Direct or Indirect Participant with respect to any ownership interest in the notes, or with respect to payments to or providing of notice for the Direct Participants, the Indirect Participants or the beneficial owners of the notes.

The information in this section concerning DTC and its book-entry systems has been obtained from sources that we believe to be reliable. Neither we, the trustee nor the underwriter, dealers or agents are responsible for the accuracy or completeness of this information.

Clearstream and Euroclear

Links have been established among DTC, Clearstream Banking, societe anonyme, Luxembourg ("Clearstream Banking SA") and Euroclear (two international clearing systems that perform functions similar to those that DTC performs in the U.S.), to facilitate the initial issuance of book-entry securities and cross-market transfers of book-entry securities associated with secondary market trading.

Although DTC, Clearstream Banking SA and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform such procedures, and the procedures may be modified or discontinued at any time.

Clearstream Banking SA and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the aggregate ownership of each of the U.S. agents of Clearstream Banking SA and Euroclear, as participants in DTC.

When book-entry securities are to be transferred from the account of a DTC participant to the account of a Clearstream Banking SA participant or a Euroclear participant, the purchaser must send instructions to Clearstream Banking SA or Euroclear through a participant at least one business day prior to settlement. Clearstream Banking SA or Euroclear, as the case may be, will instruct its U.S. agent to receive book-entry securities against payment. After settlement, Clearstream Banking SA or Euroclear will credit its participant's account. Credit for the book-entry securities will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants can employ their usual procedures for sending book-entry securities to the relevant U.S. agent acting for the benefit of Clearstream Banking SA or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. Thus, to the DTC participant, a cross market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream Banking SA or Euroclear participant wishes to transfer book-entry securities to a DTC participant, the seller must send instructions to Clearstream Banking SA or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream Banking SA or Euroclear will instruct its U.S. agent to transfer the book-entry securities against payment. The payment will then be reflected in the account of the Clearstream Banking SA or Euroclear participant the following day, with the proceeds back-valued to the value date (which would be the preceding day, when settlement occurs in New York). If settlement is not completed on the intended value date (i.e., the trade fails), proceeds credited to the Clearstream Banking SA or Euroclear participant's account would instead be valued as of the actual settlement date.

CERTAIN MATERIAL INCOME TAX CONSEQUENCES

Bermuda Taxation

The following summary of Bermuda tax matters is based upon the advice of Appleby Spurling Hunter, our Bermuda counsel, regarding current law and practice in Bermuda. This summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to purchase the Issuer's notes. Investors are urged to consult their professional advisers on the possible tax consequences of their subscribing for, purchasing, holding, selling or redeeming the Issuer's notes under the laws of their countries of citizenship, residence, ordinary residence or domicile.

On the date of this prospectus supplement, there is no Bermuda income, corporation or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by us or our shareholders or noteholders, other than shareholders or noteholders ordinarily resident in Bermuda.

Pursuant to the Exempted Undertakings Tax Protection Act 1966, as amended, we have received an undertaking from the Bermuda Ministry of Finance that, in the event of there being enacted in Bermuda any legislation imposing withholding or other tax computed on profits or income, or computed on any capital assets, gain or appreciation or any tax in the nature of estate duty or inheritance tax, such tax shall not until March 28, 2016 be applicable to us or to any of our operations, or to our shares, debentures or other obligations except and so far as such tax applies to persons ordinarily resident in Bermuda and holding such shares, debentures or other obligations or any land leased or let to us in Bermuda.

As an exempted company, we are liable to pay to the Bermuda Government an annual Government fee presently not to exceed \$27,825, based upon our assessable capital.

United States Taxation

This section describes the material United States federal income tax consequences of owning the notes offered in this offering. It applies to you only if you acquire notes in the offering at the offering price and you hold your notes as capital assets for tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

- a dealer in securities or currencies;
- a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;
- a bank;
- a life insurance company;
- a tax-exempt organization;
- a person that owns notes that are a hedge or that are hedged against interest rate risks;
- a person that owns notes as part of a straddle or conversion transaction for tax purposes; or
- a United States holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

If you purchase notes at a price other than the offering price, the amortizable bond premium or market discount rules may also apply to you. You should consult your tax advisor regarding this possibility.

This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds the notes, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the notes should consult its tax advisor with regard to the United States federal income tax treatment of an investment in the notes.

Please consult your own tax advisor concerning the consequences of owning these notes in your particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.

United States Holders

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of a note and you are:

- a citizen or resident of the United States;
- a domestic corporation;
- an estate whose income is subject to United States federal income tax regardless of its source; or
- a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If you are not a United States holder, this subsection does not apply to you and you should refer to "United States Alien Holders" below.

Payments of Interest. You will be taxed on interest on your note as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for tax purposes.

Purchase, Sale and Retirement of the Notes. Your tax basis in your note generally will be its cost. You will generally recognize capital gain or loss on the sale or retirement of your note equal to the difference between the amount you realize on the sale or retirement, excluding any amounts attributable to accrued but unpaid interest, and your tax basis in your note. Capital gain of a noncorporate United States holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year. The deductibility of capital losses is subject to certain limitations.

United States Alien Holders

This subsection describes the tax consequences to a United States alien holder. You are a United States alien holder if you are the beneficial owner of a note and are, for United States federal income tax purposes:

- a nonresident alien individual;
- a foreign corporation; or
- an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from a note.

If you are a United States holder, this subsection does not apply to you.

Under United States federal income and estate tax law, and subject to the discussion of backup withholding below, if you are a United States alien holder of a note:

- the Issuer and other U.S. payors generally will not be required to deduct United States withholding tax from payments of principal and interest to you if, in the case of payments of interest:
 - (a) you do not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Issuer entitled to vote;
 - (b) you are not a controlled foreign corporation that is related to the Issuer through stock ownership; and
 - (c) the U.S. payor does not have actual knowledge or reason to know that you are a United States person and:
 - i. you have furnished to the U.S. payor an Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are (or, in the case of a United States alien holder that is a partnership or an estate or trust, such forms certifying that each partner in the partnership or beneficiary of the estate or trust is) a non-United States person;
 - ii. in the case of payments made outside the United States to you at an offshore account (generally, an account maintained by you at a bank or other financial institution at any location outside the United States), you have furnished to the U.S. payor documentation that establishes your identity and your status as the beneficial owner of the payment for United States federal income tax purposes and as a non-United States person;
 - iii. the U.S. payor has received a withholding certificate (furnished on an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form) from a person claiming to be:
 - a. a withholding foreign partnership (generally a foreign partnership that has entered into an agreement with the Internal Revenue Service to assume primary withholding responsibility with respect to distributions and guaranteed payments it makes to its partners);
 - b. a qualified intermediary (generally a non-United States financial institution or clearing organization or a non-United States branch or office of a United States financial institution or clearing organization that is a party to a withholding agreement with the Internal Revenue Service); or
 - c. a U.S. branch of a non-United States bank or of a non-United States insurance company;

and the withholding foreign partnership, qualified intermediary or U.S. branch has received documentation upon which it may rely to treat the payment as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payment on the notes in accordance with U.S. Treasury regulations (or, in the case of a qualified intermediary, in accordance with its agreement with the Internal Revenue Service);

- iv. the U.S. payor receives a statement from a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business;
 - a. certifying to the U.S. payor under penalties of perjury that an Internal Revenue Service Form W-8BEN or an acceptable substitute form has been received from you by it or by a similar financial institution between it and you; and

- b. to which is attached a copy of the Internal Revenue Service Form W-8BEN or acceptable substitute form; or
- v. the U.S. payor otherwise possesses documentation upon which it may rely to treat the payment as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payments on the notes in accordance with U.S. Treasury regulations;
- no deduction for any United States federal withholding tax will be made from any gain that you realize on the sale or exchange of your note.

Further, a note held by an individual who at death is not a citizen or resident of the United States will not be includible in the individual's gross estate for United States federal estate tax purposes if:

- the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Issuer entitled to vote at the time of death; and
- the income on the note would not have been effectively connected with a United States trade or business of the decedent at the same time.

Backup Withholding and Information Reporting

In general, if you are a noncorporate United States holder, the Issuer and other payors are required to report to the Internal Revenue Service all payments of principal and interest on your note. In addition, we and other payors are required to report to the Internal Revenue Service any payment of proceeds of the sale of your note before maturity within the United States. Additionally, backup withholding will apply to any payments if you fail to provide an accurate taxpayer identification number, or you are notified by the Internal Revenue Service that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

In general, if you are a United States alien holder, payments of principal or interest made by the Issuer and other payors to you will not be subject to backup withholding and information reporting, provided that the certification requirements described above under "—United States Alien Holders" are satisfied or you otherwise establish an exemption. However, we and other payors are required to report payments of interest on your notes on Internal Revenue Service Form 1042-S even if the payments are not otherwise subject to information reporting requirements. In addition, payment of the proceeds from the sale of notes effected at a United States office of a broker will not be subject to backup withholding and information reporting provided that:

- the broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the broker:
 - (a) an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person; or
 - (b) other documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations; or
- you otherwise establish an exemption.

If you fail to establish an exemption and the broker does not possess adequate documentation of your status as a non-United States person, the payments may be subject to information reporting and backup withholding. However, backup withholding will not apply with respect to payments made to an offshore account maintained by you unless the broker has actual knowledge that you are a United States person.

In general, payment of the proceeds from the sale of notes effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

- the proceeds are transferred to an account maintained by you in the United States;
- the payment of proceeds or the confirmation of the sale is mailed to you at a United States address; or
- the sale has some other specified connection with the United States as provided in U.S. Treasury regulations;

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of notes effected at a United States office of a broker) are met or you otherwise establish an exemption.

In addition, payment of the proceeds from the sale of notes effected at a foreign office of a broker will be subject to information reporting if the broker is:

- a United States person;
- a controlled foreign corporation for United States tax purposes;
- a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or
- a foreign partnership, if at any time during its tax year:

(a) one or more of its partners are "U.S. persons", as defined in U.S. Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership; or

(b) such foreign partnership is engaged in the conduct of a United States trade or business;

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of notes effected at a United States office of a broker) are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

UNDERWRITING

Citigroup Global Markets Inc. and J.P. Morgan Securities Inc. are acting as joint book-running managers of the offering and are acting as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of the notes set forth opposite the underwriter's name.

Underwriter	Principal amount
Citigroup Global Markets Inc.	\$ 97,500,000
J.P. Morgan Securities Inc.	97,500,000
Greenwich Capital Markets, Inc.	30,000,000
Credit Suisse Securities (USA) LLC	19,500,000
Lehman Brothers Inc.	19,500,000
Comerica Securities, Inc.	12,000,000
Lloyds TSB Bank plc	12,000,000
SunTrust Capital Markets, Inc.	12,000,000
Total	\$ 300,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes. We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933. Lloyds TSB is not a U.S. registered broker-dealer and, therefore, to the extent it intends to effect any sales of the notes in the United States, it will do so through one or more U.S. registered broker-dealers as permitted by regulations promulgated under the Securities Exchange Act of 1934, as amended.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.400% of the principal amount of the notes. The underwriters may allow, and dealers may reallow a concession not to exceed 0.250% of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concessions.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	Paid by Willis North America
Per note	0.650%

In connection with the offering, Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., on behalf of the underwriters, may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of the notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids for or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., in covering syndicate short positions or making stabilizing purchases, repurchases notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering will be \$400,000.

The underwriters and their affiliates have performed commercial banking, investment banking and advisory services for us from time to time for which they have received customary fees and expenses. The underwriters or certain of their affiliates have committed amounts to our \$300 million revolving credit facility as lenders. The underwriters or their affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

THE WILLIS GROUP

Willis Group Holdings Limited is the ultimate holding company for the Willis Group. We trace our history to 1828 and are one of the largest insurance brokers in the world.

Willis Group Holdings Limited was incorporated in Bermuda on February 8, 2001 as an exempted company under the Companies Act 1981 of Bermuda, as amended, for the sole purpose of redomiciling the ultimate parent company of the Willis Group (comprised of TA I Limited and subsidiaries) from the United Kingdom to Bermuda. We completed an initial public offering of approximately 16% of our shares in June 2001. In November 2001, May 2002, April 2003, February 2004 and November 2005 approximately 14%, 15%, 16%, 15% and 4% of our shares were publicly sold through secondary public offerings.

We provide a broad range of insurance brokerage and risk management consulting services to our worldwide clients. We have significant market positions in the United States, in the United Kingdom and, directly and through our associates, in many other countries. We are a recognized leader in providing specialized risk management advisory and other services on a global basis to clients in various industries including the aerospace, marine, construction and energy industries.

In our capacity as an advisor and insurance broker, we act as an intermediary between our clients and insurance carriers by advising our clients on their risk management requirements, helping clients determine the best means of managing risk, and negotiating and placing insurance risk with insurance carriers through our global distribution network.

We assist clients in the assessment of their risks, advise on the best ways of transferring suitable risk to the global insurance and reinsurance markets and then execute the transactions at the most appropriate available price, terms and conditions for our clients. Our global distribution network enables us to place the risk in the most appropriate insurance or reinsurance market worldwide. We also offer clients a broad range of services to help them to identify and control their risks. These services range from strategic risk consulting (including providing actuarial analyses) to a variety of due diligence services to the provision of practical on-site risk control services (such as health and safety or property loss control consulting). We also assist clients in planning how to manage incidents or crises when they occur. These services include contingency planning, security audits and product tampering plans. We are not an insurance company and therefore we do not underwrite insurance risks for our own account.

We and our associates serve a diverse base of clients located in more than 190 countries. These clients include major multinational and middle-market companies in a variety of industries, as well as public institutions and individual clients. Many of our client relationships span decades. With approximately 15,400 employees around the world and a network of about 300 offices in some 80 countries, in each case including our associates, we believe we are one of only three insurance brokers in the world possessing the global operating presence, broad product expertise and extensive distribution network necessary to meet effectively the global risk management needs of many of our clients.

- (2) payments made from the trust referred to under "Satisfaction and Discharge of Indenture; Defeasance".

An issuer or a guarantor also may not make any payment upon or in respect of the senior subordinated debt securities or the subordinated debt securities, except in such subordinated securities or from the trust referred to under "Satisfaction and Discharge of Indenture; Defeasance", if

- (1) a default in the payment of the principal of, premium, if any, or interest on, or of unreimbursed amounts under drawn letters of credit or in respect of bankers' acceptances or fees relating to letters of credit or bankers' acceptances constituting, designated senior indebtedness occurs and is continuing beyond any applicable period of grace, a payment default, or
- (2) any other default occurs and is continuing with respect to designated senior indebtedness that permits holders of the designated senior indebtedness as to which such default relates to accelerate its maturity without further notice, except such notice as may be required to effect such acceleration, or the expiration of any applicable grace periods, a non-payment default, and the applicable trustee receives a payment blockage notice with respect to such default from a representative of holders of such designated senior indebtedness.

Payments on the senior subordinated debt securities or the subordinated debt securities, as the case may be, including any missed payments, may and shall be resumed:

- (1) in the case of a payment default, upon the date on which such default is cured or waived or shall have ceased to exist or such designated senior indebtedness shall have been discharged or paid in full in cash or cash equivalents and all outstanding letter of credit obligations shall have been fully cash collateralized; and
- (2) in case of a nonpayment default, the earlier of
 - the date on which such nonpayment default is cured or waived,
 - 179 days after the date on which the applicable payment blockage notice is received, each such period, the payment blockage period, or
 - the date such payment blockage period shall be terminated by written notice to the applicable trustee from the requisite holders of such designated senior indebtedness necessary to terminate such period or from their representative.

No new payment blockage period may be commenced until 365 days have elapsed since the effectiveness of the immediately preceding payment blockage notice. However, if any payment blockage notice within such 365-day period is given by or on behalf of any holders of designated senior indebtedness, other than the agent under our senior credit facility, the agent under our senior credit facility may give another payment blockage notice within such period. In no event, however, may the total number of days during which any payment blockage period or periods is in effect exceed 179 days in the aggregate during any 365 consecutive day period. No nonpayment default that existed or was continuing on the date of delivery of any payment blockage notice to the applicable trustee shall be, or

be made, the basis for a subsequent payment blockage notice unless such default shall have been cured or waived for a period of not less than 90 days.

If an issuer or a guarantor fails to make any payment on the senior subordinated debt securities or the subordinated debt securities when due or within any applicable grace period, whether or not on account of the payment blockage provision referred to above, such failure would constitute an event of default under the applicable indenture and would enable the holders of the senior subordinated debt securities or the subordinated debt securities to accelerate the maturity of such debt securities.

The applicable indenture will further require that an issuer or a guarantor promptly notify holders of senior indebtedness if payment of the senior subordinated debt securities or the subordinated debt securities is accelerated because of an event of default.

"Designated senior indebtedness" means:

- senior indebtedness under our senior credit facility (including any amendments, replacements or refinancings thereof); and
- any other senior indebtedness permitted under the applicable indenture the principal amount of which is \$25.0 million or more and that has been designated by an issuer as designated senior indebtedness.

"Senior indebtedness" means:

- (1) the obligations under our senior credit facility; and
- (2) the obligations under any other indebtedness permitted to be incurred by an issuer under the terms of the applicable indenture, unless the instrument under which such indebtedness is incurred expressly provides that it is on a parity with or subordinated in right of payment to the senior subordinated debt securities or the subordinated debt securities, as the case may be, including, with respect to clauses (1) and (2), interest accruing subsequent to the filing of, or which would have accrued but for the filing of, a petition for bankruptcy, in accordance with and at the rate specified in the documents evidencing or governing such senior indebtedness, whether or not such interest is an allowable claim in such bankruptcy proceeding.

Notwithstanding anything to the contrary in the foregoing, senior indebtedness will not include:

- any liability for federal, state, local or other taxes owed or owing by an issuer;
- any obligation of an issuer to its direct or indirect parent corporations or to any of its subsidiaries;
- any accounts payable or trade liabilities, including obligations in respect of funds held for the account of third parties, arising in the ordinary course of business, including guarantees thereof or instruments evidencing such liabilities, other than obligations in respect of letters of credit under our senior credit facility;
- any indebtedness that is incurred in violation of the applicable indenture;
- indebtedness which, when incurred and without respect to any election under Section 1111(b) of Title 11, United States Code, is without recourse to an issuer;
- in the case of the subordinated debt securities, any indebtedness, guarantee or obligation of an issuer which is subordinate or junior to any other indebtedness, guarantee or obligation of such issuer;
- indebtedness evidenced by the subordinated debt securities and, in the case of the senior subordinated debt securities, indebtedness evidenced by the senior subordinated debt securities; and

- capital stock of an issuer.

"Senior Indebtedness" of an issuer or any guarantor of the senior subordinated debt securities or the subordinated debt securities has a correlative meaning.

Conversion Rights

The prospectus supplement will provide whether the offered debt securities will be convertible and, if so, the initial conversion price or conversion rate at which such convertible debt securities will be convertible into shares of Willis Group Holdings Limited common stock. The holder of any convertible debt security will have the right exercisable at any time during the time period specified in the prospectus supplement, unless previously redeemed by Willis Group Holdings Limited, to convert such debt security at the principal amount (or, if such debt security is an original issue discount security, such portion of the principal amount thereof as is specified in the terms of such debt security) into shares of common stock at the conversion price or conversion rate set forth in the prospectus supplement, subject to adjustment. The holder of a convertible debt security may convert a portion of the debt security which is \$1,000 or any integral multiple of \$1,000. In the case of debt securities called for redemption, conversion rights will expire at the close of business on the date fixed for the redemption as may be specified in the prospectus supplement, except that in the case of redemption at the option of the holder, if applicable, such right will terminate upon receipt of written notice of the exercise of the option.

In certain events, the conversion rate will be subject to adjustment as set forth in the applicable indenture. Such events may include:

- the issuance of shares of any class of capital stock of Willis Group Holdings Limited as a dividend on the common stock into which the debt securities of such series are convertible;
- subdivisions, combinations and reclassifications of the common stock into which debt securities of such series are convertible;
- the issuance to all holders of common stock into which debt securities of such series are convertible of rights or warrants entitling the holders (for a period not exceeding 45 days) to subscribe for or purchase shares of common stock at a price per share less than the current market price per share of common stock (as defined in the indentures); and
- the distribution to all holders of common stock of evidences of debt of Willis Group Holdings Limited or of assets (excluding cash dividends paid from retained earnings and dividends payable in common stock for which adjustment is made as referred to above) or subscription rights or warrants (other than those referred to above).

No adjustment of the conversion price or conversion rate will be required unless an adjustment would require a cumulative increase or decrease of at least 1% in such price or rate. Fractional shares of common stock will not be issued upon conversion, but Willis Group Holdings Limited will pay a cash adjustment for it. Convertible debt securities surrendered for conversion between the record date for an interest payment, if any, and the interest payment date (except convertible debt securities called for redemption on a redemption date during such period) must be accompanied by payment of an amount equal to the interest which the registered holder is to receive.

Defaults, Notice and Waiver

The following are events of default under the indentures with respect to debt securities of any series issued thereunder:

- default in the payment of interest on any debt security of that series when due continued for 30 days (whether or not such payment is prohibited by the subordination provisions, if any, of the indenture);
- default in the payment of the principal of (or premium, if any on) any debt security of that series at its maturity (whether or not payment is prohibited by the subordination provisions, if any, of the indenture);
- default in the deposit of any sinking fund payment, when due by the terms of any debt security of that series (whether or not payment is prohibited by the subordination provisions, if any, of the indenture);
- default in the performance, or breach, of any other covenant of the applicable issuer, any of its restricted subsidiaries, in the case of Holdings debt securities or Trinity debt securities, Trinity or any of its restricted subsidiaries, in the case of Willis North America debt securities, or any guarantor specified in the indenture or any debt security of that series (other than a covenant a default in whose performance or whose breach is elsewhere dealt with or which has been included in the indenture solely for the benefit of debt securities other than that series), continued for 90 days after written notice from the trustee or the holders of 25% or more in principal amount of the debt securities of such series outstanding;
- certain events of bankruptcy, insolvency or reorganization;
- if applicable, any guarantee shall for any reason cease to exist or shall not be in full force and effect enforceable in accordance with its terms; and
- any other event of default provided with respect to debt securities of that series.

If an event of default with respect to debt securities of any series at the time outstanding shall occur and be continuing, the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may declare the unpaid principal balance immediately due and payable. Notwithstanding the foregoing, in the case of an event of default arising from the events described in the fifth bullet above, all outstanding debt securities of the applicable series will become due and payable without further action or notice. However, any time after a declaration of acceleration with respect to debt securities of any series has been made and before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of outstanding debt securities of that series may, by written notice rescind and annul such acceleration under certain circumstances. For information as to waiver of defaults, see "Modification and Waiver" below.

Reference is made to the prospectus supplement relating to any series of offered debt securities which are original issue discount securities for the particular provision relating to acceleration of the maturity of a portion of the principal amount of such original issue discount securities upon the occurrence of an event of default and the continuation thereof.

The applicable issuer and, in the case of Willis North America debt securities, Trinity Acquisition Limited must file annually with each trustee an officers' certificate stating whether or not the issuer is in default in the performance and observance of any of the terms, provisions and conditions of the respective indenture and, if so, specifying the nature and status of the default.

Each indenture provides that the trustee, within 90 days after the occurrence of a default, will give by mail to all holders of debt securities of any series notice of all defaults with respect to such series

known to it, unless such default has been cured or waived; but, in the case of a default in the payment of the principal of (or premium, if any) or interest on any debt security of such series or in the payment of any sinking fund or similar obligation installment with respect to debt securities of such series, the trustee shall be protected in withholding such notice if the Board of Directors or such committee of directors as designated in such indenture or responsible officer of the trustee in good faith determines that the withholding of such notice is in the interest of such holders.

Each indenture contains a provision entitling the trustee to be indemnified by holders of debt securities before proceeding to exercise any right or power under such indenture at the request of any such holders. Each indenture provides that the holders of a majority in principal amount of the then outstanding debt securities of any series may, subject to certain exceptions, direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred upon the trustee regarding the debt securities of such series. The right of a holder to institute a proceeding with respect to each indenture is subject to certain conditions precedent including notice and indemnity to the trustee, but the holder has an absolute right to receipt of principal and interest when due and to institute suit for payment of principal and interest.

Covenants

Consolidation, Merger and Sale of Assets

Unless otherwise indicated in the prospectus supplement relating to offered debt securities, the applicable issuer and, in the case of Willis North America debt securities and the Trinity debt securities, any of the guarantors without the consent of any holder of outstanding debt securities, may consolidate with or merge into any other person, or convey, transfer or lease its properties and assets substantially as an entirety to, any person, provided that the person formed by such consolidation or into which the applicable issuer or, in the case of Willis North America debt securities and the Trinity debt securities, any of the guarantors, is merged or the person which acquires by conveyance or transfer or which leases the properties and assets of the applicable issuer or guarantor, as the case may be, substantially as an entirety is, in the case of Willis North America Inc., organized under the laws of the United States, any State thereof, or the District of Columbia, or in the case of any guarantor other than Willis Group Holdings Limited, under the laws of England and Wales, and in the case of Willis Group Holdings Limited, under the laws of any United States jurisdiction, any state thereof, Bermuda, England and Wales or any country that is a member of the European Monetary Union and was such member on January 1, 2004, as the case may be, and expressly assumes the applicable issuer's or guarantor's obligations, as the case may be, on the debt securities and under the indenture, that after giving effect to the transaction, no event of default shall have happened and be continuing, and that certain other conditions are met.

Other Covenants

The prospectus supplement relating to offered debt securities will describe any other material covenants in respect of a series of debt securities. Unless otherwise indicated in the applicable prospectus supplement, any covenants applicable to the Holdings debt securities will be binding on Holdings and its restricted subsidiaries and any covenants applicable to the Trinity debt securities or the Willis North America debt securities will be binding on Trinity and its restricted subsidiaries, with the exception of any covenant regarding filing reports under the Securities Exchange Act of 1934, as amended, which will be binding on Willis Group Holdings Limited. Other than the covenant included in the indentures described under "Consolidation, Merger and Sale of Assets" above or any covenant described in the applicable prospectus supplement, the debt securities will not have the benefit of any covenants that limit or restrict our business or operations or the incurrence of additional indebtedness by the applicable issuer or any guarantor, and there are no covenants or other provisions in the indenture providing for a put or increased interest or otherwise that would afford holders of debt securities additional protection in the event of a recapitalization transaction, a change of control transaction or a highly leveraged transaction.

Modification and Waiver

Modification and amendments of the indentures may be made by the applicable issuer, if applicable, any guarantor, and the trustee with the consent of the holders of a majority in principal amount of the then outstanding debt securities of each series affected provided, that no modification or amendment may, without the consent of the holder of each outstanding debt security affected:

- change the stated maturity of the principal of, or any installment of principal of or interest on, any debt security;
- reduce the principal amount of, or any premium or interest, on any debt security;
- reduce the amount of principal of an original issue discount security payable upon acceleration of the maturity thereof;
- adversely affect any right of repayment at the option of the holder of any security, or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation of the holder or modify the payment terms of any sinking fund or similar obligation;
- impair the right to commence suit for the enforcement of any payment on or after the stated maturity thereof with respect to any debt security; or
- reduce the percentage in principal amount of outstanding debt securities of any series, the consent of the holders of which is required for modification or amendment of the indenture or for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults.

Without the consent of any holder of outstanding debt securities, the applicable issuer, any guarantor, and the trustee may amend or supplement the indentures and each series of debt securities to evidence the succession of another corporation to the applicable issuer or a guarantor and the assumption of such successor to the obligations thereof, to establish the form or terms of any series of debt securities, to cure any ambiguity or inconsistency or to provide for debt securities in bearer form in addition to or in place of registered debt securities or to make any other provisions that do not adversely affect the rights of any holder of outstanding debt securities, including adding guarantees.

The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of (or premium, if any) or interest on any debt security of that series or in respect of a provision which under such indenture cannot be modified or amended without the consent of the holder of each outstanding debt security of that series.

Satisfaction and Discharge of Indenture; Defeasance

The applicable indenture with respect to the debt securities of any series may be discharged, subject to the terms and conditions as specified in the applicable prospectus supplement when:

- all debt securities, with all debt securities, with the exceptions provided for in the applicable indenture, of that series have been delivered to the applicable Trustee for cancellation;
- all debt securities of that series not theretofore delivered to the applicable Trustee for cancellation:
- have become due and payable;
- will become due and payable at their stated maturity within one year; or
- are to be called for redemption within one year; or

- certain events or conditions occur as specified in the applicable prospectus supplement.

Unless otherwise specified in the prospectus supplement, the applicable issuer can terminate all of its obligations under the indenture with respect to the debt securities of any series, other than the obligation to pay interest on, premium, if any, and the principal of the debt securities of such series and certain other obligations, known as "covenant defeasance", at any time by:

- depositing money or U.S. government obligations with the trustee in an amount sufficient to pay the principal of and interest on the debt securities of such series to their maturity; and
- complying with certain other conditions, including delivery to the trustee of an opinion of counsel to the effect that holders of debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of such covenant defeasance.

In addition, unless otherwise specified in the prospectus supplement, the applicable issuer can terminate all of its obligations under the indenture with respect to the debt securities of any series, including the obligation to pay interest on, premium, if any, and the principal of the debt securities of such series, known as "legal defeasance", at any time by:

- depositing money or U.S. government obligations with the trustee in an amount sufficient to pay the principal of and interest on the debt securities of such series to their maturity, and
- complying with certain other conditions, including delivery to the trustee of an opinion of counsel stating that there has been a change in the federal tax law since the date of the indenture to the effect that holders of debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of such legal defeasance or the delivery to the trustee of a ruling or other formal statement or action by the Internal Revenue Service to the same effect.

Guarantees

Unless otherwise set forth in the applicable prospectus supplement, the Holdings debt securities will not be guaranteed. Payment of the principal of, premium, if any, and interest on the Trinity debt securities will be fully and unconditionally guaranteed, jointly and severally, by Willis Group Holdings Limited, TA I Limited, TA II Limited and TA III Limited, which collectively comprise all of its direct and indirect parent entities. Payment of the principal of, premium, if any, and interest on the Willis North America debt securities will be fully and unconditionally guaranteed, jointly and severally, by Willis Group Holdings Limited, TA I Limited, TA II Limited, TA III Limited, Trinity Acquisition Limited, TA IV Limited and Willis Group Limited, which collectively comprise all of its direct and indirect parent entities. The guarantees will be made on a senior, senior subordinated or subordinated basis corresponding to the relative ranking of the underlying debt securities.

The obligations of each guarantor under its guarantee will be limited so as not to constitute a fraudulent conveyance under applicable U.S. Federal or state laws. Each guarantor that makes a payment or distribution under its guarantee will be entitled to a contribution from any other guarantor in a pro rata amount based on the net assets of each guarantor determined in accordance with generally accepted accounting principles.

A guarantee issued by any guarantor will be automatically and unconditionally released and discharged upon any sale, exchange or transfer to any person not an affiliate of Willis Group Holdings Limited of all of Willis Group Holdings Limited's capital stock in, or all or substantially all the assets of, such guarantor.

Trustees

JPMorgan Chase Bank, N.A. is the trustee under the senior indentures. JPMorgan Chase Bank, N.A. is the trustee under the senior subordinated indentures. JPMorgan Chase Bank, N.A. is the trustee under the subordinated indentures. The trustees may perform certain services for and transact other banking business with Willis Group Holdings Limited, Trinity Acquisition Limited, Willis North America Inc. or, if applicable, any guarantor from time to time in the ordinary course of business.

Any issuance or transfer of any debt security of Willis Group Holdings Limited and the conversion of any debt securities into common stock of Willis Group Holdings Limited will be covered by the general permission of the Bermuda Monetary Authority dated June 1, 2005.

DESCRIPTION OF CAPITAL STOCK

The following summary is a description of the material terms of the capital stock of Willis Group Holdings Limited. Our memorandum of association and bye-laws are filed as exhibits to the registration statements to which this prospectus relates.

General

We were incorporated as an exempted company under The Companies Act 1981 of Bermuda, as amended. Accordingly, the rights of our shareholders are governed by Bermuda law and our memorandum of association and bye-laws.

Our authorized capital consists of 4,000 million shares of common stock and 1,000 million shares of preferred stock. As of May 31, 2006, our issued and outstanding share capital consisted of 157,428,986 shares of common stock. So long as our shares are listed on an appointed stock exchange, such as the New York Stock Exchange, persons who are not residents of Bermuda may freely hold, vote and transfer the shares that we are offering in this prospectus.

Common Stock

Our current authorized but unissued shares are at the disposal of our Board of Directors, who may issue, grant options over or otherwise dispose of those shares to any persons and on any terms they deem appropriate, provided the issuance does not violate Bermuda law or our bye-laws and we obtain Bermuda Monetary Authority approval in applicable circumstances.

Voting Rights and Shareholders' Meetings

Holders of our common stock are entitled to one vote per share held of record on all matters submitted to a vote of shareholders. Unless required by Bermuda law or our bye-laws, voting at general meetings is decided by a simple majority of the votes cast at a meeting at which a quorum is present. Under our bye-laws, shareholders representing at least 50% of the issued and outstanding shares of common stock present in person or by proxy and entitled to vote constitute a quorum. Under our bye-laws, the vote of 75% of the common shares entitled to vote and the approval of a majority of the board is required to amend bye-laws regarding appointment and removal of directors, remuneration, powers and duties of the board, indemnification of directors and officers, director's interests and the procedures for amending bye-laws. Any share entitled to vote may be voted by written proxy and proxies may be valid for all general meetings. There are no limitations under Bermuda law on the voting rights of non-resident or foreign shareholders.

Under Bermuda law, a company is required to convene at least one general shareholders' meeting per calendar year. Under Bermuda law and our bye-laws, general meetings of shareholders may either

be annual or special. Under Bermuda law, special general meetings must be called upon the request of shareholders holding not less than 10% of the paid up capital of the company carrying the right to vote at general meetings. Directors may also convene special general meetings as they deem necessary.

Bermuda law requires that shareholders be given at least five days' advance notice of a general meeting, although the accidental omission of notice to any person does not invalidate the proceedings at a meeting. Under our bye-laws, notice of annual general meetings must be made in writing at least 21 days before the meeting and notice of special general meetings must be made in writing at least seven days before the meeting.

Election or Removal of Directors

Under Bermuda law and our bye-laws, directors are elected at the annual general meeting or to serve until their successors are elected or appointed, unless they are earlier removed or resign.

The election of our directors is determined by a simple majority of votes cast, except as otherwise required by law. Our shareholders do not have cumulative voting rights. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all directors.

Under Bermuda law and our bye-laws, a director may be removed at a special general meeting of shareholders specifically called for that purpose, provided that the director was served with at least 14 days' notice. The director has a right to be heard at the meeting. Any vacancy created by the removal of a director at a special general meeting may be filled at that meeting by the election of another director in his or her place or, in the absence of any election, by the Board of Directors.

Duties of Directors and Officers

Under the Companies Act 1981, the duties of directors and officers are to act honestly and in good faith with a view to the best interests of the company and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. Every director and officer of the company is also required to comply with the provisions of the Companies Act 1981, all related regulations and the Company's bye-laws. In addition, the directors are subject to common law fiduciary duties. These duties include the duty to act bona fide in the best interests of the company, and not for any collateral purpose.

Under Bermuda law, the directors' duties are owed to the company itself, not to its shareholders or members, creditors, or any class of either shareholders, members or creditors. In discharging his or her duties, a director is required to exercise the care and skill which may be reasonably expected of a person with the director's skills and experience.

Bermuda law renders void any provision in the bye-laws or in any contract between a company and any director exempting him or her from or indemnifying him or her against any liability in respect of any fraud or dishonesty of which he or she may be guilty in relation to the company. In addition, the Companies Act 1981 provides that where a director, officer or auditor of a company is found liable to any person for damages arising out of the performance of any function of his or her duties, he will only be held jointly and severally liable if it is proved that he or she knowingly engaged in fraud or dishonesty. In any other case, the court will determine the percentage of responsibility of all parties it determines has contributed to the loss or liability of the plaintiff, and the liability of any one director, officer or auditor shall be equal to the total loss suffered by the plaintiff multiplied by the director's, officer's or auditor's percentage of responsibility as determined by the court.

Dividend Rights

Dividends are payable only when declared by the Board of Directors. Bermuda law prohibits a company from declaring a dividend or making a distribution out of contributed surplus if there are reasonable grounds for believing that the company is, or would after payment, be unable to pay its liabilities as they become due, or the realizable value of the company's assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium accounts. All dividends unclaimed for a period of six years after having been declared will be forfeited and revert to us. Except as noted in this paragraph, there are no limitations under Bermuda law on the rights of non-resident or foreign shareholders to receive dividends.

Rights In Liquidation

In the event of our liquidation, after payment of all debts and liabilities, we will distribute our remaining assets to our shareholders in proportion to their ownership of outstanding shares, subject to the preferential rights accorded to any series of preferred stock.

Pre-Emptive Rights

Generally, holders of our common stock have no pre-emptive rights.

Changes In Capital

We may from time to time by shareholder resolution passed by a simple majority:

- increase our share capital to be divided into shares in the amount that the resolution prescribes;
- divide our shares into several classes with different rights;
- consolidate and divide any or all of our share capital into shares of a larger amount than our existing shares;
- sub-divide any of our shares into shares of a smaller amount than that fixed by our memorandum of association, as long as the proportion between the amount paid and the amount, if any, unpaid on each reduced share be the same as on the share from which the reduced share is derived;
- cancel shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person, and diminish the amount of our share capital by the amount of the cancelled shares;
- change the currency denomination of our share capital; and
- authorize the reduction of issued share capital or any share premium.

Transfer Of Shares

Transfer of shares must be in writing. The instruments of transfer of a share may be in any form which our Board of Directors approves.

Modification Of Rights

Our bye-laws provide that, subject to Bermuda law, the rights attached to any class of shares of common stock may be modified by a resolution passed at a separate general meeting of the holders representing at least a majority of the votes cast of that class. For purposes of this meeting, two or more shareholders present in person or by proxy representing at least a majority of the issued and outstanding shares of that class and entitled to vote will be a quorum.

Borrowing Power

Neither Bermuda law nor our bye-laws will restrict in any way our power to borrow and raise funds. The decision to borrow funds is passed by or under direction of our Board of Directors, no shareholders' resolution being required.

Preferred Stock

Authorized shares of our preferred stock may be issued at the discretion of our Board of Directors without any further action by the shareholders, except as required by applicable law or regulation. Our Board of Directors is authorized, from time to time, to divide the preferred stock into classes or series, to designate each class or series and to determine for each class or series its respective rights and preferences, including, without limitation, any of the following:

- the rate of dividends and whether dividends will be cumulative or have a preference over the common stock in right of payment;
- the terms and conditions upon which shares may be redeemed and the redemption price;
- sinking fund provisions for the redemption of shares;
- the amount payable in respect of each share upon a voluntary or involuntary liquidation of us;
- the terms and conditions upon which shares may be converted into other securities of ours, including common stock;
- limitations and restrictions on payment of dividends or other distributions on, or redemptions of, other classes of our capital stock junior than that series, including the common stock;
- conditions and restrictions on the incurrence of certain indebtedness or issuance of other senior classes of capital stock;
- the terms on which shares may be redeemed, if any; and
- voting rights.

Any series or class of preferred stock could, as determined by our Board of Directors at the time of issuance, rank senior to our common stock with respect to dividends, voting rights, redemption and liquidation rights. The preferred stock authorized is of the type commonly known as blank-check preferred stock.

The prospectus supplement relating to the new series will specify whether the series of preferred stock will be issued separately, as part of warrant units or upon exercise of warrants.

Ranking

Each new series of preferred stock will rank equally with each other series of preferred stock and prior to our common stock regarding the distribution of dividends or disposition of other assets, unless otherwise specified in the applicable prospectus supplement.

Dividends

Holders of each new series of preferred stock will be entitled to receive cash dividends, if declared by the Board of Directors out of funds legally available for cash dividends. For each series, we will specify in the applicable prospectus supplement:

- the dividend rates;
- whether the rates will be fixed or variable or both;

- the dates of distribution of the cash dividends; and
- whether the dividends on any series of preferred stock will be cumulative or non-cumulative.

We will pay dividends to holders of record of preferred stock as they appear on our records, on the record dates fixed by the Board of Directors.

We cannot declare or pay full dividends on funds set apart for the payment of dividends on any series of preferred stock unless dividends have been paid or set apart for payment on a proportionate basis with other equity securities which rank equally with the preferred stock regarding the distribution of dividends. If we do not pay full dividends on all equity securities which rank equally, then each series of preferred stock will share dividends in proportion with our other equity securities that rank equally with that series.

Conversion and Exchange

The prospectus supplement for any new series of preferred stock will state the terms and other provisions, if any, on which shares of the new series of preferred stock are convertible into shares of our common stock or exchangeable for securities of a third party.

Redemption

We will specify in the prospectus supplement applicable to each new series of preferred stock:

- whether it will be redeemable at any time, in whole or in part, at our option or the holder of the preferred stock;
- whether it will be subject to mandatory redemption pursuant to a sinking fund or on other terms; and
- the redemption prices.

In the event that preferred stock is partially redeemed, the shares to be redeemed will be determined by lot, on a proportionate basis or any other method determined to be equitable by the Board of Directors.

Dividends will cease to accrue on shares of preferred stock called for redemption, and all rights of holders of redeemed shares will terminate, on and after a redemption date, except for the right to receive the redemption price, unless we default in the payment of the redemption price.

Liquidation Preference

Upon the voluntary or involuntary liquidation, dissolution or winding up of Willis Group Holdings Limited, holders of each series of preferred stock will be entitled to receive:

- distributions upon liquidation in the amount set forth in the applicable prospectus supplement; plus
- any accrued and unpaid dividends.

These payments will be made to holders of preferred stock out of our assets available for distribution to shareholders before any distribution is made on any securities ranking junior to the preferred stock regarding liquidation rights.

In the event that holders of preferred stock are not paid in full upon a liquidation, dissolution or winding up of Willis Group Holdings Limited, then these holders will share, on a proportionate basis, any future distribution of our assets with holders of our other securities that rank equally with them.

After payment of the full amount of the liquidation preference to which they are entitled, the holders of each series of preferred stock will not be entitled to any further participation in any distribution of our assets.

Voting Rights

The holders of shares of preferred stock will have no voting rights except as indicated in the certificate of designations relating to the series, the applicable prospectus supplement or as required by applicable law.

Transfer Agent and Registrar

We will specify each of the transfer agent, registrar, dividend disbursing agent and redemption agent for shares of each new series of preferred stock in the applicable prospectus supplement.

Reservation of Common Stock

We will reserve the full number of shares of our common stock issuable on conversion of the preferred stock out of the total of our authorized but unissued shares of common stock to permit the conversion of the preferred stock into shares of common stock.

Other Matters

Access to books and records and dissemination of information. Members of the general public have the right to inspect the public documents of a company available at the office of the Registrar of Companies in Bermuda. These documents include the company's certificate of incorporation, its memorandum of association, including its objects and powers, and any alteration to the company's memorandum of association.

The shareholders have the additional right to inspect the bye-laws of the company, minutes of general meetings and the company's audited financial statements, which must be presented at the annual general meeting. The register of shareholders of a company is also open to inspection by shareholders without charge and to members of the general public on the payment of a fee. A company is required to maintain its share register in Bermuda but may, subject to the provisions of the Companies Act 1981, establish a branch register outside Bermuda.

A company is required to keep at its registered office a register of its directors and officers which is open for inspection for not less than two hours in each day by members of the public without charge. Bermuda law does not, however, provide a general right for shareholders to inspect or obtain copies of any other corporate records.

Amendment of memorandum of association and bye-laws. Bermuda law provides that the memorandum of association of a company may be amended by a resolution passed at a general meeting of shareholders of which due notice has been given. In certain circumstances, an amendment to the memorandum of association also requires the approval of the Bermuda Minister of Finance, who may grant or withhold approval at his discretion. However, such approval of the Bermuda Minister of Finance is not required for an amendment which alters or reduces a company's share capital as provided in the Companies Act 1981. Except as set forth therein, the bye-laws may be amended by a resolution passed by a majority of votes cast at a general meeting.

Under Bermuda law, the holders of an aggregate of no less than 20% in par value of a company's issued share capital have the right to apply to the Bermuda Court for an annulment of any amendment of the memorandum of association adopted by shareholders at any general meeting. This does not apply to an amendment which alters or reduces a company's share capital as provided in the Companies Act 1981. Where such an application is made, the amendment becomes effective only to the

extent that it is confirmed by the Bermuda Court. An application for amendment of the memorandum of association must be made within 21 days after the date on which the resolution altering the company's memorandum is passed. Such application may be made on behalf of the persons entitled to make the application by one or more of their number as they may appoint in writing for the purpose. No such application may be made by persons voting in favor of the amendment.

Appraisal rights and shareholder suits. Under Bermuda law, in the event of an amalgamation of two Bermuda companies, a shareholder who did not vote in favor of the amalgamation and is not satisfied that fair value has been paid for his shares may apply to the Bermuda Court to appraise the fair value of his shares. The amalgamation of a company with another company requires the amalgamation agreement to be approved by:

- a meeting of the holders of shares of the amalgamating company;
- a meeting of the holders of each class of such shares; and
- in certain circumstances, the consent of the Bermuda Minister of Finance (who may grant or withhold consent at his discretion).

Class actions and derivative actions are generally not available to shareholders under Bermuda law. The Bermuda courts, however, would ordinarily be expected to permit a shareholder to commence an action in the name of a company to remedy a wrong done to the company where the act complained of:

- is alleged to be beyond the corporate power of the company;
- is illegal; or
- would result in the violation of the company's memorandum of association or bye-laws.

Furthermore, consideration would be given by the Bermuda courts to acts that are alleged to constitute a fraud against the minority shareholders or, for instance, where an act requires the approval of a greater percentage of the company's shareholders than those who actually approved it.

When the affairs of a company are being conducted in a manner oppressive or prejudicial to the interests of some part of the shareholders, one or more shareholders may apply to the Bermuda courts for an order regulating the company's conduct of affairs in the future or ordering the purchase of the shares of any shareholder by other shareholders or by the company.

Bermuda Monetary Authority approval will be required for the issuance and or transfer of any preferred stock or common stock to persons that are residents of Bermuda.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase shares of common stock or preferred stock or debt securities of Willis Group Holdings Limited. We may issue warrants independently of, or together with, any other securities, including as part of a warrant unit, and warrants may be attached to or separate from those securities.

Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent. The warrant agent will act solely as our agent in connection with a series of warrants and will not assume any obligation or relationship of agency for or with holders or beneficial owners of warrants. The following describes the general terms and provisions of the warrants offered by this prospectus. The applicable prospectus supplement will describe any other terms of the warrant and the applicable warrant agreement.

The applicable prospectus supplement will describe the terms of any warrants, including the following:

- the title and aggregate number of the warrants;
- any offering price of the warrants;
- the designation and terms of any securities that are purchasable upon exercise of the warrants;
- the number of shares or aggregate principal amount of the securities purchasable upon exercise of a warrant and the price of such securities;
- if applicable, the designation and terms of the securities with which the warrants are issued and the number of the warrants issued with each security;
- if applicable, the date from and after which the warrants and any securities issued with them will be separately transferable;
- the time or period when the warrants are exercisable and the final date on which the warrants may be exercised and terms regarding any right of Willis Group Holdings Limited to accelerate this final date;
- if applicable, the minimum or maximum amount of the warrants exercisable at any one time;
- any currency or currency units in which the offering price and the exercise price are payable;
- any applicable anti-dilution provisions of the warrants;
- any applicable redemption or call provisions; and
- any additional terms of the warrants not inconsistent with the provisions of the warrant agreement.

The applicable prospectus supplement will describe the specific terms and other provisions of any warrant units.

The issuance of any warrants to purchase shares of common or preferred stock or other debt securities to persons that are not residents of Bermuda will be covered by the general permission of the Bermuda Monetary Authority dated June 1, 2005.

DESCRIPTION OF STOCK PURCHASE CONTRACTS, STOCK PURCHASE UNITS AND PREPAID STOCK PURCHASE CONTRACTS

Willis Group Holdings Limited may issue stock purchase contracts representing contracts obligating holders to purchase from us, and us to sell to the holders, a specified number of shares of common stock of Willis Group Holdings Limited at a future date or dates. The price per share of common stock may be fixed at the time the stock purchase contracts are issued or may be determined

by reference to a specific formula set forth in the stock purchase contracts. The stock purchase contracts may be issued separately or as a part of stock purchase units, consisting of a stock purchase contract and debt securities or debt obligations of third parties, including U.S. Treasury securities, securing the holders' obligations to purchase the common stock under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice-versa. These payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations in a specified manner and in certain circumstances we may deliver newly issued prepaid stock purchase contracts upon release to a holder of any collateral securing each holder's obligation under the original stock purchase contract.

The prospectus supplement will describe the terms of any stock purchase contracts or stock purchase units, and, if applicable, prepaid stock purchase contracts.

BOOK ENTRY PROCEDURES AND SETTLEMENT

Most offered securities will be book-entry (global) securities. Upon issuance, all book-entry securities will be represented by one or more fully registered global securities, without coupons. Each global security will be deposited with, or on behalf of, The Depository Trust Company, ("DTC"), a securities depository, and will be registered in the name of DTC or a nominee of DTC. DTC will thus be the only registered holder of these securities.

Purchasers of securities may only hold interests in book-entry securities through DTC if they are participants in the DTC system. Purchasers may also hold interests through a securities intermediary—banks, brokerage houses and other institutions that maintain securities accounts for customers that have an account with DTC or its nominee. DTC will maintain accounts showing the security holdings of its participants, and these participants will in turn maintain accounts showing the security holdings of their customers. Some of these customers may themselves be securities intermediaries holding securities for their customers. Thus, each beneficial owner of a book-entry security will hold that security indirectly through a hierarchy of intermediaries, with DTC at the "top" and the beneficial owner's own securities intermediary at the "bottom."

The securities of each beneficial owner of a book-entry security will be evidenced solely by entries on the books of the beneficial owner's securities intermediary. The actual purchaser of the securities will generally not be entitled to have the securities represented by the global securities registered in its name and will not be considered the owner under the declaration. In most cases, a beneficial owner will also not be able to obtain a paper certificate evidencing the holder's ownership of securities. The book-entry system for holding securities eliminates the need for physical movement of certificates and is the system through which most publicly traded common stock is held in the United States. However, the laws of some jurisdictions require some purchasers of securities to take physical delivery of their securities in definitive form. These laws may impair the ability to transfer book-entry securities.

A beneficial owner of book-entry securities represented by a global security may exchange the securities for definitive (paper) securities only if:

- DTC is unwilling or unable to continue as depository for such global security and we do not appoint a qualified replacement for DTC within 90 days;
- We in our sole discretion decide to allow some or all book-entry securities to be exchangeable for definitive securities in registered form; or
- In the case of debt securities, an event of default has occurred and is continuing with respect to such book-entry debt securities and, in exchange for any such securities, we decide to, or upon the request of the applicable trustee we shall, deliver new debt securities of that series in definitive registered form in the same aggregate principal amount as the global debt securities being exchanged.

Unless we indicate otherwise, any global security that is exchangeable will be exchangeable in whole for definitive securities in registered form, with the same terms and of an equal aggregate principal amount. Definitive securities will be registered in the name or names of the person or persons specified by DTC in a written instruction to the registrar of the securities. DTC may base its written instruction upon directions that it receives from its participants.

In this prospectus, for book-entry securities, references to actions taken by security holders will mean actions taken by DTC upon instructions from its participants, and references to payments and notices of redemption to security holders will mean payments and notices of redemption to DTC as the registered holder of the securities for distribution to participants in accordance with DTC's procedures.

DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered under section 17A of the Securities Exchange Act of 1934. The rules applicable to DTC and its participants are on file with the SEC.

We will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interest in the book-entry securities or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

Clearstream and Euroclear

Links have been established among DTC, Clearstream Banking, societe anonyme, Luxembourg ("Clearstream Banking SA") and Euroclear (two international clearing systems that perform functions similar to those that DTC performs in the U.S.), to facilitate the initial issuance of book-entry securities and cross-market transfers of book-entry securities associated with secondary market trading.

Although DTC, Clearstream Banking SA and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform such procedures, and the procedures may be modified or discontinued at any time.

Clearstream Banking SA and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the aggregate ownership of each of the U.S. agents of Clearstream Banking SA and Euroclear, as participants in DTC.

When book-entry securities are to be transferred from the account of a DTC participant to the account of a Clearstream Banking SA participant or a Euroclear participant, the purchaser must send instructions to Clearstream Banking SA or Euroclear through a participant at least one business day prior to settlement. Clearstream Banking SA or Euroclear, as the case may be, will instruct its U.S. agent to receive book-entry securities against payment. After settlement, Clearstream Banking SA or Euroclear will credit its participant's account. Credit for the book-entry securities will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants can employ their usual procedures for sending book-entry securities to the relevant U.S. agent acting for the benefit of Clearstream Banking SA or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. Thus, to the DTC participant, a cross market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream Banking SA or Euroclear participant wishes to transfer book-entry securities to a DTC participant, the seller must send instructions to Clearstream Banking SA or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream Banking SA or Euroclear will instruct its U.S. agent to transfer the book-entry securities against payment. The payment will then be reflected in the account of the Clearstream Banking SA or Euroclear participant the following day, with the proceeds back-valued to the value date (which would be the preceding day, when settlement occurs in New York). If settlement is not completed on the intended value date (i.e.,

the trade fails), proceeds credited to the Clearstream Banking SA or Euroclear participant's account would instead be valued as of the actual settlement date.

PLAN OF DISTRIBUTION

Initial Offering and Sale of Securities

We and the Subsidiary Issuers may offer and sell the securities from time to time as follows:

- to or through underwriters or dealers for resale;
- directly to other purchasers;
- through designated agents; or
- through a combination of any of these methods of sale.

In addition, we may issue the securities as a dividend or distribution or in a subscription rights offering to our existing securityholders. In some cases, we or dealers acting with us or on our behalf may also purchase securities and reoffer them to the public by one or more of the methods described above. This prospectus may be used in connection with any offering of our securities or debt securities of the Subsidiary Issuers through any of these methods or other methods described in the applicable prospectus supplement.

If we offer securities in a subscription rights offering to our existing securityholders, we may enter into a standby underwriting agreement with dealers, acting as standby underwriters. We may pay the standby underwriters a commitment fee for the securities they commit to purchase on a standby basis. If we do not enter into a standby underwriting arrangement, we may retain a dealer-manager to manage a subscription rights offering for us.

Any underwriter or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement.

In some cases, we and any Subsidiary Issuer may also repurchase the securities and reoffer them to the public by one or more of the methods described above. This prospectus and the applicable prospectus supplement may be used in connection with any offering of securities through any of these methods or other methods described in the applicable prospectus supplement. In addition, we, either of the Subsidiary Issuers or any of their or our respective affiliates may use this prospectus and the applicable prospectus supplement in a remarketing or other resale transaction involving the securities after the initial sale. These transactions may be executed at negotiated prices that are related to market prices at the time of purchase or sale, or at other prices.

The securities, including securities issued or to be issued by us or the Subsidiary Issuers or securities borrowed from third parties in connection with arrangements under which we or the Subsidiary Issuers agree to issue securities to underwriters or their affiliates on a delayed or contingent basis, that we and any Subsidiary Issuer distribute by any of these methods may be sold to the public, in one or more transactions, at:

- a fixed price or prices, which may be changed;
- market prices prevailing at the time of sale;
- prices related to prevailing market prices; or
- negotiated prices.

This prospectus may be delivered by underwriters and dealers in connection with short sales undertaken to hedge exposures under commitments to acquire securities of us or the Subsidiary Issuers to be issued on a delayed or contingent basis.

We and the Subsidiary Issuers may solicit, or may authorize underwriters, dealers or agents to solicit, offers to purchase securities directly from the public from time to time, including pursuant to contracts that provide for payment and delivery on future dates. We and the Subsidiary Issuers may also designate agents from time to time to solicit offers to purchase securities from the public on our or the Subsidiary Issuers' behalf. The prospectus supplement relating to any particular offering of securities will name any agents designated to solicit offers, and will include information about any commissions we or the Subsidiary Issuers may pay the agents and will describe the material terms of any such delayed delivery arrangements, in that offering. Agents may be deemed to be "underwriters" as that term is defined in the Securities Act.

In connection with the sale of securities, underwriters may receive compensation from us or the Subsidiary Issuers or from purchasers of the securities, for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities may be deemed to be underwriters, and any discounts or commissions they receive from us or the Subsidiary Issuers, and any profit on the resale of the securities they realize may be deemed to be underwriting discounts and commissions under the Securities Act. Any such underwriter, dealer or agent will be identified, and any such compensation received will be described, in the applicable prospectus supplement.

We or the Subsidiary Issuers may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or the Subsidiary Issuers or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us or the Subsidiary Issuers in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or a post-effective amendment.

Unless otherwise specified in the applicable prospectus supplement, each series of the securities will be a new issue with no established trading market, other than the common stock. Any common stock sold pursuant to a prospectus supplement will be listed on the New York Stock Exchange, subject to official notice of issuance. We and the Subsidiary Issuers may elect to list any of the other securities on an exchange, but are not obligated to do so. It is possible that one or more underwriters may make a market in a series of the securities, but will not be obligated to do so and may discontinue any market making at any time without notice. Therefore, no assurance can be given as to the liquidity of the trading market for the securities.

If dealers are utilized in the sale of the securities, we and the Subsidiary Issuers will sell the securities to the dealers as principals. The dealers may then resell the securities to the public at varying prices to be determined by such dealers at the time of resale. The names of the dealers and the terms of the transaction will be set forth in the applicable prospectus supplement.

We and the Subsidiary Issuers may enter into agreements with underwriters, dealers and agents who participate in the distribution of the securities which may entitle these persons to indemnification by us and any Subsidiary Issuer against certain liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make. Any agreement in which we or the Subsidiary Issuers agree to indemnify underwriters, dealers and agents against civil liabilities will be described in the applicable prospectus supplement.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in an offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the securities while an offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the securities. As a result, the price of the securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected on an exchange or automated quotation system, if the securities are listed on that exchange or admitted for trading on that automated quotation system, or in the over-the-counter market or otherwise.

If so indicated in the applicable prospectus supplement, we will authorize underwriters or other persons acting as our agents to solicit offers by certain purchasers to purchase the securities from us at the public offering price stated in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a future date. These contracts will be subject to only those conditions stated in the prospectus supplement, and the prospectus supplement will state the commission payable to the solicitor of such offers.

We have not authorized any dealer, salesperson or other person to give any information or represent anything not contained in this prospectus. You must not rely on any unauthorized information. This prospectus does not constitute an offer to sell or solicit an offer to buy any securities in any jurisdiction where the offer or sale is not permitted.

Underwriters, dealers and agents, and their respective affiliates and associates, may engage in transactions with or perform services for us or the Subsidiary Issuers, or be customers of ours or the Subsidiary Issuers, in the ordinary course of business.

Remarketing Transactions and Other Resales

We, the Subsidiary Issuers or any of their or our respective affiliates may use this prospectus in connection with offers and sales of the securities in remarketing transactions and other resales. In a remarketing transaction, we or the Subsidiary Issuers may resell a security acquired from other holders, after the original offering and sale of the security. Resales may occur in the open market or may be privately negotiated, at prevailing market prices at the time of resale or at related or negotiated prices. In these transactions, our affiliates or affiliates of either of the Subsidiary Issuers may act as principal or agent, including as agent for the counterparty in a transaction in which the affiliate acts as principal, or as agent for both counterparties in a transaction in which the affiliate does not act as principal. Our affiliates and affiliates of any of the Subsidiary Issuers may receive compensation in the form of discounts and commissions, including from both counterparties in some cases.

In connection with a remarketing transaction, one or more firms, referred to as "remarketing firms", may also offer or sell the securities, if the prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as agents for us or the Subsidiary Issuers. These remarketing firms will offer or sell the securities pursuant to the terms of the securities. The applicable prospectus supplement will identify any remarketing firm and the terms of its agreement, if any, with us or the Subsidiary Issuers and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in

connection with the securities they remarket. Remarketing firms may be entitled to indemnification by us or the Subsidiary Issuers under agreements that may be entered into with us or the Subsidiary Issuers against certain civil liabilities, including liabilities under the Securities Act, and may be customers of, engage in transactions with or perform services for us and the Subsidiary Issuers in the ordinary course of business.

Sales by Selling Securityholders

Selling securityholders may use this prospectus in connection with resales of the securities. The applicable prospectus supplement will identify the selling securityholders and the terms of the securities. Selling securityholders may be deemed to be underwriters in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act. The selling securityholders will receive all the proceeds from the sale of the securities. We will not receive any proceeds from sales by selling securityholders.
